The GPS data for the system's operator, provided by Aqua Utilities Inc, forNovember 9 and November 15, 2022, does not agree with the sample locations and times provided on the MRFs for PWS 0610084 WoodlandHills, PWS 0610214 Spanish Oaks Addition, PWS 0610099 HiddenValley Water System, PWS 0610163 Saratoga Estates, and PWS 0490042FRF Water Systems 1 3 4 5 6 7 8 9. In addition, a sample was allegedly collected from Well 2 - PS 1 (G0610099B) but it was not in service because it had no well pump. After investigating the incidents, AquaUtilities Inc terminated the operator. | Collection of Samples After Routine Distribution Total Coliform Positive SampleDuring the assessment, it was determined that the system has not been collecting the appropriate samples after a routine distribution total coliform positive sample. The original total coliform positive routine sample was collected November 9, 2022 and repeat samples were collected November 15, 2022. | Records Maintenance | 06/29/2023 | |
| 1004 | TX - North - Fort Worth | Woodland Hills | 3391 | 11/17/2022 | 11/17/2022 | Drinking Water Event | MCL Violation (STI) | Revised Total Coliform Rule | NOV | E. coli (L2A) Woodland Hills TX0610084 | RESOLVED | Revised Total Coliform Rule Sample Siting Plan (SSP)During the assessment, it was determined that the system needs to update their SSP map as required by 30 TAC §290.109(d)(6). The system submited various maps for review with the Level 2 Assessment but should have one concise SSP map. In addition, the system noted the sampler did not collect samples per the SSP. The system stated operators would be trained on following the SSP. | Maintenance and Housekeeping PracticesDuring the assessment, it was determined that the system was not ensuring the good working condition and general appearance of the system's facilities and equipment as required by 30 TAC §290.46(m). The system stated the chlorine feed rate was not maintained. The system should ensure equipment and facilities are routinely monitored. | Sampling | 06/29/2023 | |

|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| TX | TX - East | TX - East - Spring Southeast | Ashley Oaks Wastewater | 5963 | 7/1/2024 | 2 | Two enteroccoci exceeded the permitted single grab. The permitted daily average Flow was exceeded. TCEQ granted an enforcement discretion due to Hurricane Beryl. | Self Reported Violation | RESOLVED | WW-ENT, WW-FLOW | False, True | Extreme Events | Hurricane Beryl/High flows due to over 13.5" rainfall during the previous 5 days-I&I | Extreme Weather Event - No action required. | Complete | On 8/27 Abel Bautista requested enforcement discretion related to hurricane. TCEQ granted an enforcement discretion due to Hurricane Beryl. | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southeast | Ashley Oaks Wastewater | 5739 | 5/1/2024 | 1 | The permitted Enterococci single grab was exceeded | Self Reported Violation | RESOLVED | WW-ENT | False | Design/Capacity Deficiency | I&I Issue. The sample was collected when flow was high. | Collection System Analysis completed pending construction in the 5 year capital plan | Ongoing | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southeast | Ashley Oaks Wastewater | 5092 | 1/1/2024 | 1 | The permitted e-cocci single grab was exceeded | Self Reported Violation | RESOLVED | WW-ENT | False | Design/Capacity Deficiency | I&I causing high flows during rainy days | Collection System Analysis completed pending construction in the 5 year capital plan | Ongoing | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southeast | Astro Wastewater | 6487 | 10/1/2024 | 1 | The eColi single grab exceeded the permitted maximum | Self Reported Violation | RESOLVED | WW-EC | False | Equipment Failure | Operator found breaker tripped. Reset. | Breaker Reset | Complete | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | B and W Gathering Wastewater | 6639 | 11/1/2024 | 1 | The effluent pH was below the permitted limitation | Self Reported Violation | RESOLVED | WW-pH | False | Ops Error/Deficiency | Unknown. Operator obtained a 7 pH; the lab obtained 5.6. | Monitoring and verified meter calibration | Complete | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | B and W Gathering Wastewater | 5246 | 2/1/2024 | 1 | The permitted chlorine residual was exceeded | Self Reported Violation | RESOLVED | WW-TRC | False | Equipment Failure | Chlorine injector was partially clogged and operator could not adjust dosage | Injector cleared | Complete | | Wastewater DMR Event |
| TX | TX - North | TX - North - Granbury | Blue Water Shores Wastewater | 6741 | 6/1/2024 | 2 | The DO was below the permitted minimum | Self Reported Violation | RESOLVED | WW-DO | False | Ops Error/Deficiency | A contractor was operating the plant. After the results came back from the lab, our operator went and increase the air to the CCC. | Operational adjustment | Complete | | Wastewater DMR Event |
| TX | TX - North | TX - North - Granbury | Blue Water Shores Wastewater | 5380 | 3/1/2024 | 31 | The effluent BOD exceeded the permitted daily average concentration by 0.13 mg/l | Self Reported Violation | RESOLVED | WW-BOD | True | Design/Capacity Deficiency | Operator reported that the plant was operating normally and there were no issues when the sample showing a BOD of 26 was collected. He reported that the sample showed a clear effluent. This was the last sample for March with no opportunity to collect additional samples. | Monitoring, no issue found | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southeast | Brentwood Wastewater | 5381 | 3/1/2024 | 1 | The permitted e-Coli single grab was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Equipment Failure | Broken tubing connection on the suction side. The tubing was replaced. | Feed tube replaced | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southeast | Brentwood Wastewater | 5094 | 1/1/2024 | 1 | The permitted e-coli single grab was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Design/Capacity Deficiency | I&I. over 6" rainfall in the previous 4 days of sample collection | | | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | Briar Creek Manor Wastewater | 6764 | 12/1/2024 | 1 | eColi exceeded the permitted single grab | Self Reported Violation | RESOLVED | WW-EC | False | Equipment Failure | Bleach pump went out, it was replaced | Chemical pump replaced | Complete | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | Briar Creek Manor Wastewater | 6492 | 10/1/2024 | 1 | The permitted TRC was exceeded | Self Reported Violation | RESOLVED | WW-TRC | False | Ops Error/Deficiency | None received from operator | No issue identified | | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | Briar Creek Manor Wastewater | 6284 | 8/1/2024 | 3 | Total Chlorine Residual was out of permit | Self Reported Violation | RESOLVED | WW-TRC | False | Ops Error/Deficiency | Bleach tubing was leaking, unable to set the correct dosage to keep residual in compliance | Feed tube replaced | Complete | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | Briar Creek Manor Wastewater | 5975 | 7/1/2024 | 31 | The Total Phosphorus concentration exceeded the permitted daily average | Self Reported Violation | RESOLVED | WW-TP | True | Ops Error/Deficiency | Chemical delivery delays | Worked with supplier to ensure treatment chemcials are avalible | Complete | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | Briar Creek Manor Wastewater | 5867 | 6/1/2024 | 2 | TRC was out of permit | Self Reported Violation | RESOLVED | WW-TRC | False | Equipment Failure | Backwash pump was operating more often than it should, adjusted. Flows were up and down causing the high and low residuals. | Operational adjustment | Complete | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | Briar Creek Manor Wastewater | 5740 | 5/1/2024 | 1 | Total Residual was below the permitted minimum | Self Reported Violation | RESOLVED | WW-TRC | False | Ops Error/Deficiency | Combination of lift station and tertiary filter backwash caused high flows and therefore low residual | Operational adjustment | Complete | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | Briar Creek Manor Wastewater | 5541 | 4/1/2024 | 1 | The permitted single grab ecoli was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Ops Error/Deficiency | The operator reported that the TRC was low on that day. He increased the dosage. | Operational adjustment | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Brittmoore I and II Wastewater | 6488 | 10/1/2024 | 1 | The permitted eColi single grab was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Ops Error/Deficiency | Operator covering for regular operator cleaned the weirs and the cleaning likely caused the exceedance | Operational adjustment | Complete | | Wastewater DMR Event |

| | | | | | | | | | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| TX | TX - East | TX - East - Spring Southwest | Brittmoore I and II Wastewater | 5964 | 7/1/2024 | 31 | The CBOD daily average and daily max exceeded the permitted concentrations. TCEQ granted an enforcement discretion due to Hurricane Beryl. | Self Reported Violation | RESOLVED | WW-CBOD | True | Extreme Events | Hurricane Beryl | Extreme Weather Event - No action required. | Complete | On 8/27 Abel Bautista requested enforcement discretion related to hurricane. TCEQ granted an enforcement discretion due to Hurricane Beryl. | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Brittmoore I and II Wastewater | 5742 | 5/1/2024 | 1 | The TRC was below the permitted minimum | Self Reported Violation | RESOLVED | WW-TRC | False | Equipment Failure | The chlorination system failed to operate after the power was off to the plant for 2 days (wind "storm") | Reset system | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Brittmoore I and II Wastewater | 5542 | 4/1/2024 | 1 | The permitted single grab ecoli was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Ops Error/Deficiency | The TRC and Free residual were 2.38 and 1.09. Operator reported that he was there when the lab personnel collected the sample and he followed the proper procedure.Perhaps some small debris was caught in the sample. | No issue identified | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Brittmoore I and II Wastewater | 5382 | 3/1/2024 | 1 | The permitted e-coli single grab was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Ops Error/Deficiency | The operator failed to maintain the chlorine contact basin clean by skimming the water surface as instructed. Small debris floated on the surface and was being discharged. | Training on Standard Operating Proceedures | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Brittmoore I and II Wastewater | 5243 | 2/1/2024 | 1 | The permitted E-Coli single grab concentration was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Equipment Failure | Chlorinator was not feeding under high flow. Contractor repaired issue. | Disinfection Equipment repair/upgrade | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Brittmoore I and II Wastewater | 5095 | 1/1/2024 | 31 | The permitted e-coli daily average was exceeded | Self Reported Violation | RESOLVED | WW-EC | True | Equipment Failure | Chlorinator was not feeding enough during high flow periods; contractor repaired issue. | Disinfection Equipment repair/upgrade | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Brittmoore III Wastewater | 6739 | 6/1/2024 | 2 | Two e-coli samples exceeded the permitted single grab maximum. | Self Reported Violation | RESOLVED | WW-EC | False | Equipment Failure | Chlorination equipment issue | Disinfection Equipment repair/upgrade | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Brittmoore WxNW Wastewater | 6763 | 12/1/2024 | 4 | The ecoli exceeded the permitted single grab | Self Reported Violation | RESOLVED | WW-EC | False | Equipment Failure | Plant operating with one LP causing high/low flows. Samples likely collected when high flow. | Lift pump replaced | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Brittmoore WxNW Wastewater | 6324 | 9/1/2024 | 1 | An e-coli exceeded the permitted concentration | Self Reported Violation | RESOLVED | WW-EC | False | Equipment Failure | Chlorination system failure. Valve was replaced. | Disinfection Equipment repair/upgrade | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Brittmoore WxNW Wastewater | 6641 | 8/1/2024 | | The monthly e-coli was not collected | Self Reported Violation | RESOLVED | WW-EC | False | Ops Error/Deficiency | Our contract lab failed to collect the monthly e-coli sample | Lab SOP reviewed and confirmed | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Brittmoore WxNW Wastewater | 5973 | 7/1/2024 | 1 | The e-coli exceeded the permitted single grab limitation | Self Reported Violation | RESOLVED | WW-EC | False | Ops Error/Deficiency | Operator reported a TRC of 2.35, but he was not able to explain the exceedance | No issue identified | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Brittmoore WxNW Wastewater | 5544 | 4/1/2024 | 1 | The permitted single grab ammonia was exceeded | Self Reported Violation | RESOLVED | WW-NH3 | False | Ops Error/Deficiency | Operator scheduled the cleaning of the wet well on sample day, and put the lift station back on line causing a high flow to the plant and the high ammonia. | Training on Standard Operating Proceedures | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Brushy Creek Wastewater | 5423 | 3/1/2024 | 1 | Permitted e-coli single grab was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Ops Error/Deficiency | Likely debris in sample. Good TRC (2.1) and Free Residual (1.5). Disinfection basin water surface had few very small particles floating. | Training on Standard Operating Proceedures | Complete | | Wastewater DMR Event |
| TX | TX - North | TX - North - Granbury | Canyon Creek Wastewater | 6328 | 9/1/2024 | | The permitted average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | Growth in the subdivision | Plant replacement and expansion in design w/ estimated built date 09/26 | Ongoing | | Wastewater DMR Event |
| TX | TX - North | TX - North - Granbury | Canyon Creek Wastewater | 5977 | 7/1/2024 | | The permitted daily average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | Growth in the subdivision | Plant replacement and expansion in design w/ estimated built date 09/26 | Ongoing | | Wastewater DMR Event |
| TX | TX - North | TX - North - Granbury | Canyon Creek Wastewater | 5748 | 5/1/2024 | | The permitted daily average was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | False | Design/Capacity Deficiency | I&I and increase of connection number | Plant replacement and expansion in design w/ estimated built date 09/26 | Ongoing | | Wastewater DMR Event |
| TX | TX - North | TX - North - Granbury | Canyon Creek Wastewater | 5093 | 1/1/2024 | 31 | The permitted BOD daily average concentration was exceeded | Self Reported Violation | RESOLVED | WW-BOD | True | Equipment Failure | Diffusers pipe broken | Diffuser repaired | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Cedar Point Wastewater | 5965 | 7/1/2024 | 1 | The effluent DO was below the permitted minimum | Self Reported Violation | RESOLVED | WW-DO | False | Extreme Events | Hurricane Beryl | Extreme Weather Event - No action required. | Complete | Abel Bautista requested enforcement discretion related to hurricane. Got an acknowledgement email from TCEQ on 8/29. We need to circle back at end of year to see if approved. | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Cedar Point Wastewater | 5424 | 3/1/2024 | 1 | pH was below permit | Self Reported Violation | RESOLVED | WW-pH | False | Equipment Failure | Stenner pump tubing leak, replaced | Chemical feed line replaced | Complete | | Wastewater DMR Event |
| TX | TX - North | TX - North - Fort Worth | Chisholm Spings Wastewater | 6768 | 12/1/2024 | 31 | The ammonia exceeded the permitted limitation | Self Reported Violation | RESOLVED | WW-NH3 | True | Equipment Failure | Operators were having issues with anoxic recycle and RAS pumps not operating properly the last two weeks of the month. MLSS levels in plant not adequately those 2 weeks. | Pumps repaired/replaced / new plant planned | Complete | | Wastewater DMR Event |
| TX | TX - North | TX - North - Fort Worth | Chisholm Spings Wastewater | 6740 | 11/1/2024 | 3 | The effluent nitrate and TP exceeded the permitted daily averages | Self Reported Violation | RESOLVED | WW-NO2/3, WW-TP | True, True | Ops Error/Deficiency | The laboratory reported an extremely high nitrate (24). We requested re-testing and the result came back the same. There were no issues at the plant the day the sample was collected. | No issue identified / new plant planned | Complete | | Wastewater DMR Event |
| TX | TX - North | TX - North - Fort Worth | Chisholm Spings Wastewater | 6491 | 10/1/2024 | 31 | The permitted TRC and TSS daily average were exceeded | Self Reported Violation | RESOLVED | WW-TRC, WW-TSS | False, True | Equipment Failure | Bleach pump failed; replaced. Tertiary filter was not operating (backwashing) properly. Filter manufacturer made repairs to filter and provided training to operator. | Disinfection Equipment repair/upgrade & Operational training Provided / new plant planned | Complete | | Wastewater DMR Event |

| | | | | | | | | | | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| TX | TX - North | TX - North - Fort Worth | Chisholm Spings Wastewater | 6283 | 8/1/2024 | 31 | The ammonia, TSS, Total Phosphorus and TRC exceeded the permitted concentrations | Self Reported Violation | RESOLVED | WW-NH3, WW-TP, WW-TSS, WW-TRC | True, True, True, False | Ops Error/Deficiency | Operator was unable to troubleshoot blower, filter and dosing issues | Training on Standard Operating Proceedures / new plant planned | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Classic Pines Wastewater | 5966 | 7/1/2024 | 31 | The permitted daily average ammonia was exceeded. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Self Reported Violation | RESOLVED | WW-NH3 | True | Extreme Events | Hurricane Beryl | Extreme Weather Event - No action required. | Complete | On 8/30 Abel Bautista requested enforcement discretion related to hurricane. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Classic Pines Wastewater | 5743 | 5/1/2024 | 31 | The ammonia exceeded the permitted daily average | Self Reported Violation | RESOLVED | WW-NH3 | True | Ops Error/Deficiency | Operator reported issues with blowers, but process control parameters (MLSS, DO) were not SOP compliant | Training on Standard Operating Proceedures | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Colonial Hills Wastewater | 6623 | 11/1/2024 | 1 | The permitted eColi single grab concentration was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Design/Capacity Deficiency | I&I, flow was 3 times the normal. TRC was in compliance when operator checked the plant. | Collection System Analysis pending in the 5 year capital plan | Ongoing | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Colonial Hills Wastewater | 6489 | 10/1/2024 | 1 | The total chlorine residual was below the permitted concentration | Self Reported Violation | RESOLVED | WW-TRC | False | Ops Error/Deficiency | Operator reported that he was not fully aware of the chlorination operation as he had only operated UV systems before. Abel B. explained operation of this system on 10/16. | Training on Standard Operating Proceedures | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Colonial Hills Wastewater | 6320 | 9/1/2024 | 2 | The TRC was below the permitted concentration | Self Reported Violation | RESOLVED | WW-TRC | False | Ops Error/Deficiency | Operator did not provide explanation | No issue identified | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Countryside Estates Wastewater | 5538 | 3/1/2024 | 2 | The minimum permitted chlorine residual was exceeded | Self Reported Violation | RESOLVED | WW-TRC | False | Equipment Failure | Contract operator found the bleach tubing cracked. Was replaced. | Feed tube replaced | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Creekside Wastewater | 6490 | 10/1/2024 | 1 | The permitted ammonia single grab was exceeded | Self Reported Violation | RESOLVED | WW-NH3 | False | Equipment Failure | Clarifier drive failure. Reseeding was hold off and completed the day after the sample was collected. | Clarifier drive system repaired/replaced | Complete | | Wastewater DMR Event |
| TX | TX - North | TX - North - Lake Palestine | Crestwood Wastewater | 6766 | 12/1/2024 | 1 | The TRC exceeded the permitted maximum | Self Reported Violation | RESOLVED | WW-TRC | False | Ops Error/Deficiency | Supervisor reported that the flow to the plant changed causing the high TRC, dosage was adjusted afterwards | Operational adjustment | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Deer Run Meadows Wastewater | 6280 | 8/1/2024 | 1 | The ammonia single grab exceeded the permitted concentration | Self Reported Violation | RESOLVED | WW-NH3 | False | Equipment Failure | RAS line clogged due to an empty bottle stuck inside pipeline | Line cleared | Complete | | Wastewater DMR Event |
| TX | TX - North | TX - North - Lake Palestine | Eagles Bluff Wastewater | 6770 | 12/1/2024 | | The flow exceeded the permitted limitation | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | System has exceeded the plant hydraulic capacity | Plant replacement and expansion planned | Ongoing- plant expansion and construction set for june | | Wastewater DMR Event |
| TX | TX - North | TX - North - Lake Palestine | Eagles Bluff Wastewater | 6638 | 11/1/2024 | | The permitted daily average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | System has exceeded the plant hydraulic capacity | Plant replacement and expansion planned | Ongoing-plant expansion and construction set for june | | Wastewater DMR Event |
| TX | TX - North | TX - North - Lake Palestine | Eagles Bluff Wastewater | 6285 | 8/1/2024 | | Flow exceeded the permitted daily average | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | System has exceeded the plant hydraulic capacity | Plant replacement and expansion planned | Ongoing-plant expansion and construction set for june | | Wastewater DMR Event |
| TX | TX - North | TX - North - Lake Palestine | Eagles Bluff Wastewater | 5978 | 7/1/2024 | | The permitted daily average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | System has exceeded the plant hydraulic capacity | Plant replacement and expansion planned | Ongoing-plant expansion and construction set for june | | Wastewater DMR Event |
| TX | TX - North | TX - North - Lake Palestine | Eagles Bluff Wastewater | 5750 | 5/1/2024 | | The permitted daily average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | False | Design/Capacity Deficiency | System has exceeded the plant hydraulic capacity | Plant replacement and expansion planned | Ongoing-plant expansion and construction set for june | | Wastewater DMR Event |
| TX | TX - North | TX - North - Lake Palestine | Eagles Bluff Wastewater | 5545 | 4/1/2024 | | The permitted DAF was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | False | Design/Capacity Deficiency | System has exceeded the plant hydraulic capacity | Plant replacement and expansion planned | Ongoing-plant expansion and construction set for june | | Wastewater DMR Event |
| TX | TX - North | TX - North - Lake Palestine | Eagles Bluff Wastewater | 5249 | 2/1/2024 | | The permitted monthly average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | False | Design/Capacity Deficiency | System has exceeded the plant hydraulic capacity | Plant replacement and expansion planned | Ongoing-plant expansion and construction set for june | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Wimberley | Goforth Wastewater | 6630 | 11/1/2024 | 1 | The TRC was below the permitted concentration. | Self Reported Violation | RESOLVED | WW-TRC | False | Equipment Failure | Operator reported pin hole in chlorine feed line causing the system to air lock. | Feed tube replaced | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northwest | Greenfield Wastewater | 5244 | 2/1/2024 | 29 | The permitted TSS daily average was exceeded | Self Reported Violation | RESOLVED | WW-TSS | True | Influent Excursion / Source Water Issue | FOG issue, solids not settling normally. | Influent quality issue. Collection system inspection and customer complaince reviewed | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northwest | Greenfield Wastewater | 5096 | 1/1/2024 | 31 | The permitted TSS daily average was exceeded | Self Reported Violation | RESOLVED | WW-TSS | True | Design/Capacity Deficiency | Contractor left an opening between aeration and chlorine tanks allowing aeration to overflow into chlorination basin during high flows | Contractor error during construction of expansion | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Greenwood Village Wastewater | 6322 | 9/1/2024 | 1 | TRC below the permitted concentration | Self Reported Violation | RESOLVED | WW-TRC | False | Ops Error/Deficiency | No explanation provided by the operator by the due date | No issue identified | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Greenwood Village Wastewater | 5980 | 7/1/2024 | | The permitted daily average was exceeded. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Self Reported Violation | RESOLVED | WW-FLOW | True | Extreme Events | Hurricane Beryl and rainfall 2 weeks later | Extreme Weather Event - No action required. | Complete | On 8/30 Abel Bautista requested enforcement discretion related to hurricane. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Greenwood Village Wastewater | 5868 | 6/1/2024 | 1 | The eColi permitted single grab was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Equipment Failure | Chlorinator valve failed to operate, was replaced | Disinfection equipment replacement/repair | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Heron Lakes Wastewater | 5967 | 7/1/2024 | 31 | The permitted daily average and single grab e-Coli were exceeded. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Self Reported Violation | RESOLVED | WW-EC | True | Extreme Events | Hurricane Beryl | Extreme Weather Event - No action required. | Complete | On 8/27 Abel Bautista requested enforcement discretion related to hurricane. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Heron Lakes Wastewater | 5869 | 6/1/2024 | 2 | The permitted eColi single grab was exceeded. The DO was below the permitted minimum | Self Reported Violation | SUPERSEDED | WW-EC, WW-DO | False, False | Equipment Failure | Found debris in injector, cleaned. | Disinfection equipment replacement/repair | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Imperial Valley Wastewater | 6624 | 11/1/2024 | 1 | The permitted ammonia single grab concentration was exceeded | Self Reported Violation | RESOLVED | WW-NH3 | False | Ops Error/Deficiency | Operator reported low DO in the aeration basin. | Operational adjustment | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Imperial Valley Wastewater | 6323 | 9/1/2024 | 1 | The TRC was below the permitted concentration | Self Reported Violation | RESOLVED | WW-TRC | False | Ops Error/Deficiency | None provided by the operator by the due date | Operational adjustment | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Imperial Valley Wastewater | 5968 | 7/1/2024 | 31 | The permitted daily average ammonia was exceeded. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Self Reported Violation | RESOLVED | WW-NH3 | True | Extreme Events | Hurricane Beryl - Additional samples were collected but unable to get the average in compliance | Extreme Weather Event - No action required. | Complete | On 8/30 Abel Bautista requested enforcement discretion related to hurricane. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southeast | Industrial Wastewater | 6761 | 12/1/2024 | 31 | The TSS exceeded the permitted concentration | Self Reported Violation | RESOLVED | WW-TSS | True | Design/Capacity Deficiency | Rainfall, I&I and solids not settling properly in clarifier. Also will investigate questionable influent being received lately. | Collection system rehabilitation completed | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southeast | Industrial Wastewater | 5981 | 7/1/2024 | | The permitted daily average flow was exceeded. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Self Reported Violation | RESOLVED | WW-FLOW | True | Extreme Events | Hurricane Beryl and heavy rainfall 2 weeks later | Extreme Weather Event - No action required. | Complete | On 8/30 Abel Bautista requested enforcement discretion related to hurricane. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southeast | Industrial Wastewater | 5746 | 5/1/2024 | | The permitted daily average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | I&I | Collection system rehabilitation completed | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northwest | Lake Conroe Forest Wastewater | 5962 | 6/1/2024 | 1 | Effluent pH was below the permitted limit | Self Reported Violation | RESOLVED | WW-pH | False | Ops Error/Deficiency | | No issue found | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Lake Livingston Village Wastewater | 6769 | 12/1/2024 | | The flow exceeded the permitted limitation | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | I&I, over 10" rainfall in December. Collection system rehab project is ongoing | Extreme Weather Event - No action required. | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Lake Livingston Village Wastewater | 6636 | 11/1/2024 | | The permitted daily average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | | Extreme Weather Event - No action required. | Complete | | Wastewater DMR Event |

| | | | | | | | | | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| TX | TX - East | TX - East - Spring Northeast | Lake Livingston Village Wastewater | 5982 | 7/1/2024 | | The permitted daily average flow was exceeded. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | I&I | Extreme Weather Event - No action required. | Complete | On 8/30 Abel Bautista requested enforcement discretion related to hurricane. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Lake Livingston Village Wastewater | 5744 | 5/1/2024 | 31 | The permitted TSS daily average loading and flow exceeded the permitted limitations | Self Reported Violation | RESOLVED | WW-TSS, WW-FLOW | True, True | Design/Capacity Deficiency | I&I, the 4th phase of the collection system rehabilitation (lines televising) in currently ongoing. | Collection System Analysis completed pending construction in the 5 year capital plan | Ongoing | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Lake Livingston Village Wastewater | 5248 | 2/1/2024 | | The permitted monthly average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | False | Design/Capacity Deficiency | Rainfall events and I&I, Phase IV of the rehabilitation project ongoing | Collection System Analysis completed pending construction in the 5 year capital plan | Ongoing | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Lake Livingston Village Wastewater | 5101 | 1/1/2024 | | The permitted daily average was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | I&I | Collection System Analysis completed pending construction in the 5 year capital plan | Ongoing | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | Leander Hills Wastewater | 6773 | 12/1/2024 | | The permitted daily average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | I&I | We are in the process of schedulingrepairs and/or replacements after conducting CCTVinspections of all sewer lines to help address I&I | ongoing | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | Leander Hills Wastewater | 6635 | 11/1/2024 | | The permitted daily average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | | We are in the process of schedulingrepairs and/or replacements after conducting CCTVinspections of all sewer lines to help address I&I | ongoing | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | Leander Hills Wastewater | 6494 | 10/1/2024 | | The permitted daily average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | I&I | We are in the process of schedulingrepairs and/or replacements after conducting CCTVinspections of all sewer lines to help address I&I | ongoing | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | Leander Hills Wastewater | 6325 | 9/1/2024 | 1 | TRC was below the permitted concentration. Average flow also exceeded the permitted amount. | Self Reported Violation | RESOLVED | WW-FLOW, WW-TRC | True, False | Equipment Failure | Reclaim water pump screen clogged. | Cleared screen | Complete | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | Leander Hills Wastewater | 6286 | 8/1/2024 | | Flow exceeded the permitted daily average | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | | We are in the process of schedulingrepairs and/or replacements after conducting CCTVinspections of all sewer lines to help address I&I | ongoing | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Austin | Leander Hills Wastewater | 5100 | 1/1/2024 | | The permitted daily average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | I&I | We are in the process of schedulingrepairs and/or replacements after conducting CCTVinspections of all sewer lines to help address I&I | ongoing | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northwest | Oakwood Village Wastewater | 5747 | 5/1/2024 | | The permitted daily average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | False | Design/Capacity Deficiency | I&I | Collection system smoke testing and point repaires for 2025 | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northwest | Old Egypt Wastewater | 6281 | 8/1/2024 | 1 | EColi single grab exceeded the permitted concentration | Self Reported Violation | RESOLVED | WW-EC | False | Equipment Failure | Operator found bleach line cracked | Bleach line replaced | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northwest | Old Egypt Wastewater | 5245 | 2/1/2024 | 1 | The permitted e-coli single grab concentration was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Design/Capacity Deficiency | Operator reported chlorine residual in compliance; no issues at plant. Likely grease balls or foam issue. | Operational adjustment | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Port Adventure Wastewater | 5969 | 7/1/2024 | 1 | The TSS singled grab exceeded the permitted concentration. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Self Reported Violation | RESOLVED | WW-TSS | False | Extreme Events | Hurricane Beryl - Additional samples brought the sample in compliance | Extreme Weather Event - No action required. | Complete | On 8/30 Abel Bautista requested enforcement discretion related to hurricane. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Redwood Estates Wastewater | 5970 | 7/1/2024 | 1 | The e-coli single grab exceeded the permitted limitation | Self Reported Violation | RESOLVED | WW-EC | False | Ops Error/Deficiency | Denitrification occurring in clarifier, solids to the chlorination basin likely cause the exceedance. Additional sample put the average in compliance. | Operational adjustment | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Redwood Estates Wastewater | 5104 | 1/1/2024 | 1 | TRC below the permitted concentration | Self Reported Violation | RESOLVED | WW-TRC | False | Equipment Failure | Water plant was down during freeze, no potable water to plant so chlorinator at WWTP could not operate | Extreme Weather Event - No action required. | Complete | | Wastewater DMR Event |
| TX | TX - North | TX - North - Granbury | Ridge Utilities Wastewater | 6742 | 6/1/2024 | 1 | The DO was below the permitted minimum | Self Reported Violation | RESOLVED | WW-DO | False | Ops Error/Deficiency | Operator unable to determine the cause. | No issue identified | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Riverwood Forest Wastewater | 5971 | 7/1/2024 | 31 | The TSS and ammonia daily average and 2 single grab e-coli exceeded the permitted limitations. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Self Reported Violation | RESOLVED | WW-EC, WW-NH3, WW-TRC | False, True, True | Extreme Events | Hurricane Beryl - During several days after the event, the power to this facility was on and off, causing the blower to shut off. The plant was unable to recuperate on time with not enough good quality to get additional samples to lower the averages. | Extreme Weather Event - No action required. | Complete | On 8/28 Abel Bautista requested enforcement discretion related to hurricane. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30. | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southwest | Riverwood Forest Wastewater | 5379 | 3/1/2024 | 31 | Effluent ammonia exceeded the permitted daily average | Self Reported Violation | RESOLVED | WW-NH3 | True | Equipment Failure | The clarifier drive failed to operate due to a motor issue. Motor was replaced with a new one and plant back in operation. | Drive motor on clarifier replaced | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southeast | Rosemeadows Wastewater | 5972 | 7/1/2024 | 1 | The permitted pH was non-compliant. Flow permit exceeded the permitted average. TCEQ granted an enforcement discretion due to Hurricane Beryl on 12/30 for flow exceedance. | Self Reported Violation | RESOLVED | WW-pH, WW-FLOW | False, True | Ops Error/Deficiency | Operator reported 6.88 pH on that day, picture of effluent was yellowish from rainfall due to 3.5" rainfall the previous day. He failed to submit an explanation to this violation. | Operational adjustment | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southeast | Rosemeadows Wastewater | 5540 | 3/1/2024 | | The permitted daily average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | False | Design/Capacity Deficiency | I&I - Six inches of rainfall | Manhole rehabilation under way | Ongoing | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southeast | Rosemeadows Wastewater | 5097 | 1/1/2024 | 2 | TRC was below the permitted concentration | Self Reported Violation | SUPERSEDED | WW-FLOW, WW-TRC | True, False | Design/Capacity Deficiency | I&I, chlorinator not feeding during high flows, controller issue | Controller repaired/replaced | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northeast | Shadow Bay Wastewater | 5974 | 7/1/2024 | 1 | The TRC was below the permitted concentration. TCEQ granted an enforcement discretion due to Hurricane Beryl. | Self Reported Violation | RESOLVED | WW-TRC | False | Extreme Events | Hurricane Beryl - Low residual same day the plant was put in operation | Extreme Weather Event - No action required. | Complete | On 8/27 Abel Bautista requested enforcement discretion related to hurricane. TCEQ granted an enforcement discretion due to Hurricane Beryl. | Wastewater DMR Event |
| TX | TX - North | TX - North - Fort Worth | Shale Creek Wastewater | 6767 | 12/1/2024 | 31 | The TSS, ammonia and e-coli exceeded the permitted concentrations | Self Reported Violation | RESOLVED | WW-EC, WW-NH3, WW-TSS | True, True, True | Design/Capacity Deficiency | Sludge not settling keeping high SBL in clarifier. Severe foaming in aeration basins during the first two weeks of the month. Unable to get additional samples. | Training on Standard Operating Proceedures / new plant planned | Complete | | Wastewater DMR Event |
| TX | TX - North | TX - North - Fort Worth | Shale Creek Wastewater | 6288 | 9/1/2024 | 3 | The ammonia and CBOD exceeded the permitted concentrations | Self Reported Violation | RESOLVED | WW-NH3, WW-CBOD | True, True | Equipment Failure | Very low DO in the aeration basins. Maintenance to the blowers was completed and all air drop valves in the aeration basins replaced. | Blower repaired / new plant planned | Complete | | Wastewater DMR Event |
| TX | TX - North | TX - North - Fort Worth | Shale Creek Wastewater | 5247 | 2/1/2024 | 1 | The permitted e-coli single grab concentration was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Equipment Failure | Contractor damaged water line that feeds the WWTP, debris clogged the chlorine injector. | System cleaned and returned to service / new plant planned | Complete | | Wastewater DMR Event |

| | | | | | | | | | | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| TX | TX - East | TX - East - Spring Northwest | Spring Creek Regional Wastewater | 6762 | 12/1/2024 | 31 | The ammonia and flow exceeded the permitted concentrations | Self Reported Violation | RESOLVED | WW-FLOW, WW-NH3 | True, True | Design/Capacity Deficiency | Very high ammonia the last day of the month/year likely as a consequence of a storm. This facility serves 2 non-Aqua subdivisions with no control over collection systems. | Operational adjustment | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northwest | Spring Creek Regional Wastewater | 6637 | 11/1/2024 | | The permitted daily average flow was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | | WWTP expansion under design. | Ongoing | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northwest | Spring Creek Regional Wastewater | 5539 | 3/1/2024 | 1 | The permitted single grab ecoli was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Equipment Failure | The operator found the RAS line clogged and sludge started to denitrify. The effluent had some TSS that was likely the cause of the ecoli spike. The operator unclogged the RAS line. | Line cleared | Complete | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Wimberley | Sunset Oak Wastewater | 6628 | 11/1/2024 | 2 | The permitted single grab ecoli was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Ops Error/Deficiency | Low TRC. Operator adjusting dosage due to new bleach pump installation | Operational adjustment | Complete | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Wimberley | Sunset Oak Wastewater | 6493 | 10/1/2024 | 1 | The TRC was below the permitted concentration | Self Reported Violation | RESOLVED | WW-TRC | False | Equipment Failure | Operator reported bleach pump failed to operate and back up pump could not keep up with flow; both pumps replaced. | Disinfection equipment replaced & upgraded | Complete | | Wastewater DMR Event |
| TX | TX - North | TX - North - Fort Worth | The Resort Wastewater | 6326 | 9/1/2024 | 1 | The TRC was below the permitted concentration | Self Reported Violation | RESOLVED | WW-TRC | False | Ops Error/Deficiency | Contractor did not report the cause | Cleaned up plant | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Northwest | Timberwilde Wastewater | 5543 | 4/1/2024 | 1 | The permitted single grab e-coli was exceeded | Self Reported Violation | RESOLVED | WW-EC | False | Ops Error/Deficiency | Operator reported a TRC=3.8 and FRC=1.1. Perhaps small debris was caught in the sample at time of collection. | No issue identified | Complete | | Wastewater DMR Event |
| TX | TX - North | TX - North - Granbury | Treaty Oaks Wastewater | 5745 | 5/1/2024 | 31 | The permitted TSS daily average was exceeded | Self Reported Violation | RESOLVED | WW-TSS | True | Influent Excursion / Source Water Issue | Sewer taps and trenches in the collection system were left open and mud flowed into system and plant after a rainfall event. The mud affected the solids settleability. the plant has been cleaned and taps capped. | Training on Standard Operating Proceedures | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southeast | Veranda Wastewater | 6282 | 8/1/2024 | 2 | An e-coli single grab exceeded the permitted concentration. A total chlorine residual was below the permitted concentration | Self Reported Violation | RESOLVED | WW-EC, WW-TRC | False, False | Equipment Failure | Bleach pump stopped working | Disinfection equipment repaired | Complete | | Wastewater DMR Event |
| TX | TX - East | TX - East - Spring Southeast | Village Trace Wastewater | 5098 | 1/1/2024 | 31 | The permitted daily average flow, TSS and ammonia loadings were exceeded | Self Reported Violation | RESOLVED | WW-NH3, WW-TSS, WW-FLOW | True, True, True | Design/Capacity Deficiency | I&I | | | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Wimberley | Woodcreek Wastewater | 6327 | 9/1/2024 | | The permitted average flow was exceeded. | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | The hydraulic capacity has been exceeded | Plant replacement and expansion planned | Ongoing | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Wimberley | Woodcreek Wastewater | 6287 | 8/1/2024 | | Flow exceeded the permitted daily average | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | The hydraulic capacity has been exceeded | Plant replacement and expansion planned | Ongoing | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Wimberley | Woodcreek Wastewater | 5979 | 7/1/2024 | | The permitted daily average was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | The hydraulic capacity has been exceeded | Plant replacement and expansion planned | Ongoing | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Wimberley | Woodcreek Wastewater | 5751 | 5/1/2024 | | The permitted daily average was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | False | Design/Capacity Deficiency | The hydraulic capacity has been exceeded | Plant replacement and expansion planned | Ongoing | | Wastewater DMR Event |
| TX | TX - Central | TX - Central - Wimberley | Woodcreek Wastewater | 5099 | 1/1/2024 | | The permitted daily average was exceeded | Self Reported Violation | RESOLVED | WW-FLOW | True | Design/Capacity Deficiency | The hydraulic capacity has been exceeded | Plant replacement and expansion planned | Ongoing | | Wastewater DMR Event |

**Aqua Texas, Inc.**
**Total Company - Water & Wastewater**
Docket No. 58124
Test Year Ending: December 31, 2024
Schedule VI-2
Customer Complaint Policy
Witness: Trey Reginelli

TOC

The Customer Complaint Policy is provided in PDF format titled,"Schedule VI-2 - Customer Compaint Policy".

**Texas Complaints**

**Introduction**
This document outlines the Commission Compliance Procedure for Texas.

**Process: Commission Compliance Procedure for Texas**
**Details:**

1. **Receiving the Complaint:**
   - The TX Customer Care Specialist receives an email from the Texas Public Utilities Commission at ACESTX@aquaamerica.com().
   - The complaint must be responded to within 15 days.
2. **Logging the Complaint in ACES:**
   - Log the complaint in ACES following the documented process for ACES Logging(https://aquaservices.knowledgeowl.com/help/aces-logging).
3. **Logging the Complaint in BANNER:**
   - Log the complaint in BANNER following the documented process for BANNER Logging(https://aquaservices.knowledgeowl.com/help/banner-logging-cac).
4. **Contacting the Customer:**
   - Reach out to the customer to review and resolve the issue.
5. **Responding to the PUCT:**
   - Respond to the Public Utilities Commission of Texas (PUCT) as required.
6. **Closing the Case in BANNER:**
   - Close the case in BANNER following the documented process for BANNER Logging(https://aquaservices.knowledgeowl.com/help/banner-logging-cac).

**Total Company - Water & Wastewater**
Docket No. 58124
Test Year Ending: December 31, 2024
Schedule VI-4 Water Conservation
Water Conservation
Witness: Trey Reginelli

TOC

Please refer to the direct testimony of Daniel Ramirez-Cisneros.

**Aqua Texas, Inc.**
**Total Company - Water & Wastewater**
Docket No. 58124
Test Year Ending: December 31, 2024
Schedule VI-5
Meter Replacement Policy
Witness: Trey Reginelli

TOC

The Meter Replacement Policy is provided in PDF format titled,"Schedule VI-5 - Meter Replacement Policy".

# Aqua Meter Program Policy

Accurate measurement is crucial for billing, water conservation, and ensuring equitable distribution of resources. This policy outlines Aqua's guidelines for meter replacement.

## Objectives

- Ensure accurate measurement of water consumption.
- Maintain the integrity and reliability of the meter infrastructure.
- Promote efficient water use and conservation.
- Minimize revenue losses due to faulty or inaccurate meters.
- Comply with state regulations, AWWA standards, and industry best practices.

### Criteria for Replacement

Meters will be replaced based on the following criteria:

- Age: Meters that have reached or exceeded their recommended service life as per AWWA standards.
- Accuracy: Meters that fail accuracy tests or exhibit significant discrepancies in readings.
- Condition: Meters that are damaged, worn out, or have visible signs of deterioration.
- Performance: Meters that show irregular or inconsistent performance.

### Approved Meters

All approved meters meet AWWA standards as listed in the M6 manual. For ease of ordering, all approved meters are listed in the SAP system. Material numbers, pricing, lead times, and open orders can be found on the Metrology SharePoint. Requests for new meter types or manufacturers can be submitted to nationalmeterops@aquaamerica.com. All new meter types must be tested for. the designated procurement channels. The Metrology team will review these requests, and conduct any necessary testing to ensure that any new additions meet accuracy requirements and conform to Aqua standards.

### Meter Installation or Exchange Process

The replacement process includes the following steps:

- Notify customers of the planned meter replacement, providing details on the schedule and any expected disruptions.
- Field Staff shall follow meter installation SOPs during all installations or exchanges.
- All installation or exchange details shall be captured in service order, including photographic documentation of found and new equipment.

## Customer Communication

Effective communication with customers is essential to ensure transparency and cooperation during meter replacement. To the extent possible, Aqua will:

- Provide advance notice of replacement schedules and any potential service interruptions.
- Address customer concerns and queries promptly.
- Educate customers on how to read their new meters and understand their water usage.

## Meter Testing

Meters shall be tested using approved methods, and follow the Aqua testing policy (See Meter Testing Policy)

# Aqua Meter Testing Policy

**Objective:**
In Meter Operations, our paramount responsibility is to ensure Aqua's water meters are accurate and reliable. This policy outlines the procedures and standards for testing water meters. This policy applies to all water meters owned or maintained by Aqua.

**General:**
All water meters shall undergo regular testing in accordance with industry standards and regulatory requirements. The testing frequency shall be determined by the type and age of the meter, historical performance, and regulations governing meter testing laid out American Water Works Association (AWWA) M6 Manual. Meters 1" and smaller are to be tested or replaced every 20 years, and meters 1.5" and larger are to be tested or replaced every 8 years or less.

**Testing Procedures:**
Water meters shall be tested using approved testing equipment and methods as per industry best practices. Testing shall be conducted by trained personnel. Before testing, meters shall be inspected for visible damage or signs of tampering. Any irregularities shall be documented and addressed accordingly.

**Test Records:**
Records shall be maintained for all meter testing activities, including test results, date of testing, meter identification, and personnel involved. Test reports shall be documented and retained in a centralized database for reference and audit purposes.

**"IN" Testing (New Meters)**
All meters must be ordered with manufacturer test results, which are to be centrally stored. Where possible, test results should be associated with the meter in the inventory management system. No meter is to be installed without a test record confirming it meets accuracy standards.

**"Out" testing**
If a meter is to be tested and returned to service, it must be tested within 30 days of its removal. If a meter is being scrapped, no "out" test is required; however, meters may be tested for record-keeping or data analysis at the direction of management. All "out" testing, other than by customer request, will utilize allowable error, and related flow rate per the AWWA standards in M6 manual.

**Customer Requested Test and Bill Adjustment**
At a customer's request, Aqua shall test their meter for accuracy. If requested, copy of the test results must be provided. If a subsequent meter test is requested within a period of two years of a previous customer requested test, the test shall be performed. If the meter is found to be within the accuracy standards established by the American Water Works Association, the utility may charge the customer a fee of $25 for a residential customer.

If a meter is found to be outside of the AWWA standards, bill adjustment shall be made for the period of six months preceding the removal of such meter from service for the test. If the customer was not served by the meter, the refund period will be limited to the time the customer was served by meter. is required from the utility except to the customer last served by the meter prior to the testing. If a meter

does register, the usage shall be charged based on an estimate based on usage under similar conditions during the period preceding or succeeding the removal of the failed meter. The estimated period for non-registering meter shall not exceed three months

Docket No. 58124
Test Year Ending: December 31, 2024

Summary of NA Schedules
Witness: Trey Reginelli
TOC

| Schedule | Schedule Title | Explanation |
|---|---|---|
| Schedule II-A-2.3 | Test Year Affiliate Income | Aqua Texas has no income from affiliates |
| Schedule II-A-3.2 | Other Physical Property | Aqua Texas has no investments in affiliated companies or other physical property not reported in other schedules in this filing. |
| Schedule II-A-3.3 | Special Cash Accounts | Aqua Texas has no special cash accounts. |
| Schedule II-B-1.3 | Assets Used for Purposes Other than Utility | No Aqua Texas assets are used for purposes other than water and/or sewer utility. |
| Schedule II-B-1.4 | Assets not Currently in Use | All assets included in rate base are used and useful. See testimony of Trey Reginelli. |
| Schedule II-B-2.1 | Cancelled Construction Projects | Aqua Texas had no cancelled construction projects or obsolete inventory write downs during the test year. No such costs were included in cost of service in dockets in the previous two calendar years. |
| Schedule II-B-4 | Plant Held for Future Use | Aqua Texas currently has no Plant Held for Future Use |
| Schedule II-B-5 | Accumulated Provision Balances | Aqua Texas currently has no Provisions for Loss Reserves |
| Schedule II-B-6.b | Materials and Supplies - Model Used to calculate needed material and supply level | Aqua Texas does not use a model to determine needed inventory levels. |
| Schedule II-B-7.i | Working Capital - Removal of Amortized Expenses | No amortized expenses are included in the cash working capital. |
| Schedule II-B-7.j | Working Capital - Funds Availability Arrangement | There are no special or unique arrangements or terms with Aqua Texas's banks. The banks' standard rules of class apply. |
| Schedule II-C-3 | Preferred Stock | Aqua Texas, Inc. has not preferred stock. |
| Schedule II-C-5 | Weighted Average Cost of Short-Term Debt | Aqua Texas has no short-term debt. |
| Schedule II-C-8 | Financial Tests and Ratios | Aqua Texas, has no financing that requires financial tests or ratios. |
| Schedule II-D-3.6 | Social Organizations | Aqua Texas, Inc. does not have any memberships to social organizations. |
| Schedule II-D-5 | Summary of Research and Development Expenditures | Aqua Texas has no expenditures for research and development during the test year. |
| Schedule II-D-9.3.f | Other Payroll Information - Positions Eliminated | No positions have been eliminated. |
| Schedule II-D-10 | Regulatory Expenses | Aqua Texas, Inc. does not have any regulatory expenses included in this filing. |
| Schedule II-E-3.9 | Analysis of ITCs | Aqua Texas, Inc. is not proposing any adjustment to investment tax credits. |
| Schedule II-E-3.10 | ITC Utilized | Aqua Texas, Inc. did not utilize any investment tax credits during the test year. |
| Schedule II-E-3.11 | ITC Generated But Not Utilized | Aqua Texas, Inc. did not generate any investment tax credits during the test year. |
| Schedule II-E-3.12 | ITC Utilized - Stand Alone Basis | Aqua Texas, Inc. did not utilize any investment tax credits during the test year. |
| Schedule II-E-3.13 | ITC Election | Aqua Texas, Inc. did not utilize any investment tax credits during the test year. |
| Schedule II-E-3.14 | NARUC Account 255 | Aqua Texas, Inc. did not have any investment tax credits. |
| Schedule II-E-3.15 | Analysis of Additional Depreciation Requested | Aqua Texas, Inc. is not requesting any depreciation adjustments for tax purposes. |
| Schedule II-E-3.22 | Method of Accounting for ADFIT Related to NOL Carryforward | Aqua Texas does not have any net operating losses. |
| Schedule II-E-4.1 | Deferred Expenses from Prior Dockets | There are no deferred expenses from prior dockets included in Cost of Service. |
| Schedule II-E-4.2 | Below the Line Expenses | There are no below the line expenses for Aqua Texas during the test year. |
| Schedule II-E-4.3 | Nonrecurring or Extraordinary Expenses | Aqua Texas has no nonrecurring or extraordinary expenses included in Cost of Service. |
| Schedule II-E-4.5 | Extraordinary Property Losses | No property losses have been included in operating expenses or depreciation or amortization. |
| Schedule II-E-4.6 | Expenses Previously Denied by the Commission | There are no expenses included in the rate filing that have previously been denied by the Commission. |
| Schedule II-F.h | Allocation or Classification Factor Special Studies | No special studies were used to derive the allocation factors |
| Schedule II-G-1.f | Other Changes in Volume | There were no other changes in volume for the historic test year. |
| Schedule IV-8 | Services Provided to Affiliates | Aqua Texas, Inc. does not provide any services to affiliates. |
| Schedule IV-13 | Affiliate Project Codes Created/Closed in Test Year | No affiliate capital projects have been included in plant in service for Aqua Texas. since the last rate case. Capital projects specific to Aqua Texas are charged directly to Aqua Texas. Capital projects for SouthWest that provide benefits to all operating utilities, including Aqua Texas, have been allocated to Aqua Texas (See WP/II-B). |
| Schedule IV-14 | Affiliate Payroll | This requirement is not applicable to Aqua Texas, Inc. |
