CITY OF HOUSTON, TEXAS

PART ONE INTRODUCTORY SECTION

EZEKIEL W. CULLEN BUILDING AT
THE UNIVERSITY OF HOUSTON
PHOTO BY: JHVEPHOTO

Introductory Section:

A cornerstone of academic excellence, the Ezekiel W. Cullen Building stands as a symbol of the University of Houston's enduring commitment to education, innovation, and public service. Named after a prominent Texas statesman, the building houses key administrative offices and serves as a hub for university leadership. Its neoclassical architecture and central location reflect the institution's proud history and its role in shaping future generations of Houstonians.

OFFICE OF THE CITY CONTROLLER

Houston City Controller Chris Hollins is the second-highest elected official in the City of Houston Government (the “City”) and its Chief Financial Officer. The Office of the City Controller superintends the fiscal affairs of the City. This includes conducting audits, managing investments and debt, preparing financial statements, and providing leadership on policy issues pertaining to the City’s financial health. Controller Hollins thus serves as an independently elected “financial watchdog” over the City’s fiscal affairs.

The Treasury Division is responsible for managing the City’s investment portfolio of approximately \$5.7 billion in accordance with state law and the City’s investment policy. Fitch has awarded the City’s general investment portfolio/pool its highest rating, AAA/S1 Volatility. The Treasury Division is also responsible for overseeing a debt program of approximately \$14.1 billion and the City’s depository banking service. The City has multiple general obligation, combined utility system, and airport system commercial paper programs with total authorization of \$2.8 billion (GO program of \$1 billion; CUS program of \$1 billion; Airport of \$800 million). The City’s general obligation debt is rated Aa3 by Moody’s; AA by Standard and Poor’s; and AA by Fitch Ratings. All other credit ratings associated with the City’s different organizations are listed here: <https://www.houstontx.gov/controller/treasury/credit-ratings.html>

The Audit Division adheres to recognized professional auditing standards (Generally Accepted Government Auditing Standards and Global Internal Audit Standards as promulgated by the Institute of Internal Auditors). The Division conducts audits and special projects that result in formal audit reports, which are posted on the Office of the City Controller’s website. These engagements focus on risk assessment, contract compliance, performance and efficiency, process reviews, ongoing monitoring, consideration of fraud, waste, and abuse, and quality assurance. These efforts resulted in city-wide policy and procedure changes, improved processes, and millions in potential recoveries. The Audit Division also provided updates to the City Controller regarding compliance efforts, fraud, waste, and abuse reports, and quality assurance results. In the most recent peer review, the Association of Local Government Auditors concluded “the internal quality control system of the Office of the City Controller’s Audit Division within the City of Houston was suitably designed and operating effectively to provide reasonable assurance of conformance with the Standards.”

The Operations and Technical Services Division is responsible for funding certification for contracts, accounts payable, vendor payments and cash disbursement, travel advances, monthly bank account reconciliation, review and approval of city-wide personnel action requests, payroll payments processing, city-wide contract review, financial and accounting records retention and imaging retrieval, city-wide vendor liaison, and the City Controller’s Office’s information technology operations. In the coming year, the division’s goals are to continue to move to a paperless approval system for invoices and agreements, as well as reduce the number of paper checks issued.

The Financial Reporting Division is tasked with preparing the Monthly Financial and Operations Report, the Annual Comprehensive Financial Report (ACFR), and the annual Trends Report. Additionally, the division handles financial modeling and forecasting. The ACFR and Trends Report can be accessed on the City Controller’s website at www.houstontx.gov/controller.

CITY CONTROLLER
CHRISTOPHER G. HOLLINS

Chris Hollins is a native Houstonian who has served as Houston City Controller since January 2024.

As the independently elected Chief Financial Officer of the nation's fourth-largest city, Controller Hollins provides oversight of a \$7 billion operating budget and manages the City's \$5.7 billion investment and \$14.1 billion debt portfolios. Hollins is deeply committed to transparency, fiscal responsibility, and results-driven operations, using his office's auditing authority to bring new ideas and best practices to City departments that result in cost savings and a higher standard of service to Houston residents.

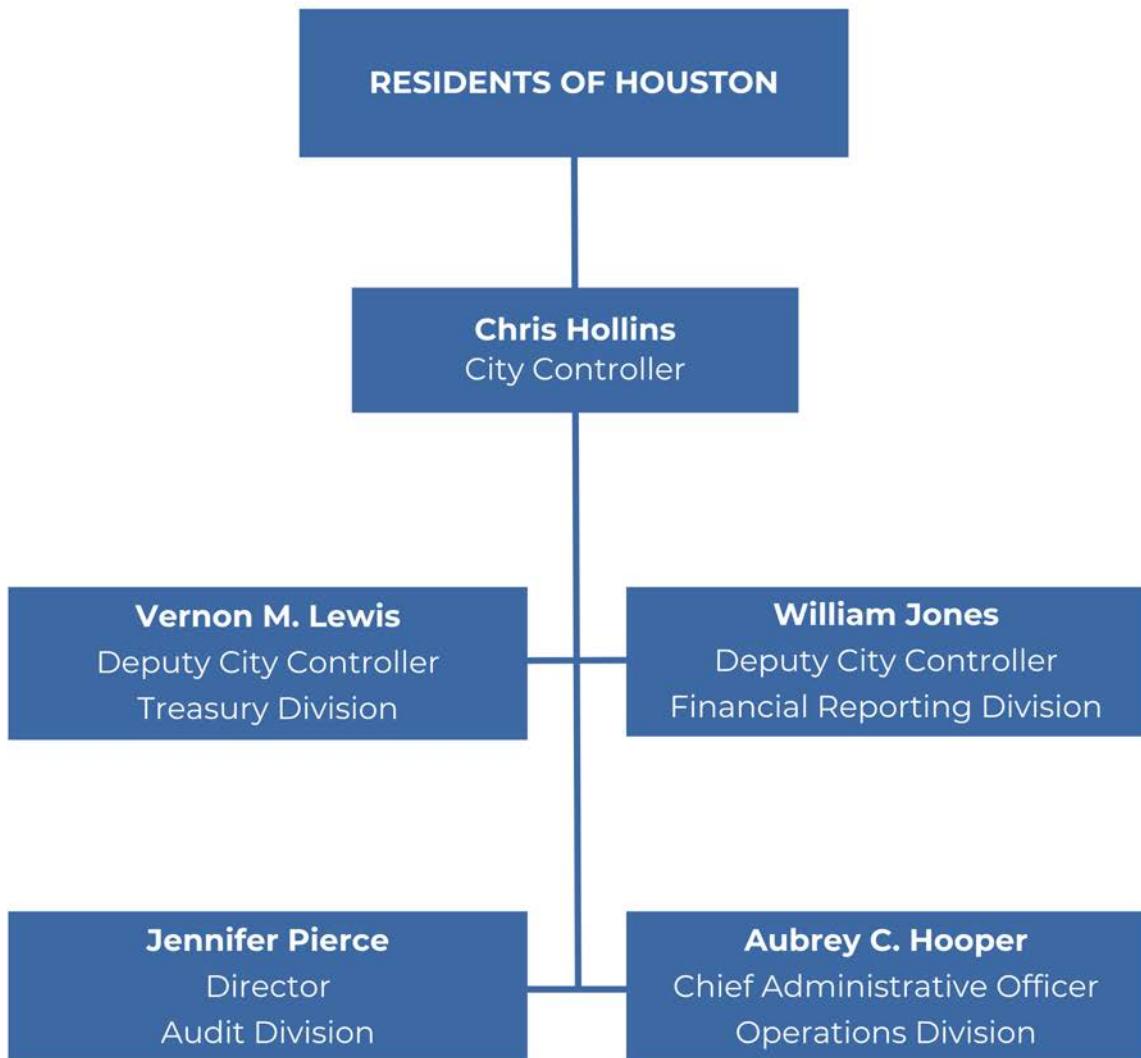

Prior to his service as City Controller, Hollins led the 2020 elections effort in Harris County as County Clerk, gaining national acclaim for protecting and expanding voting rights for 2.5 million Houston-area voters during the most important election of our lifetime. Hollins's innovations – which included drive-thru voting, 24-hour voting, online mail ballot tracking, and tripling the number of early voting centers – led to eye-popping record voter turnout despite the ongoing global pandemic.

Hollins holds a Bachelor of Arts with *Phi Beta Kappa* honors from Morehouse College and completed a joint program with Yale Law School and Harvard Business School, earning both his Juris Doctor and Master of Business Administration degrees.

Hollins was previously the Principal Attorney at Hollins Law Group PLLC. Hollins spent the bulk of his career as a management consultant with McKinsey & Company, where he was dedicated to helping large government agencies transform their operations to better achieve their missions and meet the needs of those they were entrusted to serve.

Hollins and his wife, Morgan, live in Houston's Third Ward with their daughter, Vivian, and their son, George.

TRANSMITTAL LETTER

December 12, 2025

Citizens of Houston, Honorable Mayor, and City Council Members:

I am pleased to provide you with the Annual Comprehensive Financial Report ("ACFR") for the City of Houston, Texas, (the "City") for the fiscal year ended June 30, 2025, including the independent auditor's report, on pages 1 through 3, prepared by Weaver and Tidwell, L.L.P. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering unmodified opinions on the City's basic financial statements as of and for the year ended June 30, 2025.

The ACFR, prepared by the City Controller's Office, complies with the City Charter and state law. We are responsible for the accuracy, completeness, and fairness of financial information and disclosures. The data presented accurately reflects the City's financial position and results of operations.

The City's management is responsible for establishing and maintaining a system of internal controls designed to provide reasonable assurance that the assets of the City are protected from loss, theft, or misuse and for the reliability of financial records for preparing financial statements and maintaining accountability of assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the resulting benefits.

The ACFR is presented in three sections:

- **Introductory Section:** Includes a transmittal letter, elected officials list, and organizational charts.
- **Financial Section:** Includes Management's Discussion and Analysis ("MD&A"), basic financial statements, combined and individual fund statements and schedules, and the independent auditor's report on the basic financial statements. MD&A immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.
- **Statistical Section:** Presents multi-year financial, demographic, and other data.

The basic financial statements of the City include all government activities, organizations, and functions, including those legally separate organizations for which the City is financially accountable as defined by the Governmental Accounting Standards Board ("GASB"). These financial statements have been prepared in accordance with Generally Accepted Accounting Principles ("GAAP") for local governments, as prescribed by GASB.

Government Profile: Founded in 1836, Houston has grown from a small settlement on the Buffalo Bayou to become the fourth-largest city in the United States. The city's economy has been fueled by various industries, including energy, healthcare, aerospace, and technology. Houston's rich history is intertwined with the discovery of oil in Beaumont in 1901, which sparked significant economic growth. Today, while energy remains a major contributor, the city's economy is increasingly diversified, thanks to Port Houston, the Texas Medical Center, NASA's Johnson Space Center, and a thriving tech scene.

Houston's vibrant cultural scene is a testament to its status as a melting pot. People from all walks of life have flocked to Houston, drawn by its diverse population and endless opportunities. With over 2.4 million residents spread across 641 square miles, the city continues to expand and evolve at a rapid pace. The Houston metropolitan area, encompassing 10 counties, boasts a total population of over 7.8 million, further highlighting its regional significance and global appeal.

City Leadership and Governance Structure

City of Houston officials are limited to two four-year terms.

- **Mayor:** The Mayor functions as the City's Chief Executive Officer, responsible for overall city management and policy implementation.
- **City Controller:** The second-highest elected official, the City Controller acts as the Chief Financial Officer, overseeing the City's financial operations.
- **City Council:** The legislative body is made up of the Mayor, eleven district members, and five at-large members.

The City provides a full range of municipal government services including police and fire protection, emergency medical services, pretrial detention services, traffic and municipal courts, water production and distribution, solid waste collection, sanitary code enforcement, wastewater treatment, health and human services, building and maintenance, parks and recreation, library, convention and cultural activities, and operation of three municipal airports - George Bush Intercontinental Airport, William P. Hobby Airport, and Ellington Airport - as well as operation of the Houston Spaceport.

The City does not operate hospitals, schools, transportation, or higher education systems. Special districts and governmental entities with independent taxing authority administer these services.

Budgetary Process and Controls

In accordance with state law and the City Charter, Houston City Council shall, in collaboration with the Mayor and City departments, adopt balanced budgets each year for the General Fund, Debt Service Fund, Special Revenue Funds, Internal Service Funds, and Proprietary Funds. Exceptions are permitted for the Grant Revenue, Disaster Recovery, Health Special, and Housing Special Revenue Funds, for which City Council adopts separate operating or program budgets throughout the year. The City does not budget capital projects and other capital expenditures from the General Fund. Instead, City Council authorizes these expenditures through individual appropriation ordinances. Proprietary Fund budgets, also called Enterprise Funds, exclude depreciation and amortization expenses. These Proprietary Fund budgets include debt service and capital equipment costs, but exclude buildings and improvements, with the exception of Aviation, which budgets its current year expenses for these projects. As with the General Fund capital projects, approval of each Proprietary Fund capital project is accomplished through individual appropriation ordinances.

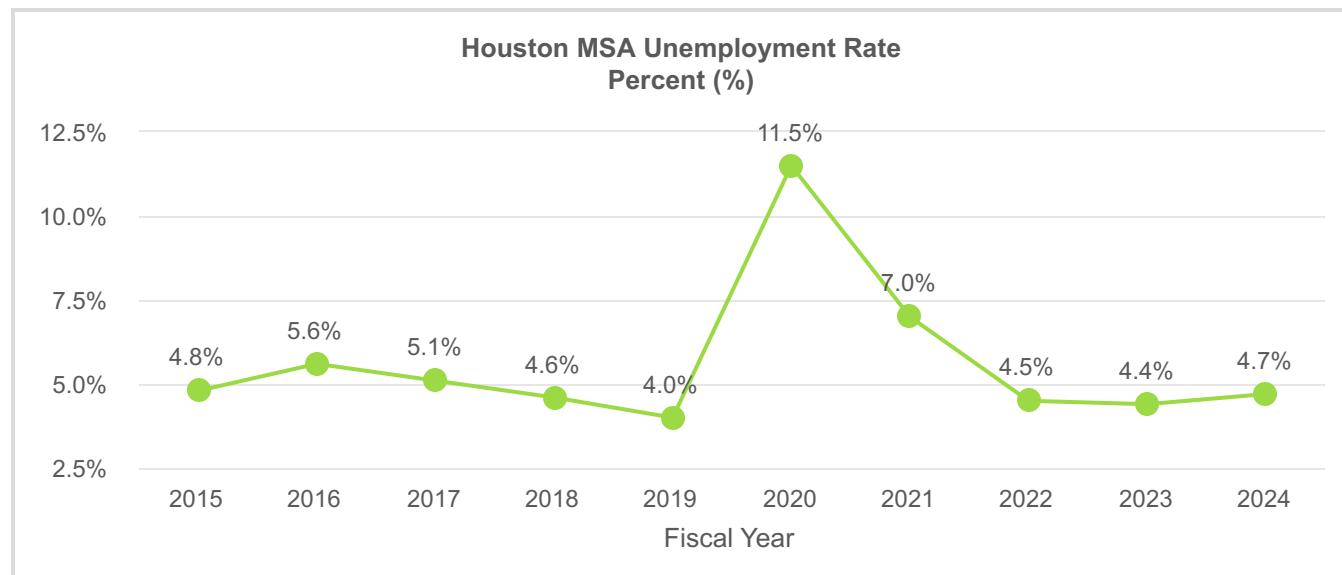

No City expenditures may be made without an appropriation. City Council can legally appropriate only those amounts of money that the City Controller has previously certified are, or will be, in the City treasury. Although the legal level of budgetary control is at the departmental level within a fund, the City maintains internal budgetary control at the expenditure category (e.g., Personnel Services, Supplies, Other Services and Capital Outlay). Budget control is primarily managed using an automated encumbrance and accounts payable system.

The City is required to undergo an annual Single Audit in conformity with the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and the audit requirements of the State of Texas Uniform Grants Management Standards. These audits are conducted simultaneously with the City's annual financial statement audit. Information related to these Single Audits, including the schedules of expenditures of federal and state awards, findings and recommendations, and auditors' reports on the internal control structure and compliance with applicable laws and regulations is included in the separately issued Single Audit Report.

The Area's Economy

The Houston Metropolitan Statistical Area (MSA) economy is diverse and robust, driven by key sectors such as energy, healthcare, aerospace, and international trade. Known as the Energy Capital of the World, Houston is home to many leading oil and gas companies, as well as a growing renewable energy industry. The Texas Medical Center, the world's largest, makes healthcare a significant economic contributor. Houston's port, the fifth busiest container port in the U.S., plays a vital role in supporting international trade and logistics. With its strategic location, diverse industries, and growing population, Houston remains a vital economic hub in the Gulf Coast region.

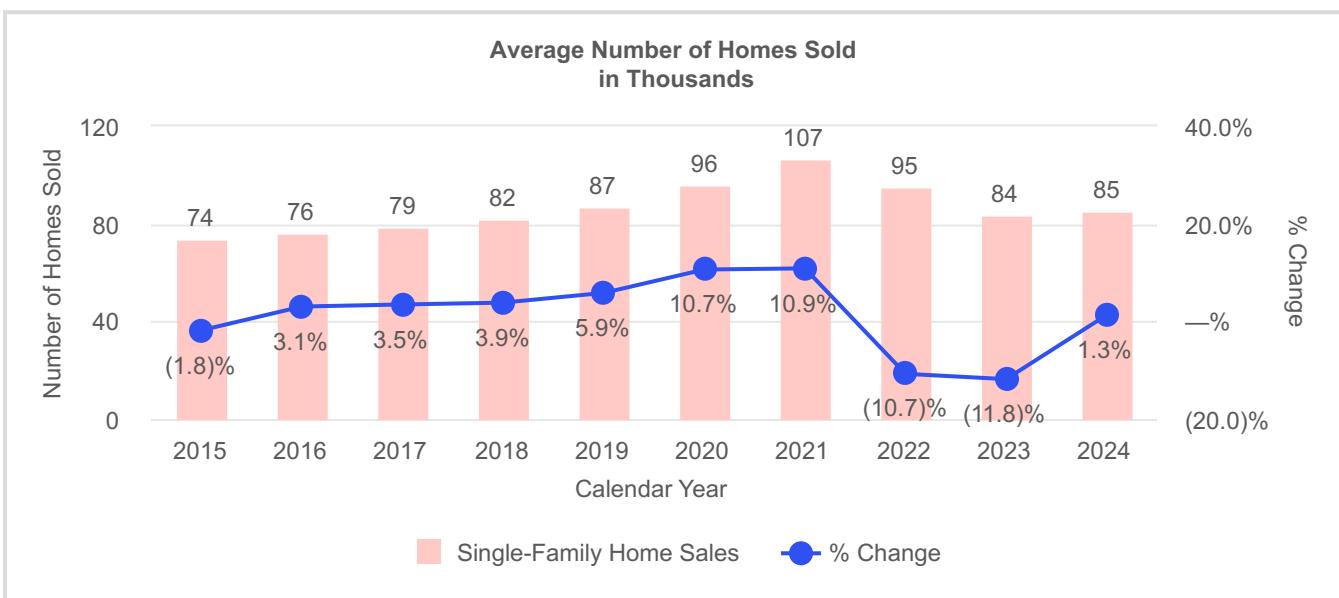

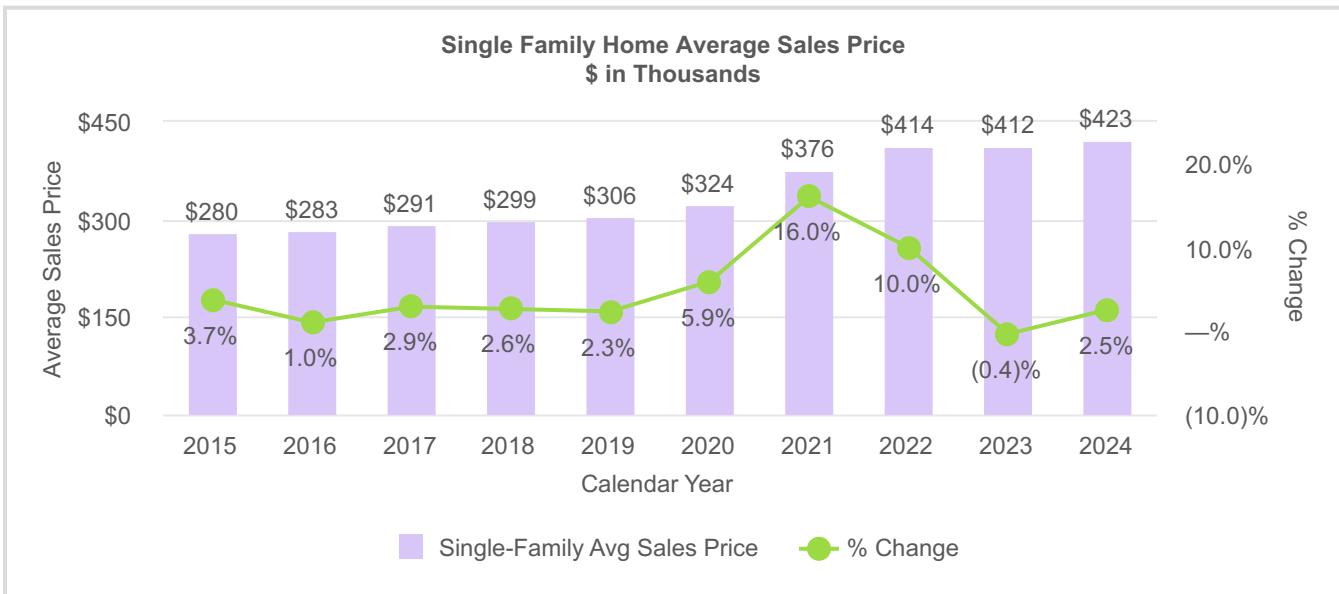

Key Economic Indicators

Source: Bureau of Labor Statistics

The Houston MSA continued its post-pandemic recovery in 2024, demonstrating resilience across key labor indicators. The unemployment rate, which peaked at 11.5% in 2020 due to the COVID-19 pandemic, declined steadily over the following years. After reaching a low of 4.4% in 2023, the rate edged up slightly to 4.7% in 2024, reflecting modest labor market tightening amid broader economic adjustments.

Nonfarm employment in the Houston MSA showed consistent growth, surpassing pre-pandemic levels by 2022 and continuing upward through 2024. Total nonfarm employment reached 3,448,400 jobs, an increase of 54,000 jobs from the prior year and a gain of over 501,200 jobs since the pandemic low in 2020. This trajectory underscores the region's economic resilience and its capacity to adapt to shifting industry demands.

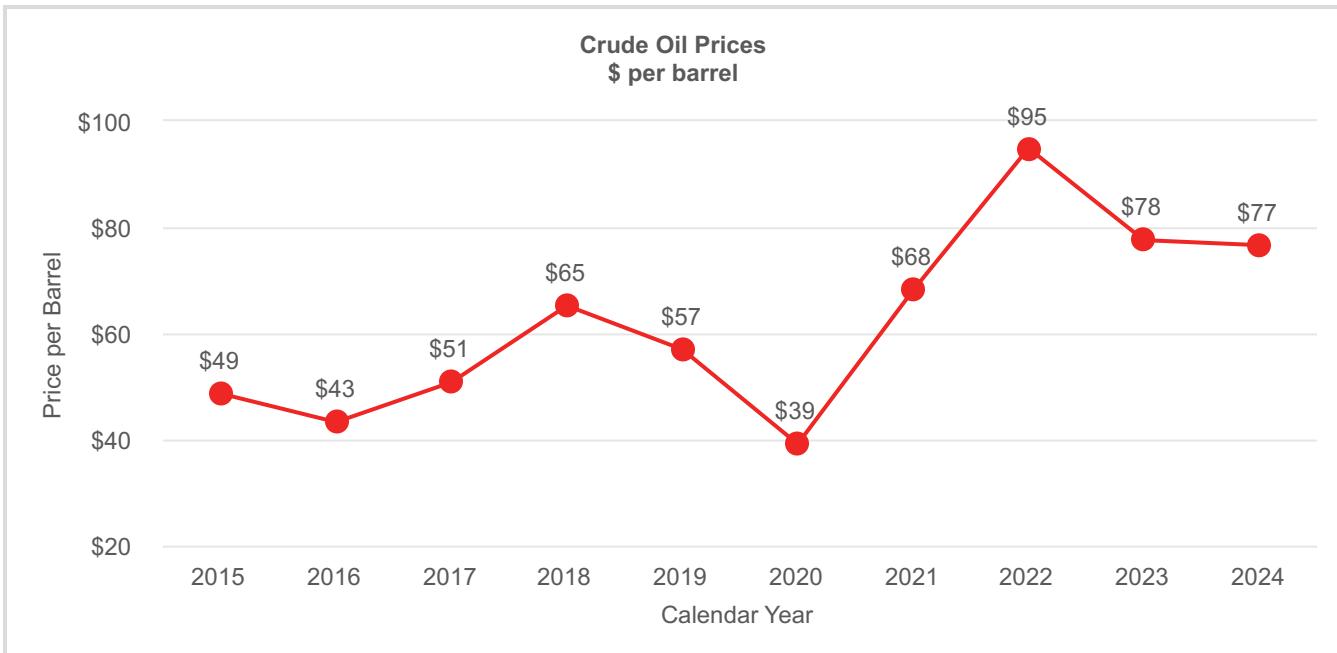

Source: Houston Association of Realtors

The Houston housing market showed signs of stabilization in 2024, following two years of declining sales and price volatility. Mortgage rates remained elevated, averaging approximately 6.8% for a 30-year fixed loan, which continued to temper buyer enthusiasm, particularly in the first half of the year.

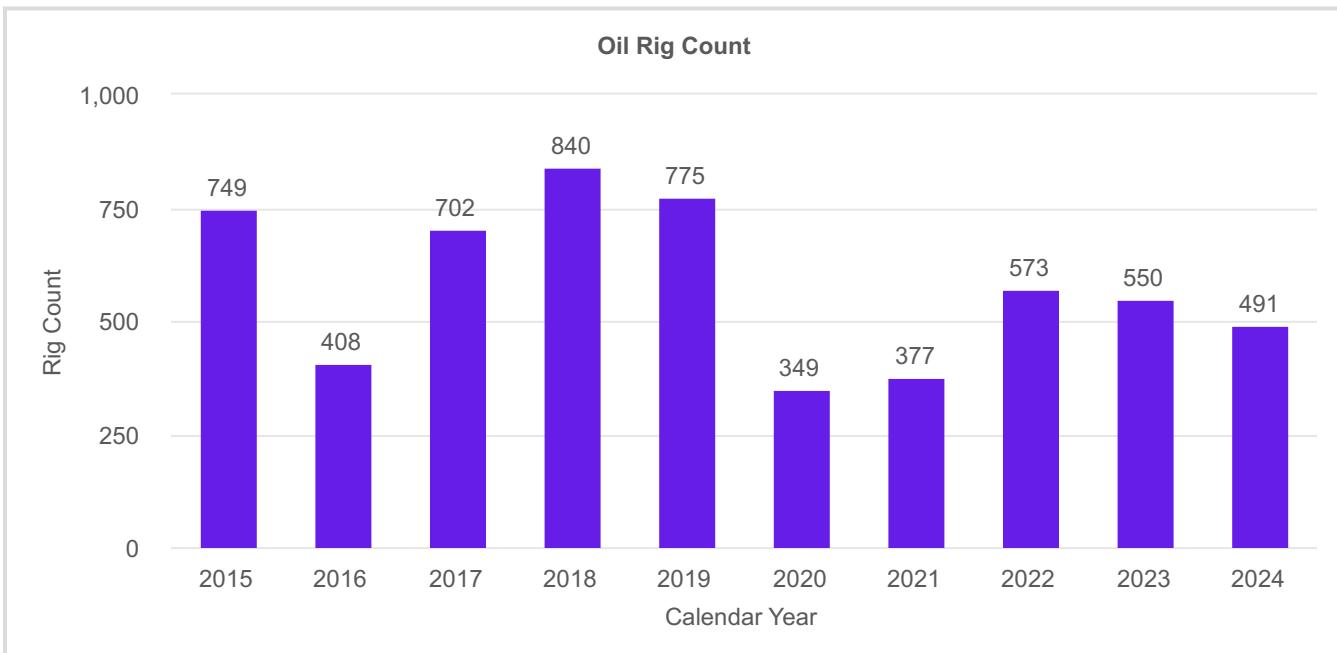

Despite these affordability constraints, single-family home sales rebounded modestly, increasing 1.3% year-over-year to 85,163 units sold. This marked the first annual increase since 2021, signaling renewed buyer confidence and improved inventory conditions.

The average sales price of single-family homes rose 2.5% to \$422,590, recovering from a slight dip in 2023. While price growth was more moderate than in prior years, the market remained resilient.

Source: U.S. Energy Information Administration

Crude oil prices have varied widely over the past decade, falling from \$49 per barrel in 2015 to a low of \$39 in 2020 due to the COVID-19 pandemic. Prices rebounded to \$95 in 2022 before easing to \$77 in 2024, reflecting increased global production and softer demand. This volatility highlights the oil market's sensitivity to economic and geopolitical factors, with crude prices remaining a key indicator of Houston's energy-driven economy.

Source: Baker Hughes

Rig count is a measure of the number of active drilling rigs used to explore for or develop oil and natural gas in a specific region. Like oil prices, rig counts are inherently volatile and reflect broader market conditions. After peaking in 2018 at 840 rigs, the U.S. oil rig count declined sharply in 2020 to 349 rigs due to pandemic-related disruptions. Although activity rebounded in subsequent years—rising to 573 rigs in 2022 and 550 in 2023—rig count eased again in 2024, to 491 rigs. The recent moderation reflects a cautious approach by operators, who prioritize efficiency and sustainability over expansion. Rig counts remain well below prior highs, signaling a shift toward leaner operations.

Population growth

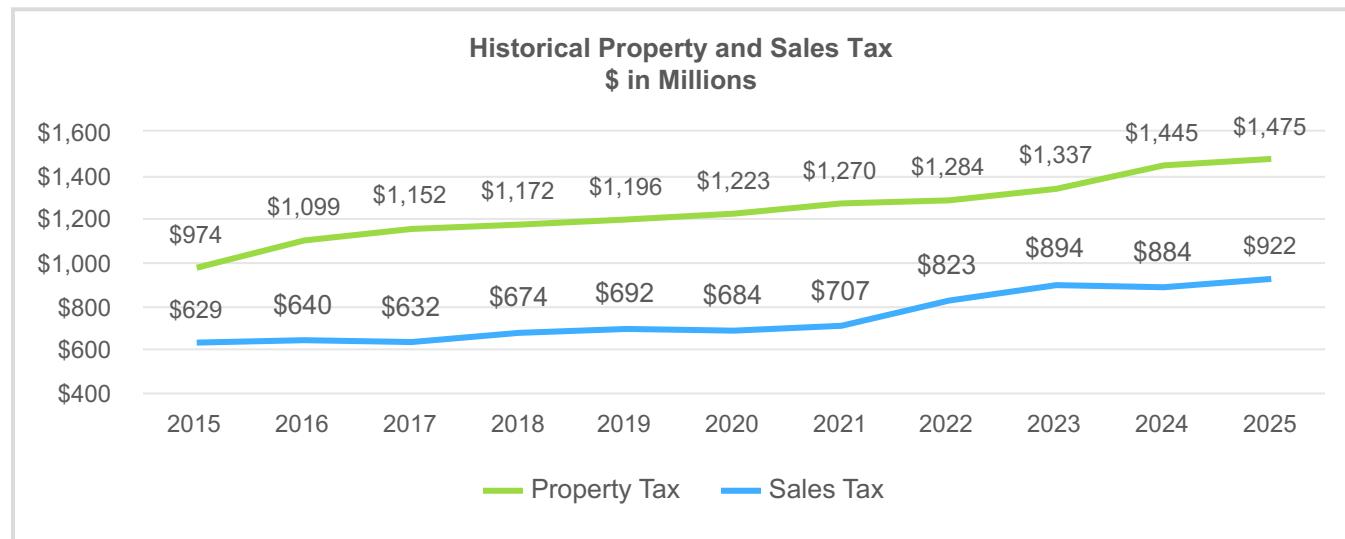

Houston, a thriving metropolis with a population exceeding 2.4 million as of July 1, 2024, reaffirming its status as the largest city in Texas and the fourth most populous city in the United States. Over the prior year, Houston added 75,968 residents, reflecting a 3.3% growth rate - the highest among the nation's five largest cities. This trend underscores Houston's role as a national hub for energy, healthcare, and trade, strengthening its position as a leading economic engine.

The Houston MSA population surged by over 198 thousand residents in 2024, ranking second among all U.S. metropolitan areas in terms of population growth.

Rank	City	Population as of 7/1/2023	Population as of 7/1/2024	# Change	% Change
1	New York, New York	8,258,035	8,478,072	220,037	2.7%
2	Los Angeles, California	3,820,914	3,878,704	57,790	1.5%
3	Chicago, Illinois	2,664,452	2,721,308	56,856	2.1%
4	Houston, Texas	2,314,157	2,390,125	75,968	3.3%
5	Phoenix, Arizona	1,650,070	1,673,164	23,094	1.4%
6	Philadelphia, Pennsylvania	1,550,542	1,573,916	23,374	1.5%
7	San Antonio, Texas	1,495,295	1,526,656	31,361	2.1%
8	San Diego, California	1,388,320	1,404,452	16,132	1.2%
9	Dallas, Texas	1,302,868	1,326,087	23,219	1.8%
10	Jacksonville, Florida	985,843	1,009,833	23,990	2.4%

Source: Bureau of Labor Statistics

Property and Sales Tax

Property tax, the City's primary revenue source, is subject to strict local and state regulations. Due to the property tax revenue cap, the tax rate has decreased in nine of the past 11 years since FY2015, while overall property tax revenue has continued to grow—from \$973.9 million in FY2015 to a projected \$1,474.7 million in FY2025.

Sales tax revenue, by contrast, is more sensitive to economic fluctuations. Following a sharp rebound after the COVID-19 pandemic, sales tax collections surged to \$893.9 million in FY2023. Growth has since moderated, with FY2025 projections reaching \$922.4 million, signaling a return to more stable, pre-pandemic trends.

Property Tax Abatement: The City has entered into several property tax abatement agreements with local businesses under the state Property Redevelopment and Tax Abatement Act, Chapter 312. The agreements have investment and employment requirements that must be met to have a portion of property taxes abated. The total amount abated for the year ended June 30, 2025, was approximately \$1.6 million for eight businesses. Additional details on the agreements and projects are disclosed in the accompanying Notes to the Basic Financial Statements (Note 5 – Property Tax).

Financial Policies and Planning

The City of Houston first formalized its fundamental financial and budgetary policies on November 10, 1987. These policies have been expanded and refined over the years through the adoption of various ordinances, including the Integrated Budgeting and Planning Resolution (88-87), Ordinance No. 2003-474, Ordinance No. 2014-1078, Ordinance No. 2018-390, and most recently, Ordinance No. 2023-726.

The primary objective of these policies is to safeguard public assets and ensure that decision-making at all levels, both internally and externally, is based on reliable public information. The policies establish a framework for the Mayor, City Controller, City Council, Finance Director, and all department directors to uphold principles of integrity, ethics, competence, and a positive control environment. Managers and supervisory personnel are accountable for implementing and maintaining these financial policies and procedures within their specific business units.

The City's financial policies provide guidelines for a variety of activities, including budgeting, reserves, long-term planning, debt management, accounting, auditing, financial reporting, internal controls, and economic development. Annually, the Administration reviews the City's adherence to these policies. As required by ordinance, the policies are updated every two years to ensure they remain relevant and effective.

The City has investments totaling approximately \$5.7 billion. The City adheres to an investment policy that emphasizes, in order of priority, safety, liquidity, and return on investment. The success of this deliberate approach is evident in the 'AAA' credit quality rating and "V1" volatility rating assigned to the City's general investment portfolio by Fitch Rating Services.

Retiree & Other Post-Employment Benefits ("OPEB")

The City provides certain health care benefits for its retired employees, their spouses, and survivors. Beginning with Fiscal Year 2018, the City is required by GASB Statement No. 75 to recognize the full OPEB liability on the City's balance sheet. The OPEB plan includes benefits such as health and life insurance for current and future retirees. Nearly all City employees become eligible for these benefits after they reach normal retirement age.

As of June 30, 2025, the City's total OPEB liability is approximately \$1.75 billion. It has been the City's practice to fund the cost of OPEB on an annual pay-as-you-go (PAYGO) basis and account for OPEB costs as current expenditures on the governmental fund financial statements in the fiscal year in which the OPEB cost is paid. This practice satisfies debt obligations but fails to structurally reduce the accruing liability.

For the fiscal year ended June 30, 2025, total OPEB liability decreased from approximately \$1.95 billion as of June 30, 2024, to approximately \$1.75 billion as of June 30, 2025. On July 30, 2025, City Council approved the establishment of a qualifying OPEB trust, with contributions from all departments anticipated to begin in Fiscal Year 2026. By establishing the trust, the City expects to reduce its total OPEB liability over time.

Long-term Financial Forecast and Major Initiatives

The Finance Department's most recent five-year forecast projects ongoing pressure on the City's fiscal health as costs continue to rise. Escalating salary obligations from recent labor agreements are a primary factor driving the projected deficit and intensifying long-term fiscal challenges. Without greater efficiency or new revenue sources, the City may face the need for significant cost reductions to close the widening deficit. My office remains committed to working closely with the Mayor and City Council to ensure the City's financial sustainability.

Structural Budget Deficit

A structurally balanced budget—where recurring revenues equal recurring expenditures—remains one of the City's most critical financial goals. The City continues to face a structural imbalance, with recurring costs outpacing recurring revenues, and has historically relied on non-recurring resources such as fund balance drawdowns and federal disaster aid to close gaps. While these one-time measures provide temporary relief, they are unsustainable in the long term, underscoring the need to achieve true structural balance to ensure lasting fiscal stability.

Award

The Government Finance Officers Association of the United States and Canada ("GFOA") awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its ACFR for the fiscal year ended June 30, 2024. This was the 28th consecutive year that the City has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized ACFR. This report must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement program's requirements, and we are submitting it to the GFOA to determine its eligibility for another award.

Acknowledgments

The preparation of this report on a timely basis could not have been accomplished without the dedicated services and hard work of a highly qualified staff. The City of Houston has such a staff in the City Controller's Office. Although much time and effort in preparation of this report lies in the Financial Reporting Division, there was significant support from the other divisions of the Office: Executive, Operations, and Treasury. I would like to express my appreciation to the entire staff of the City Controller's Office, and to the staffs of the Finance, Airport System, Houston First (formerly, Convention and Entertainment Facilities), and Houston Public Works departments who assisted and contributed to the preparation of this report. The City Controller's Office also received invaluable assistance and support from many others outside its immediate organization. Within the City of Houston, the accounting staffs of the operating departments and the technical staff of the Information Technology Services Department all played key roles in producing this report. Weaver and Tidwell, L.L.P. was not only our independent auditor, but also served as an invaluable source of information and ideas for improving the way City finances are reported.

Request for Information

This financial report is designed to provide a general overview of the City of Houston's finances for all those who are interested. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the City Controller, 901 Bagby Street, 6th Floor, Houston, Texas 77002. The Annual Comprehensive Financial Report is accessible on the City's web site and is also available in USB drive format.

Respectfully submitted,

Chris Hollins

Independent Auditor's Report

The Honorable Mayor, Members of City Council and
 City Controller of City of Houston, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Houston, Texas (the "City"), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City, as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Houston Municipal Employees' Pension Trust Fund and Houston Police Officers' Pension Trust Fund, fiduciary component units of the City of Houston, which represent 59%, 12%, 62%, 25% and 13% of the assets and deferred outflows, liabilities and deferred inflows, net position/fund balances, revenues/additions and expenses/expenditures/deductions, respectively, of the aggregate remaining fund information. We also did not audit the financial statements of the governmental and business-type discretely presented component units, which represent 100% of the assets and deferred inflows, liabilities and deferred inflows, net position, revenues and expenses of the aggregate discretely presented component units. Those financial statements, except for the Houston Area Library Automated Network and Lamar Terrace Public Improvement District which were unaudited and represent less than 0.1% of the assets and deferred outflows, liabilities and deferred inflows, net position, revenues and expenses of the governmental and business-type discretely presented component units, were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as it relates to the amounts included for such governmental and business-type discretely presented component units, are based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

Except for the Houston Forensic Science Center, Houston Land Bank, Houston Recovery Center LGC, Memorial City Redevelopment Authority, Memorial-Heights Redevelopment Authority, South Post Oak Redevelopment Authority and ETHAN Health LGC, the governmental and business-type discretely presented component units were not audited in accordance with *Government Auditing Standards*.

We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matters

As discussed in Note 1 to the basic financial statements, during the year ended June 30, 2025, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*, and GASB Statement No. 102, *Certain Risk Disclosures*. Our opinions are not modified with respect to this matter.

The Honorable Mayor, Members of City Council and City Controller
City of Houston, Texas

As discussed in Note 15 to the basic financial statements, restatements to beginning net position were identified for discretely presented component units resulting from error corrections and changes in accounting principle. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

The City's Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Budgeted and Actual Revenues and Expenditures of the General Fund, Reconciliation for the General Fund Budget vs. GAAP Presentation, the Schedules of Changes in the Net Pension Liability and Related Ratios, Schedules of City Contributions for Pension Plans, Schedules of Changes in the Total OPEB Liability and Related Ratios, Schedule of OPEB Contributions and related Notes to the Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Honorable Mayor, Members of City Council and City Controller
City of Houston, Texas

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying individual fund statements and schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, the accompanying individual fund statements and schedules, as listed in the table of contents, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information Included in the Annual Comprehensive Financial Report (ACFR)

Management is responsible for the other information included in the ACFR. The other information comprises the introductory section and statistical section but does not include the financial statements and our auditor's report thereon. Our opinions on the basic financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 12, 2025, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2025
(Unaudited)

As management of the City of Houston, Texas (the "City"), we offer readers of this narrative an overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2025 ("FY2025"). Please read this information in conjunction with the transmittal letter that precedes this section and the basic financial statements that follow this section. The discussion and analysis include comparative data for the fiscal year ended June 30, 2024 ("FY2024").

Financial Highlights

Some of the City's financial highlights for the fiscal year ended June 30, 2025, include:

- Total assets and deferred outflows of resources of the City exceeded its total liabilities and deferred inflows of resources by \$10.3 billion. This is a net increase from the prior year of \$1.5 billion and is mainly attributable to an increase of approximately \$552.2 million in total assets and a decrease in total liabilities of \$792.9 million. Of the \$552.2 million increase in total assets, approximately \$692.0 million is due to increases in capital assets in both governmental and business-type activities which is offset by a decrease of \$139.8 million in current and other assets. Total liabilities decreased by \$792.9 million in FY2025 mainly due to decreases in claims and judgments of \$655.7 million, net pension liability of \$113.1 million, and total other post-employment benefit ("OPEB") liability of \$214.1 million. These decreases were offset by increases in notes payable of \$67.4 million, commercial paper of \$79.0 million, and due to other governments of \$81.1 million.
- The City's unrestricted net position is a deficit of \$3.7 billion. This is an improvement of approximately \$0.4 billion compared to FY2024. The deficit is mainly attributable to pension and OPEB liabilities.
- The City's expenses totaled \$5.6 billion compared to \$6.0 billion in FY2024. The decrease was primarily driven by a \$421.4 million decrease in public safety expenses offset by an increase of \$107.4 million related to business-type activities.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: (1) government-wide financial statements ("GWFS"), (2) fund financial statements, and (3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. GWFS are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will not result in cash flows until future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The GWFS distinguish between functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works, health, housing and community development, parks and recreation, and library. The business-type activities of the City include the Airport System, Combined Utility System (the "Combined Utility"), and Convention & Entertainment Facilities (the "Convention and Entertainment").

The GWFS include not only the City itself (known as the primary government), but also legally separate component units for which the City is financially accountable. Except for the three pension systems, financial information for the component units is reported separately from the financial information presented for the primary government itself. The pension systems, although also legally separate, function for all practical purposes as departments of the City, and therefore have been included as an integral part of the primary government.

Fund financial statements. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, or fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the GWFS. However, unlike the GWFS, fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of GWFS, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the GWFS. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. The governmental fund balance sheet displays a reconciliation to facilitate this comparison between governmental funds. The reconciliation between the governmental fund statement of revenues, expenditures, and changes in fund balances and governmental activities is provided on a separate schedule.

The City maintains ten individual governmental funds for financial reporting purposes. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the debt service fund, the capital projects fund, and the grants fund, all of which are considered as major funds. Data from the other funds is combined in the column labeled "Nonmajor Governmental Funds" on both of these statements (see the separate tab labeled "Governmental Funds" for more information on these funds).

The City adopts an annual budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget in the Required Supplementary Information section of this report.

Proprietary funds. The City maintains two different types of proprietary funds: Enterprise funds (see separate tab of same name) and internal service funds (see separate tab of same name). Enterprise funds are used to report the same functions presented as business-type activities in the GWFS. The City uses enterprise funds to account for its Airport System, Combined Utility, and Convention and Entertainment. The City uses internal service funds to account for health benefits and long-term disability activities. Because both health benefits and long-term disability activities predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the GWFS.

Proprietary funds provide the same type of information as the GWFS, only in more detail. The proprietary fund financial statements provide separate information for the Airport System, Combined Utility, and Convention and Entertainment, all of which are major funds for the City. Conversely, both internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements.

Fiduciary funds. Fiduciary funds (see separate tab of same name) are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the GWFS because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements. The notes (see separate tab of same name) provide additional information that is essential to a full understanding of the data provided in the GWFS and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning: General fund – budget vs. actual, the City's three defined benefit pension plans, and the two other post-employment benefits plans.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, on a government-wide basis, assets and deferred outflows were higher than liabilities and deferred inflows by \$10.3 billion at June 30, 2025.

The largest portion of the City's net position is net investment in capital assets of approximately \$11.8 billion (e.g., land, building, machinery, equipment, and infrastructure); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Resources that are subject to external restrictions on how they may be used represents approximately \$2.2 billion of the City's net position.

Governmental activities. Governmental activities increased the City's net position from FY2024 by approximately \$717.1 million. The key elements of this change are as follows:

- Charges for services increased by approximately \$26.6 million primarily due to an increase in ambulance fees.
- Operating grants and contributions decreased by approximately \$216.3 million, or 27.6%, from \$784.7 million in FY2024 to \$568.3 million in FY2025. The decrease is primarily attributable to a lower level of revenue-loss reimbursements under the American Rescue Plan Act ("ARPA").
- Sales tax revenue for FY2025 increased by approximately \$38.2 million, supported by steady economic activity throughout the year.
- Total expenses decreased by approximately \$461.8 million mainly driven by lower claims and judgments related to a settlement agreement reached with Houston Professional Fire Fighters' Association in FY2024. For more details on the settlement, refer to Note 13.A of the financial statements.

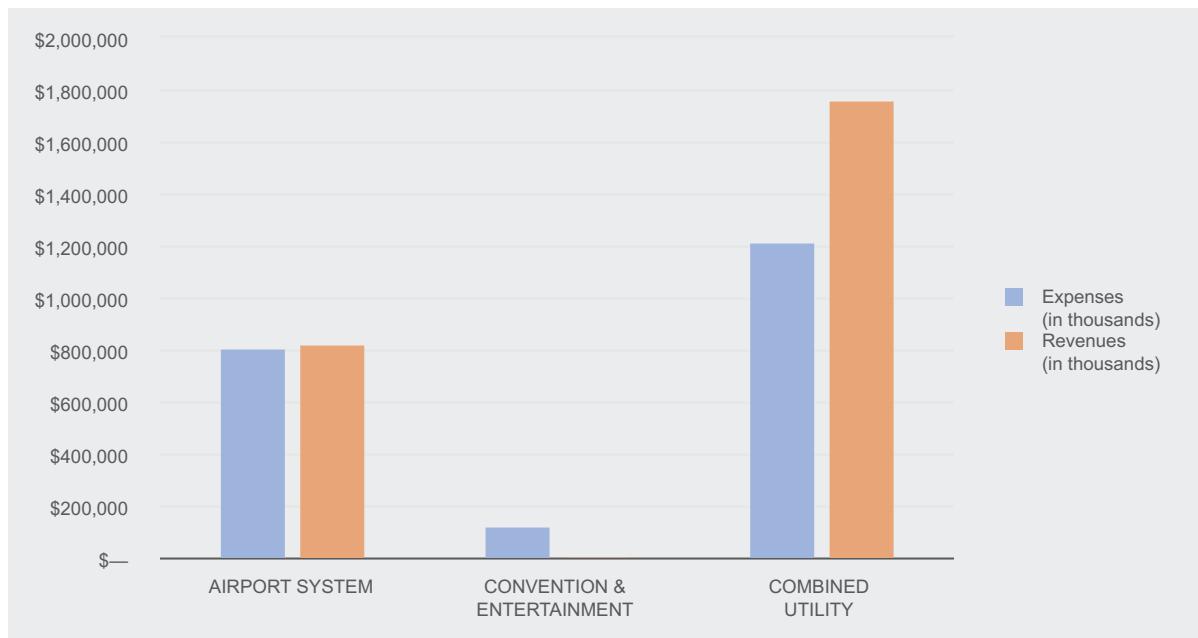

FY2025 Governmental Activities – Revenue by Source**FY2025 Governmental Activities – Program Revenues and Expenses**

Business-type activities. Change in net position totaled \$737.4 million for the City's business-type activities in FY2025. Total net position increased from \$6.1 billion at the end of FY2024 to \$6.9 billion at the end of FY2025. Of the \$6.9 billion total net position, the Airport System accounted for approximately 32.9%, or \$2.3 billion, while the Combined Utility accounted for approximately 65.2%, or \$4.5 billion, of the total, the remaining 1.9% of total net position is for the Convention & Entertainment.

FY2025 Business-Type Activities – Revenue by Source

FY2025 Business-Type Activities – Program Revenues & Expenses

Key elements of this change are as follows:

- The Airport System's operating revenues increased by approximately \$42.6 million, or 7.2%, to \$638.2 million in FY2025 mainly due to increases in revenue from terminal space and other rentals and airport parking of \$21.4 million and \$10.7 million, respectively. The increases were mainly attributable to rate increases that became effective during FY2025. In addition, total number of passengers increased from 62.0 million in FY2024 to 62.3 million in FY2025. Nonoperating revenue, grants received under ARPA, decreased by \$46.7 million due to the expiration of ARPA grants in FY2024 as the Airport System received the final reimbursement from the Federal Aviation Administration ("FAA"). Capital contributions increased by \$41.1 million mainly due to fundings received from the FAA for eligible expenditures under the Airport Terminals Program and the Airport Infrastructure Grants authorized under the Infrastructure Investment and Jobs Act. Operating expenses totaled approximately \$691.2 million in FY2025, an increase of \$83.3 million from \$607.9 million in FY2024. The increase in operating expenses was primarily due to an increase of \$73.0 million in professional services and other operating costs for ongoing redevelopment and maintenance programs at both Intercontinental Airport and Hobby Airport and an increase of \$12.1 million in depreciation expense due to an increase of \$591.0 million in depreciable and amortizable capital assets from \$5.99 billion in FY2024 to \$6.58 billion in FY2025.
- The Convention & Entertainment's maintenance and operating expenses increased by \$4.1 million from \$96.6 million in FY 2024 to \$100.7 million in FY 2025. Hotel occupancy tax revenue for the Convention & Entertainment increased from \$106.3 million in FY2024 to \$111.2 million in FY2025, a \$4.8 million or 4.6% increase, due to a 2.0% increase in average daily rate in FY2025 from \$120.39/night to \$122.83/night offsetting a 7.9% decrease in occupancy rates from 70.8% to 62.9%.
- The Combined Utility's operating revenues increased by approximately \$25.0 million, or 1.5%, in FY2025 compared to FY2024. This increase was mainly due to the rate increases implemented in April 2024 and April 2025 per rate study completed in fiscal year 2021. Operating expenses increased by approximately \$14.5 million, or 1.5%, primarily attributable to an increase of \$38.1 million in depreciation and amortization for fixed assets placed in service offset by a decrease of \$23.6 million in maintenance and operating expenses in FY2025.
- Investment income for business-type activities increased by \$10.7 million from \$189.1 million in FY2024 to \$199.8 million in FY2025. This is mainly due to higher interest income as a result of higher interest rates.

Financial Analysis of the Governmental Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds (see separate tab of same name). The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of FY2025, the City's governmental funds reported combined ending fund balances of approximately \$2.0 billion. Approximately 26.8% of this total, or \$527.1 million, constitutes unassigned fund balance, which is available for spending at the government's discretion. Additionally, \$200.7 million, or 10.2%, is set aside to indicate that it is not available for new spending because it has already been assigned for capital expenditures; \$238.8 million, or 12.1%, is restricted to pay debt service; and the remainder of \$1.0 billion is restricted for a variety of other restricted purposes.

The general fund is the chief operating fund of the City. At the end of FY2025, unassigned fund balance of the general fund was \$527.1 million, while the total fund balance reached \$576.5 million. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents approximately 16.0% of total general fund expenditures, while total fund balance represents 17.5% of that same amount. Revenues decreased by approximately \$58.2 million, or 2.2%, while expenditures and other financing sources (uses) increased by approximately \$798.9 million or 32.0% and \$722.6 million or 1116.1%, respectively.

Key differences in the general fund activity between FY2025 and FY2024 are as follows:

- Property tax revenue increased by approximately \$26.6 million, or 2.6%, to \$1,040.0 million in FY2025 from \$1,013.5 million in FY2024 due to increases in total market and appraised values compared to FY2024. In addition, the Proposition 1 cap on property tax, as described in Note 13 to the financial statements, increased primarily due to increases in Consumer Price Index in 2023 and 2024.
- Intergovernmental grants decreased by \$143.7 million, or 65.4%, mainly due to a lower level of ARPA revenue-loss reimbursements.
- Sales tax revenue increased by \$36.2 million, or 4.1%, due to steady economic activity throughout the year.
- Charges for services increased by \$20.6 million, or 10.6%, primarily due to an increase in ambulance fee collections.

- Investment income increased by \$2.2 million, or 6.6%, due to higher interest income earned on deposits and investments as well as lower fair value adjustments/loss on investments.
- Expenditures for Public Safety increased by approximately \$754.4 million, or 45.6%, primarily driven by \$658.4 million in costs associated with the firefighter settlement, as well as contractual base-salary increases of \$27.2 million for Fire and \$22.2 million for Police.
- Expenditures for Public Works increased by approximately \$7.4 million, or 3.2%, driven by higher infrastructure maintenance costs of \$6.0 million and increased refuse disposal costs of \$6.2 million. These increases were partially offset by lower utility and building maintenance costs of \$5.1 million.
- Park and Recreation Department's expenditures increased by approximately \$5.5 million, or 6.1%, mainly due to more construction projects being completed and added as capital assets during the year.
- Capital Outlays increased by approximately \$16.7 million or 25.6% mainly due to higher spending on construction-in-progress, increased vehicle acquisitions, greater low-value asset replacements, and higher computer equipment costs.
- Debt service principal increased by approximately \$3.7 million or 13.6% mainly due to principal payments related to equipment purchased for Public Safety.

Debt service expenditures (principal and interest) for the debt service fund increased by \$94.7 million, or 25.8%. In addition, proceeds from issuance of debt totaled \$135.2 million in FY2025, all of which were from the general obligation bonds.

The capital projects fund, which is used for the acquisition and/or construction of capital facilities by the City (except those financed by the three enterprise funds), has a fund balance of \$224.0 million as compared to \$184.1 million a year ago. Intergovernmental grants decreased by \$4.3 million, or 6.9%, primarily due to decreases in grants received from the Metropolitan Transit Authority. Investment income increased by \$1.4 million, or 8.7%, compared to FY2024 due to an increase in interest rates on a higher cash and investments balance from \$498.5 million in FY2024 to \$514.4 million in FY2025. Capital outlay increased by \$29.8 million, or 11.0%, primarily due to a \$57.1 million increase in construction activities across Police, Fire, Parks, Health, and General Government. This growth was partially offset by a \$30 million decline in equipment purchases and construction activities within Houston Public Works and the Library.

The grants fund, which is used to account for grant resources received from various local, state, and federal agencies and organizations, has a fund balance of \$112.5 million at June 30, 2025, a 37.9%, decrease from \$169.6 million at the June 30, 2024. Grant revenues decreased by \$101.0 million, or 22.7%, to approximately \$343.7 million in FY2025. The decrease was largely driven by reduced ARPA and COVID-19-related operational activity within the Health and Housing departments. Expenditures totaled approximately \$425.3 million, a decrease of \$50.1 million, or 10.5%, compared to FY2024. Housing and Community Development and the Houston Health Department recorded the largest expenditure decreases compared to FY2024, with reductions of totaling approximately \$129.5 million. The decrease was offset by an increase of \$77.4 million in Public Works' disaster recovery grant expenditures compared to FY2024.

Tax revenues reported in Nonmajor Governmental Funds. In FY2025, two sub-funds of the Other Special Revenue Fund, reported collections of incremental property taxes, sales tax, and mixed beverage tax totaling approximately \$45.8 million. These collections are considered as special revenues and are restricted for two of the Tax Increment Reinvestment Zones ("TIRZs"), which are to be set up as separate legal entities in the future similar to other TIRZs, which are discretely presented component units of the City. See Note 1 for a list of discretely presented component units and Note 5 regarding TIRZs.

Proprietary funds (see tabs labeled "Enterprise Funds" and "Internal Services Funds"). The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

At June 30, 2025, the Airport System, Convention and Entertainment, and Combined Utility had an unrestricted net position (deficit) of \$(64.9) million, \$27.7 million, and \$853.8 million, respectively. Major factors concerning the finances and change in net position of these funds are addressed in the discussion of the City's business-type activities.

General Fund Budgetary Highlights

Total revenues were above the final budget by approximately \$87.2 million. This difference was primarily driven by \$25.9 million in Sales Tax receipts due to continued economic improvement, \$25.7 million in Intergovernmental grants due to reimbursement from Metro for traffic enforcement services, \$25.5 million in charges for services mainly driven by higher ambulance fees. Additionally, interest income from deposits and investments increased by \$9.5 million. These gains are partially offset by an \$6.6 million decline in property tax revenue, attributed to slower assessed property value growth in FY2025 or tax year 2024. The details of the more significant variances are summarized below:

- \$6.6 million below budget in property tax
- \$3.2 million above budget in Industrial Assessments
- \$25.9 million above budget in sales taxes
- \$22.6 million above budget in ambulance services
- \$25.7 million above budget in intergovernmental grants
- \$9.5 million above budget in interest income
- \$1.9 million above budget in other income

Total expenditures for the General Fund were \$47.1 million below the final expenditure budget, primarily driven by savings in personnel, supplies, and services. Personnel costs were approximately \$11.7 million under the budgeted amount, and other departmental expenditures were approximately \$15.1 million under the budgeted amount. Lower personnel costs were mainly due to many open positions still to be filled at the end of FY2025. The details of the more significant variances are highlighted below:

- \$9.8 million under budget in general government
- \$19.9 million under budget in public safety
- \$2.6 million under budget in parks and recreation
- \$0.9 million under budget in library
- \$11.7 million under budget in other expenses
- \$2.7 million over budget in public works

Capital Assets and Debt Administration

Capital assets: The City's investment in capital assets, net of accumulated depreciation and amortization, for its governmental and business-type activities as of June 30, 2025, totaled approximately \$23.3 billion. This investment in capital assets includes land, buildings and improvements, machinery, equipment, storm drainage, streets and bridges. The City's capital assets, net, increased by more than \$692.0 million in FY2025.

Less accumulated depreciation and amortization	(6,704,375)	(6,402,032)	(11,863,903)	(11,370,890)	(18,568,278)	(17,772,922)
Total	<u>\$ 9,367,409</u>	<u>\$ 9,179,307</u>	<u>\$ 13,936,098</u>	<u>\$ 13,432,222</u>	<u>\$ 23,303,507</u>	<u>\$ 22,611,529</u>

Major capital asset events during FY2025 included the following:

- Governmental fund activities recorded a total of \$565.0 million additions to capital assets. Of the \$565.0 million, more than \$374.5 million was added to construction in progress for drainage, roads, and other projects. In addition, the City continued to work on various projects related to disaster recoveries during FY2025. Construction in progress, after placing a total of \$171.5 million of assets in service, totaled approximately \$1.2 billion as of June 30, 2025.
- Business-type activities had approximately \$1.0 billion of additions to capital assets during FY2025.
 - The Airport System added approximately \$383.2 million of capital assets during FY2025, with \$374.4 million to construction in progress. Majority of the additions to construction in progress is related to the Airport System's IAH Terminal Redevelopment Program at Intercontinental Airport and gate expansion at Hobby Airport. At June 30, 2025, the Airport System had approximately \$907.9 million in construction in progress.
 - The Combined Utility added approximately \$650.6 million of capital assets during FY2025. Construction in progress decreased from \$2.6 billion at the end of FY2024 to \$1.7 billion at the end of FY2025. Of the \$574.0 million additions in construction in progress, approximately \$107.2 million was related to the North East Water Purification Plant project, \$112.2 million was related to the Lift Station Renewal and Replacement project, \$130.0 million was related to the Wastewater Collection System Rehabilitation, as well as \$26.3 million in Wastewater Purification Plant Improvements. In addition, various water and sewer projects were placed in service during the year, resulting in transfers totaling \$1.5 billion from construction in progress to infrastructure and other capital assets.

More detailed information regarding capital assets can be found in Note 6 to the financial statements.

Long-term debt: The City's total debt remained stable in FY2025. At the end of FY2025, the City had a total of \$14.2 billion bonded debt and other long-term debt outstanding. The two largest portions of this total consisted of approximately \$9.6 billion of revenue bonds payable from the three enterprise funds' revenues and \$2.5 billion debt backed by the full faith and credit of the government. The remainder of the City's debt represents various long-term contracts, leases, SBITA, and \$1.4 billion in pension bonds.

New debt issued during FY2025 included \$904.2 million borrowings from public improvement bonds, general obligation bonds, and commercial paper, \$144.5 million from Convention and Entertainment debt, and \$25.0 million from the Combined Utility System long-term contracts. The proceeds from the issuance of public improvement bonds, commercial paper, and Convention and Entertainment debt were used for construction and various capital projects/purchases. The proceeds from the issuance of general obligation bonds were used to refund the Houston Professional Fire Fighters' Association settlement as discussed in Note 8 and 13 to the financial statements.

Subsequent to June 30, 2025, the City issued \$284.5 million of Public Improvement Refunding Bonds, Series 2025, and \$699.8 million Airport System Subordinate Lien Bonds, Series 2025A and Series 2025B. See Note 16 - Subsequent Events - to the financial statements for additional details.

Standard & Poor's, Moody's, Fitch and Kroll underlying ratings of the City's obligations as of June 30, 2025, are as follows:

	Standard & Poor's	Moody's	Fitch	Kroll
General Obligation	AA	Aa3	AA	N/R
Water & Sewer System Junior Lien	AA+	Aa1	AA+	N/R
Combined Utility System First Lien	AA	Aa2	AA	N/R
Houston Airport - Senior Lien	AA-	Aa3	N/R	N/R
Houston Airport System-Subordinate Lien	A+	A1	A+	AA-
Houston Airport System-CRCF Special Facility	A	A3	A-	N/R
Convention & Entertainment - Senior Lien	A	A2	N/R	N/R
Combined Utility System - CWA	AA	N/R	AA+	N/R

State statutes limit the amount of general obligation debt a governmental entity may issue to 10% of its total assessed valuation. At June 30, 2025, total assessed valuation is approximately \$431.4 billion, and therefore, the City's debt limit is \$43.1 billion. The City's outstanding general obligation debt of \$3.5 billion as of June 30, 2025, is well below the current debt limitation.

More detailed information on long-term debt can be found in Note 8 to the financial statements.

Economic Factors and Next Year's Budget and Rates

The unemployment rate for the Houston-The Woodlands-Sugarland Metropolitan Statistical Area decreased to 4.3% as of June 2025 compared to 4.7% as of June 2024 according to the U.S. Bureau of Labor Statistics. As of July 2025, the unemployment rate rose to 4.5% compared to June 2025.

Highlights of the fiscal year 2026 General Fund budget are as follows:

- The property tax rate remained flat at 51.9190 cents per \$100 of valuation in fiscal year 2026 ("FY2026"), unchanged from the 51.9190 cents for FY2025. While assessed property values increased for FY2026, due to the Proposition 1 restriction discussed in Note 13.A, property tax revenues cannot exceed the limit of \$1,451,766 thousand.
- Budgeted sales tax revenue increased to \$902.3 million in FY2026. The budgeted amount for FY2026 is mainly based on estimated amounts earned in FY2025 and assumes a 1.0% increase from FY2025. Sales tax receipts continue to show steady growth, reflecting ongoing economic activity and consumer spending strength.
- Total expenditures and other uses decreased by approximately \$59.9 million to \$3.0 billion in FY2026, primarily due to department budget reductions and savings from the voluntary employee retirement option. These savings were partially offset by contractual pay increases including 10.0% for police officers, 3.0% for firefighters, and 3.5% for municipal employees.
- Public safety remains a top priority of the City, representing \$1.8 billion or 71.0% of the total general fund expenditures, excluding debt service and other pay-as-you-go expenditures.

Request for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the City Controller, Attention: Financial Reporting Division, 901 Bagby Street, Houston, Texas 77002.

**Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balance of
Governmental Funds to the Statement of Activities**
For the Fiscal Year Ended June 30, 2025
(amounts expressed in thousands)

Net change in fund balances - total governmental funds \$ 40,841

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeds depreciation in the current year.

Expenditures for capital assets	\$ 464,755
Donated capital assets	100,281
Less: current year depreciation	(363,095)
Less: current year deletions	<u>(13,603)</u>
	188,338

Revenue in the statement of activities that do not provide current financial resources are deferred as revenues in the funds. 215,285

Generally, governmental funds report revenue when cash is actually received, or is expected 60 days after the close of the fiscal year. Cash received during the period relates to prior periods. (208,630)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report, as expenditures, the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. (511,560)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. Governmental funds report payments as expenditures in the period of disbursement. The liquidation of long-term liabilities previously accrued should not be reported in the statement of activities. 986,108

Internal service funds are used by management to charge the costs of certain activities, such as the cost of health benefits, to individual funds. The net revenue (expense) of the internal service fund is reported with governmental activities. 6,742

Change in net position of governmental activities \$ 717,124

* The notes to the basic financial statements are an integral part of this statement *

Note 16: Subsequent Events	151

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Houston, Texas (the "City") was incorporated under the laws of the Republic of Texas in 1837 and again under the laws of the State of Texas in 1905. The City operates under a Home Rule Charter with a Mayor-Council form of government and provides the following services as authorized or required by its charter: public safety (police and fire), highways and streets, sanitation, water, airports, health services, culture-recreation, storm drainage, solid waste disposal, planning and inspection, civil defense, public improvements, and general administrative services, including pension and other benefits for its employees.

The financial statements presented in this report conform to the reporting requirements of the Governmental Accounting Standards Board ("GASB"), which establishes combined statements at the required reporting level for governmental entities that present financial statements in accordance with generally accepted accounting principles in the United States of America ("GAAP").

The significant accounting policies of the City are as follows:

A. Principles Used in Determining the Reporting Entity for Financial Reporting Purposes

The accompanying financial statements include the City and all of its component units, collectively referred to as "the financial reporting entity". In accordance with GASB Statement No. 14 and GASB Statement No. 61, the component units have been included in the City's reporting entity because of the significance of their operational and financial relationships with the City. Organizations are included if they are financially accountable to the City, or the nature and significance of their relationship with the City are such that exclusion would cause the financial statements to be misleading or incomplete. Inclusion is determined on the basis of the City's ability to exercise significant influence. Significant influence or accountability is based primarily on its operational or financial relationship with the City (as distinct from legal relationship).

Component units are related organizations to the primary government. They are legally separate, independently audited, and are incorporated into the City's Annual Comprehensive Financial Report ("ACFR"). Factors for determining if an entity should be treated as a component unit of a primary government are as follows:

- Fiscal dependency: does the primary government appoint a voting majority of the governing body
- Financial benefit or burden relationship or the ability for the primary government to impose its will
- Financial presentation: the potential that exclusion would result in misleading financial reporting

There are 2 classifications of component units: blended and discretely presented.

A blended component unit functions, for all practical purposes, as an integral part of the primary government, much like a department. The following criteria is utilized to determine if a component unit is blended:

- Substantively the same governing body and a financial benefit or burden relationship exists
- Substantively the same governing body and operational responsibility falls with the primary government
- (Almost) exclusive service or benefit to the primary government itself rather than its citizens
- Total debt of the component unit repayable (almost) entirely from resources of the primary government

If a component unit does not function as an integral part of the primary government, it is reported as a discretely presented component unit.

B. Basis of Presentation - Financial Reporting Entity**1. Component Units**

Most component units of the City issue separately audited financial statements and are reported in this ACFR. Additional information is available by contacting the entities at the addresses shown herein.

All component units of the City have the same fiscal year end as the City, June 30, except the following component units, which have December 31 year end: Houston First Corporation, Houston Housing Finance Corporation, Houston Zoo Inc., Miller Theatre Advisory Board Inc., and Houston Arts Alliance.

The City has two blended component units, and they are incorporated into the financial statements of the City.

Blended Component Units	Brief Description of Activities, Relationship to the City and Key Inclusion Criteria
<i>Houston Spaceport Development Corporation 16930 JFK Boulevard Houston, TX 77032</i>	Created on September 15, 2021, Houston Spaceport Development Corporation ("HSDC") has a seven-member board of directors, including the Director of Aviation of Houston Airport System, which is appointed by the Mayor. This corporation is responsible for managing and promoting the development of Houston Spaceport as well as applying for funds under the Texas Spaceport Trust Fund. During the year ended June 30, 2025, HSDC did not have any financial activities and had no impact to the operating results of the Airport System Fund.
<i>TechConnect Houston 900 Bagby St. 4th Floor Houston, TX 77002</i>	Created on June 13, 2022, TechConnect Houston ("TechConnect") has a four-member board of directors, appointed by the Mayor. This public, 501(c)(3) non-profit corporation, is organized and operated exclusively for charitable and education purposes, for the use and benefit of the City in its efforts to provide digital equity and technological opportunities for the underserved youth in the City. The programs are offered at various Houston Parks and Recreation centers. TechConnect received \$35 private contributions for the fiscal year ended June 30, 2025, and the contributions received are reported in the Park Special Revenue Fund.

Reporting Fund: Park Special Revenue Fund

Following are the City's fiduciary component units:

Fiduciary Component Units	Brief Description of Activities, Relationship to the City and Key Inclusion Criteria
<p>Houston Firefighters' Relief and Retirement Fund ("HFRRF") 4225 Interwood North Parkway Houston, TX 77032</p>	<p>Responsible for administration, management, and operation of the pension system solely for active and retired City of Houston firefighters. One member of the Board is either the Mayor or an appointed representative, five members are elected by active firefighters, one member is elected by retired firefighters, two members are citizen representatives, and one member is the City Treasurer. There is a fiscal dependency on the City, and there is the potential that exclusion would result in misleading financial reporting. Separately issued financial statements can be obtained via https://www.hfrrf.org/about-us/governance/.</p>
<p>Houston Municipal Employees Pension System ("HMEPS") 1201 Louisiana, Suite 900 Houston, TX 77002</p>	<p>Responsible for administration, management, and operation of the pension system solely for active and retired municipal (non-classified) employees of the City. One member of the Board is appointed by the Mayor, one member of the Board is appointed by the City Controller, four are elected by active employees, two are elected by retirees, one is appointed by the elected trustees and two are appointed by the governing body of the City. There is a fiscal dependency on the City, and there is the potential that exclusion would result in misleading financial reporting. Separately issued financial statements can be obtained via https://hmeeps.org/publication-type/annual-reports/.</p>
<p>Houston Police Officers' Pension System ("HPOPS") 602 Sawyer, Suite 300 Houston, TX 77007</p>	<p>Responsible for administration, management, and operation of the pension system solely for active and retired police officers of the City. One member of the Board is appointed by the Mayor, three are elected by employees, two are elected by retirees, and one is the City Treasurer. There is a fiscal dependency on the City, and there is the potential that exclusion would result in misleading financial reporting. Separately issued financial statements can be obtained via https://www.hpops.org/publications/acfr/.</p>

Reporting Fund: Houston Police Officers' Pension Trust Fund.

Discretely presented component units, both business-type and governmental, are reported in separate columns in the government-wide financial statements of the City. Discretely presented component units are classified as major and non-major component units. Whether a given component unit is major depends on the nature and significance of its relationship to the primary government as follows:

- It is essential that financial statement users have separate information on the component unit because of the type of services it provides to citizens.
- The component unit is engaged in significant transactions with the primary government.
- There is a significant financial benefit or burden relationship with the primary government.

Major discretely presented component units, both business-type and governmental, are reported in detail within combining statements included as part of the basic financial statements. Non-major discretely presented component units are summarized in one column within said combining statements.

Following are the City's discretely presented business-type component units: (* indicates a major designation)

Discretely Presented Component Units	Brief Description of Activities, Relationship to City, and Key Inclusion Criteria
<i>*Houston First Corporation 701 Avenida de las Americas Houston, TX 77010</i>	<p>On June 1, 2011, City of Houston City Council approved the consolidation of the City's Convention & Entertainment Facilities Department's operations into the Hotel Corporation ("Consolidation"), effective July 1, 2011, in order to bring various entities responsible for generating and spending City hotel occupancy tax (HOT) revenues under one governing body. In connection with the Consolidation, the Hotel Corporation reconstituted and renamed itself as Houston First Corporation ("HFC"), which assumed the primary roles and responsibilities of the Department. To accomplish this, the Hotel Corporation amended its bylaws and articles of incorporation to broaden its authority to accomplish its expanded duties and responsibilities. The City appoints a voting majority of HFC's board. There is a fiscal dependency on the City, as well as a financial burden on the City, and there is the potential that exclusion would result in misleading financial reporting.</p>
<i>*Houston Housing Finance Corporation 9545 Katy Freeway, Suite 105 Houston, TX 77024</i>	<p>Non-profit corporation incorporated by the City in accordance with the Texas Housing Finance Corporation Act to finance residential mortgage loans to low or moderate-income persons through the sale of revenue bonds collateralized by the mortgage loans. The Board is appointed by the Mayor and confirmed by City Council. The City has financial accountability because it appoints a voting majority of the Board and a financial benefit/burden relationship exists, allowing the City to impose its will.</p>
<i>*Houston Zoo, Inc 1513 Cambridge Street Houston, TX 77030</i>	<p>Houston Zoo, Inc. ("HZI") is a 501(c)(3) non-profit corporation and has a contract with Houston Zoo Development Corporation to operate the Zoo. The Mayor may appoint up to 20% of the Board of Directors of HZI. Houston Zoo Development Corporation ("HZDC") is a local government corporation that leases the zoo from the City. The lease provides for the City to make payments in support of capital and operating expenses over the lease term, which it makes available to HZI. The City appoints a voting majority to the HZI board. There is a fiscal dependency on the City, as well as a financial burden on the City, and there is the potential that exclusion would result in misleading financial reporting.</p>

Following are the City's discretely presented governmental component units: (* indicates a major designation)

Discretely Presented Component Units	Brief Description of Activities, Relationship to City, and Key Inclusion Criteria
City Park Redevelopment Authority <i>c/o Hawes Hill and Assoc, LLP</i> P.O. Box 22167 Houston, TX 77227-2167	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the City Park Tax Increment Reinvestment Zone Board in the redevelopment of a neighborhood northwest of Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by the City Council and a financial benefit/burden relationship exists, allowing the City to impose its will. In addition, there is a fiscal dependence on the City.</p>
East Downtown Redevelopment Authority <i>711 Louisiana Street, Suite 2300</i> Houston, TX 77002	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the East Downtown Tax Increment Zone Board in the redevelopment of a blighted neighborhood east of Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and a financial benefit/burden relationship exists, allowing the City to impose its will. In addition, there is a fiscal dependence on the City.</p>
ETHAN Health, LGC <i>1200 Pressler Street, Suite E-1009</i> Houston, TX 77030	<p>Local government corporation created by the City of Houston in accordance with Chapter 431 of the Texas Transportation Corporation Act to enhance emergency medical response through telemedicine services. Ethan Health originated as a Houston Fire Department initiative and now operates independently, providing field-based telehealth consultations that support ambulance diversion and more efficient care routing. Board members are appointed by the City, and a financial benefit/burden relationship exists, allowing the City to impose its will.</p>
Fifth Ward Redevelopment Authority <i>c/o Fifth Ward Community Redevelopment Corporation</i> 4300 Lyons Avenue, Suite 300 Houston, TX 77020	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Fifth Ward Tax Increment Reinvestment Zone Board in the redevelopment of a blighted neighborhood adjacent to Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and a financial benefit/burden relationship exists, allowing the City to impose its will. The City has investment authority for the Zone's assets.</p>
Fourth Ward Redevelopment Authority <i>410 Pierce Street, Suite 355</i> Houston, TX 77002	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Fourth Ward Tax Increment Reinvestment Zone Board in the redevelopment of a blighted neighborhood adjacent to Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and a financial benefit/burden relationship exists, allowing the City to impose its will. The City has investment authority for the Zone's assets.</p>

Discretely Presented Component Units	Brief Description of Activities, Relationship to City, and Key Inclusion Criteria
Greater Greenspoint Redevelopment Authority 12257 Kuykendahl Houston, TX 77067	Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Greater Greenspoint Tax Increment Reinvestment Zone Board in the redevelopment of the Greenspoint Mall and a blighted adjacent neighborhood in North Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and a financial benefit/burden relationship exists, allowing the City to impose its will.
Gulfgate Redevelopment Authority c/o Bracewell LLP 711 Louisiana Street, Suite 2300 Houston, TX 77002	Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Gulfgate Tax Increment Reinvestment Zone Board in the redevelopment of the Gulfgate Mall and a blighted adjacent neighborhood southeast of Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and a financial benefit/burden relationship exists allowing the City to impose its will.
Harrisburg Redevelopment Authority c/o Hawes Hill & Associates, LLP 9610 Long Point Rd., Suite 150 Houston, TX 77055	Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Harrisburg Tax Increment Reinvestment Zone Board in the redevelopment of the East End area of Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and a financial benefit/burden relationship exists allowing the City to impose its will.
Hiram Clarke/Fort Bend Redevelopment Authority 14083 South Main Street Houston, TX 77035	Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Hiram Clarke/Fort Bend Tax Increment Reinvestment Zone Board in the redevelopment of the Hiram Clarke area of Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and a financial benefit/burden relationship exists allowing the City to impose its will.
Houston Area Library Automated Network Houston Central Library 500 McKinney Street Houston, TX 77002	Provides review and guidance to the operation, funding and development of the Houston Area Library Automated Network (HALAN), which provides library services to Houston and surrounding communities. Three members are appointed by City Council, two by the County, and one elected by the smaller libraries. The City does appoint a voting majority, and is financially accountable for this organization because HALAN is fiscally dependent on the City for revenues, allowing the City the ability to impose its will. As of July 1, 2024, all contracts with the member libraries have expired or terminated. As a result the City no longer has any financial accountability over HALAN and report a change to the financial entity by adjusting the current reporting period's beginning net position in the accompanying financial statements.
Houston Arts Alliance 5280 Caroline Street Houston, TX 77004	A 501(c)(3) non-profit corporation with a mission to enhance the city's quality of life through advancing and investing in the arts and diverse cultural programming. The Alliance awards grants, provides arts-related services and manages portions of the City's Civic Art Program. The City has financial accountability because a financial benefit/burden relationship exists. In addition, there is a fiscal dependence on the City for the revenues provided from a portion of hotel occupancy tax.

Discretely Presented Component Units	Brief Description of Activities, Relationship to City, and Key Inclusion Criteria
<p>Houston BARC Foundation c/o City of Houston, Administration and Regulatory Affairs Department 611 Walker Street, 13th Floor Houston, TX 77002</p>	<p>A 501(c)(3) non-profit corporation with a mission to enhance the City's quality of life through advancing and investing in the care and humane treatment of animals. The Foundation solicits funds, gifts, and bequests for use at BARC. It promotes awareness to Houston area residents on responsible pet ownership, and the humane treatment of all animals. The City has financial accountability because it must approve the members of the board of directors and a financial benefit/burden relationship exists, allowing the City to impose its will.</p>
<p>Houston Civic Events, Inc 901 Bagby Street, 1st Floor Houston, TX 77002</p>	<p>A 501(c)(3) non-profit, local government corporation and component unit created specifically to support the City's Civic Celebration Program. Under the existing structure, donations and sponsorship revenues received by the Mayor's Office of Special Events are currently housed with two component units, Houston Parks Board, Inc. and Central Houston Civic Improvement, Inc. Board members are appointed by the City and a financial benefit/burden relationship exists, allowing the City to impose its will. There is the potential that exclusion would result in misleading financial reporting.</p>
<p>Houston Downtown Park Corporation 1500 McKinney Street Houston, TX 77010</p>	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to aid and act on behalf of the City to accomplish the City's governmental purpose of providing for the acquisition, development, operation, and maintenance of a new public park, open space and related amenities and facilities to provide recreational, educational and tourism opportunities within, and beautification of the Central Business District of the City. Additionally, the corporation maintains an enterprise fund to account for the activities of the Discovery Green Parking Garage. Board members are appointed by the City and a financial benefit/burden relationship exists, allowing the City to impose its will. There is the potential that exclusion would result in misleading financial reporting.</p>
<p>*Houston Forensic Science Center, Inc. 500 Jefferson Street, 13th Floor Houston, TX 77002</p>	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to provide forensic science services previously provided by the Houston Police Department. Board members are appointed by the City and a financial benefit/burden relationship exists, allowing the City to impose its will. There is the potential that exclusion would result in misleading financial reporting.</p>
<p>Houston Land Bank c/o City of Houston, Housing and Community Department 1919 Decatur Houston, TX 77007</p>	<p>The Houston Land Bank ("HLB") formerly known as Land Assemblage Redevelopment Authority is a 13-member board appointed by the Mayor, City Council, Harris County and the Houston Independent School District. The HLB is organized for the purpose of aiding, assisting and acting on behalf of the City in the performance of its governmental functions to promote the common good and general welfare of the City and in undertaking and completing one or more projects, as may be defined or determined by the City Council. The City has financial accountability because the voting majority of the board members are appointed by City Council, allowing the City to impose its will, and the operations provide financial benefits to the City.</p>

Discretely Presented Component Units	Brief Description of Activities, Relationship to City, and Key Inclusion Criteria
Houston Media Source 410 Roberts Street Houston, TX 77003	A non-profit organization organized to coordinate and develop all public and educational cable access activities within the City of Houston. Funding is provided by Public and Educational, and Government Access ("PEG") payments made to the City by cable operators under the City's cable franchises with respect to the annual support of the PEG Channels for the support of public, educational, and governmental access programming. Board members are appointed by the City and a financial benefit/burden relationship exists, allowing the City to impose its will. There is the potential that exclusion would result in misleading financial reporting.
*Houston Parks Board LGC, Inc 300 N. Post Oak Lane Houston, TX 77024	Acquires land for and develops and improves new and existing public parks and open spaces and advises the Mayor and City Council on park acquisitions and improvements. These activities provide a direct benefit to the City. The Houston Parks Board administers and manages the LGC's business operations and grants privately raised funds to the LGC in support of its purpose. LGC board members are appointed by the Mayor and confirmed by City Council, allowing the City to impose its will. Upon dissolution, the LGC's assets revert to the City. There is a potential that exclusion of the LGC would result in misleading financial reporting.
Houston Public Library Foundation Houston Central Library 550 McKinney Street Houston, TX 77002	A 501(c)(3) non-profit corporation that solicits and manages funds raised privately for library improvements and advises the Mayor and City Council on additions and improvements to the library system that provide a direct benefit to the City. Board members are nominated by the Mayor and confirmed by City Council, allowing the City to impose its will. There is a potential that exclusion would result in misleading financial reporting.
Houston Recovery Center, LGC 150 North Chenevert Street, Suite 100 Houston, TX 77002	Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to provide management of the Houston Center for Sobriety. The City has financial accountability because the voting majority of the board members are appointed by City Council and the operations provide financial burden to the City, allowing the City to impose its will.
*Lake Houston Redevelopment Authority c/o TIFWorks, LLC P.O. Box 10330 Houston, TX 77206	Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist Tax Increment Reinvestment Zone 10 Board in the redevelopment of the Lake Houston area. The City has financial accountability because the voting majority of the board members are appointed by City Council and the operations provide financial benefits to the City.
Lamar Terrace Public Improvement District City of Houston P. O. Box 1562 Houston, TX 77251	Special tax district organized under state statute to redevelop a blighted neighborhood in Southwest Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and the operations provide financial benefits to the City, allowing the City to impose its will.

Discretely Presented Component Units	Brief Description of Activities, Relationship to City, and Key Inclusion Criteria
<p>Leland Woods Redevelopment Authority I c/o Bracewell, LLP 711 Louisiana Street, Suite 2300 Houston, TX 77002-2770</p>	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act and Chapter 394 of the Texas Local Government Code to assist the City and Tax Increment Reinvestment Zone Number 22 in the redevelopment of a blighted neighborhood. The City has financial accountability because the voting majority of the board members are appointed by City Council and a financial benefit/burden relationship exists, allowing the City to impose its will.</p>
<p>Leland Woods Redevelopment Authority II c/o Bracewell, LLP 711 Louisiana, Suite 2300 Houston, TX 77002-2770</p>	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act and Chapter 394 of the Texas Local Government Code to assist the City, Leland Woods Redevelopment Authority and Tax Increment Reinvestment Zone Number 22 in the redevelopment of a blighted neighborhood. The City has financial accountability because the voting majority of the board members are appointed by City Council and a financial benefit/burden relationship exists, allowing the City to impose its will.</p>
<p>Main Street Market Square Redevelopment Authority 909 Fannin, Suite 1650 Houston, TX 77010</p>	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Main St./Market Square Tax Increment Reinvestment Zone Board in the redevelopment of Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and the operations provide financial benefits to the City.</p>
<p>Memorial City Redevelopment Authority c/o Hawes Hill & Associates, LLP P.O. Box 22167 Houston, TX 77227-2167</p>	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Memorial City Tax Increment Reinvestment Zone Board in the redevelopment of the Memorial City Mall and the Town & Country Mall areas west of Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and the operations provide financial benefits to the City.</p>
<p>*Memorial-Heights Redevelopment Authority c/o John Kuhl, Attorney SKLaw 1980 Post Oak Boulevard, Suite 1380 Houston, TX 77056</p>	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Memorial Heights Tax Increment Reinvestment Zone Board in the redevelopment of a blighted neighborhood adjacent to Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and the operations provide financial benefits to the City.</p>
<p>*Midtown Redevelopment Authority 410 Pierce Street, Suite 355 Houston, TX 77002</p>	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Midtown Tax Increment Reinvestment Zone Board in the redevelopment of a blighted neighborhood south of Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and the operations provide financial benefits to the City.</p>

Discretely Presented Component Units	Brief Description of Activities, Relationship to City, and Key Inclusion Criteria
Miller Theatre Advisory Board, Inc <i>6000 Hermann Park Drive</i> <i>Houston, TX 77030-1702</i>	A 501(c)(3) non-profit corporation with a mission to act as a steward of public and private funds to provide professional-caliber performances, free to the public, at the Miller Outdoor Theatre for the cultural enrichment of Houston's diverse communities and visitors to this great city. Miller Outdoor Theatre is owned by the City and the Board awards grants to various artistic and performing groups for performances at Miller Outdoor Theatre. The City has financial accountability because the directors are appointed by the Mayor and approved by City Council and a financial benefit/burden relationship exists, allowing the City to impose its will. In addition, there is a fiscal dependence on the City for the revenues provided from a portion of hotel occupancy tax.
Montrose Redevelopment Authority <i>c/o Knudson, LP</i> Zone Administrator <i>8588 Katy Freeway, Suite 441</i> <i>Houston, TX 77024</i>	Montrose Redevelopment Authority ("Montrose RA") was set up as a local government corporation pursuant to provisions of Chapter 431 of the Texas Transportation Code and Chapter 394 of the Texas Local Government Code. Montrose RA is organized as a public non-profit corporation for the purpose of aiding, assisting, and acting on behalf of the City in the performance of its governmental function to promote the common good and general welfare of Reinvestment Zone Number Twenty-Seven and neighboring areas and to promote, develop, encourage and maintain housing, educational facilities, employment, commerce and economic development in the City. Montrose RA may issue bonds with consent of City Council. Montrose RA is managed by a board of directors consisting of seven members who are appointed by the Mayor with the approval of City Council.
Near Northside Redevelopment Authority <i>c/o Bracewell LLP</i> <i>711 Louisiana Street, Suite 2300</i> <i>Houston, TX 77002-2770</i>	A local government corporation established by the City of Houston in 2009 in accordance with Chapter 311 of the Texas Tax Code. The City has financial accountability because the voting majority of the board members are appointed by City Council and a financial benefit/burden relationship exists allowing the City to impose its will.
Old Sixth Ward Redevelopment Authority <i>c/o City of Houston, Mayor's Office of Economic Development</i> <i>901 Bagby Street, 4th Floor</i> <i>Houston, TX 77002</i>	Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Old Sixth Ward Tax Increment Reinvestment Zone Board in the redevelopment of a neighborhood adjacent to Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council, the operations provide financial benefits to the City, and the City has investment authority for the Authority's assets.
OST/Almeda Corridors Redevelopment Authority <i>3131 Emancipation Avenue</i> <i>Suite 225</i> <i>Houston, TX 77004</i>	Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the OST/Almeda Corridors Tax Increment Reinvestment Zone Board in the redevelopment of a blighted neighborhood south of Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and the operations provide financial benefits to the City.

Discretely Presented Component Units	Brief Description of Activities, Relationship to City, and Key Inclusion Criteria
<p>Saint George Place Redevelopment Authority c/o Hawes Hill & Associates, LLP P.O. Box 22167 Houston, TX 77227-2167</p>	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the St. George Place Tax Increment Reinvestment Zone Board in the redevelopment of a blighted neighborhood in southwest Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council. The operations provide financial benefits to the City and the City has investment authority for the Authority's assets.</p>
<p>South Post Oak Redevelopment Authority c/o City of Houston, Mayor's Office of Economic Development 901 Bagby Street, 4th Floor Houston, TX 77002</p>	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the South Post Oak Tax Increment Reinvestment Zone Board in the development of an affordable housing project in Southwest Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council, and the operations provide financial benefits to the City.</p>
<p>Southwest Houston Redevelopment Authority c/o Hawes Hill & Associates, LLP P.O. Box 22167 Houston, TX 77227-2167</p>	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Southwest Houston Tax Increment Reinvestment Zone Board (TIRZ 20) in the redevelopment of the Sharpstown Mall and adjacent neighborhoods southwest of Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and the operations provide financial benefits to the City.</p>
<p>Sunnyside Redevelopment Authority 3200 Southwest Freeway Suite 2600 Houston, TX 77027</p>	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Sunnyside Tax Increment Reinvestment Zone Board in the redevelopment of the neighborhood south of Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and the operations provide financial benefits to the City.</p>
<p>Upper Kirby Redevelopment Authority 3120 Southwest Freeway, Suite 102 Houston, TX 77098</p>	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Upper Kirby Tax Increment Reinvestment Zone Board in the redevelopment of a neighborhood west of Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and the operations provide financial benefits to the City.</p>
<p>*Uptown Development Authority 1980 Post Oak Boulevard, Suite 1700 Houston, TX 77056</p>	<p>Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to assist the Uptown Tax Increment Reinvestment Zone Board in the redevelopment of the Galleria Mall area, west of Downtown Houston. The City has financial accountability because the voting majority of the board members are appointed by City Council and the operations provide financial benefits to the City.</p>

2. Related Organizations

The following entities are related organizations to which the City appoints board members but for which the City has no significant financial accountability. Some of these organizations are Access Houston Cable Corporation, Coastal Water Authority, Employees Deferred Compensation Plan, Harris County–Houston Sports Authority, Metropolitan Transit Authority of Harris County, Houston Clean City Commission, and the Miller Theatre Advisory Council. All transactions with these related organizations are conducted in the ordinary course of business. Further financial information is available from the respective organizations.

C. Basis of Presentation

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. The effect of interfund activity between governmental funds has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent, on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable and include a financial burden/benefit.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported instead as *general revenues*. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The accounts of the City are organized on the basis of funds, each of which is accounted for with a separate set of self-balancing accounts that comprise its assets, deferred outflows, liabilities, deferred inflows, fund balance/net position, revenues, and expenditures/expenses. Government resources are allocated to and accounted for in individual funds for the purpose of carrying on specific activities in accordance with special regulations, restrictions, or limitations. The type and purpose of funds are described below.

Fund Accounting

1. The City reports the following major governmental funds:

- a. **General Fund** - is the principal operating fund of the City and is used to account for all financial resources except those required to be accounted for in another fund.
- b. **Debt Service Fund** - is used to account for the accumulation of resources for, and the payment of principal, interest, and related costs of tax supported debt.
- c. **Capital Projects Fund** - is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds). Such resources are derived principally from proceeds of public improvement bonds and from special assessments.
- d. **ARPA Fiscal Recovery Fund** - Previously reported as a major fund due to its significance to financial statement users, the ARPA Fiscal Recovery Fund was used to receive funds from the U.S. Department of the Treasury for COVID-19 recovery efforts pursuant to the American Rescue Plan Act of 2021. This fund is no longer reported separately and is fully incorporated into the Grants Fund for the fiscal year ended June 30, 2025.

e. **Grants Fund** - is used to account for grant resources received from various local, state and federal sources. The use of these resources is restricted to a particular function of the City by each grantor.

2. The City reports the following major enterprise funds:

- a. **Airport System Fund (the “Airport System”)** - is used to account for the operations of the City’s Airport System. The system is comprised of George Bush Intercontinental Airport, William P. Hobby Airport, and Ellington Airport.
- b. **Convention and Entertainment Facilities Fund (the “Convention and Entertainment”)** - is used to account for the operations of the City’s major entertainment facilities, outdoor venues, and parking garages and surface lots. These assets include, but are not limited to, the following: George R. Brown Convention Center, Gus S. Wortham Center, Jesse H. Jones Hall, Talento Bilingue de Houston, Jones Plaza, and Theater District parking garages.
- c. **Combined Utility System Fund (the “Combined Utility”)** – is used to account for the production and transmission of water and the treatment of wastewater for City residents and businesses as well as for other governmental entities located in the Houston area.

3. The City reports the following additional funds:

- a. **Nonmajor Special Revenue Funds** - are used to account for the proceeds of specific revenue sources (other than identified major fund) that are legally restricted to expenditures for specific purposes.
- b. **Internal Service Funds** - are used to account for the financing of goods or services provided by one department to other departments of the City on a cost-reimbursement basis.
- c. **Fiduciary Fund Types** - are used to account for assets held by the City in a trustee capacity for individuals, private organizations, and other governmental units. These include the following:
 - (1) **Pension Trust Funds** - are used to account for the assets held in trust for the members and beneficiaries of the City’s three defined benefit pension plans.
 - (2) **Private-Purpose Trust Fund** – is used to account for assets held in a trust of the Houston Foundation which is dedicated to providing benefits to recipients in accordance with the benefit terms. The Houston Foundation was created by City ordinance on March 22, 1915, as a general-purpose charity trust and is administered by an outside board of directors. The City’s Finance Director serves as the treasurer of the board in accordance with the ordinance. Additions to the trust consist of individual donor contributions and investment income. Distributions from the fund, primarily to external/eligible 501(c)(3) organizations, may be made for humanitarian needs of the people of Houston.

D. Measurement Focus and Basis of Accounting

The government-wide financial statements display information about the City as a whole. Government-wide statements exclude both fiduciary funds and fiduciary component units. The statement of net position and the statement of activities are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place, regardless of the timing of related cash flows. Revenues, expenses, gains, losses, assets and liabilities resulting from non-exchange transactions are recognized in accordance with GASB Statement No. 33, “Accounting and Financial Reporting for Non-exchange Transactions”. Program revenues include (1) amounts received from those who purchase, use, or directly benefit from a program, (2) amounts received from parties outside the City of Houston’s citizenry that are restricted to one or more specific programs, and (3) earnings on investments that are legally restricted for a specific program. Program revenue is divided into three categories: (1) charges for services, (2) operating grants and contributions, and (3) capital grants and contributions.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus applied. All governmental funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The City considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current period. Expenditures are recognized under the modified accrual basis of accounting in the accounting period in which the fund liability is incurred, if measurable. Claims, judgments, and compensated absences are recognized when matured.

The following types of revenues are susceptible to accrual under the modified accrual basis of accounting: property taxes, including delinquent property taxes (including penalty and interest); services billed to other funds; sales tax; mixed beverage tax; franchise fees; fines and forfeitures; ambulance receipts; and investment earnings. Intergovernmental revenue from reimbursable grants and capital projects is recognized when the related expenditure is incurred. See Note 5 for dates and additional disclosures related to property tax.

All governmental funds and certain component units are accounted for using the current financial resources measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balances (net current assets) are considered a measure of "available spendable resources." Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Non-current portions of certain long-term receivables, primarily property taxes and special assessments, are reported on the balance sheets of governmental funds in spite of their spending measurement focus. Special reporting treatments are used to indicate that they should not be considered "available spendable resources," since they do not represent net current assets. Recognition of governmental fund revenues represented by noncurrent receivables is deferred until they become current receivables and are reported as deferred inflows of resources.

Because of their spending measurement focus, expenditure recognition for governmental fund types is limited to amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Proprietary funds, fiduciary funds of the primary government, and certain component units are accounted for on a cost of services or "economic resources" measurement focus. This means that all assets and all liabilities (whether current or noncurrent) associated with their activity are included on their statements of net position.

All proprietary funds define operating revenues and expenses consistent with the precepts of GASB Statement No. 9, paragraphs 16 – 19 and 31: cash receipts from customers, cash receipts from interfund services provided and used with other funds and other operating cash receipts. All other revenues or expenses recognized are non-operating.

All proprietary and fiduciary funds use the full accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses and related liabilities, including claims, judgments, and compensated absences, are recognized when they are incurred.

When restricted and unrestricted resources are available to cover expenses, unrestricted resources are first applied. Administrative overhead charges are included in direct program expenses.

In accordance with GASB Statement No. 62, "Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements", paragraphs 114-123, the City utilizes the percentage-of-completion method for a long-term construction contract when estimates of costs to complete and extent of progress toward completion of long-term contracts are reasonably dependable.

E. Assets and Liabilities

1. Deposits and Investments

Substantially all cash, except for imprest accounts, is deposited with financial institutions in non-interest-bearing accounts. The City's deposit account is considered as a non-interest-bearing account. Instead of receiving interest on the accounts, the City receives the "Earnings Credit Rate". The majority of the City's cash and investments are administered using a pooled concept, which combines the monies of various funds for investment purposes. Interest earnings of the pool are apportioned to each fund, unless otherwise required by bond covenants, based on the fund's relative share of the investment pool. All cash and investments are displayed on the statement of net position as "Cash and cash equivalents" and "Investments" and in accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools."

Investments are carried at fair value as defined in GASB Statement No. 72, "Fair Value Measurement and Application". Consistent with GASB Statement No. 72, the City categorizes its fair value measurements within the fair value hierarchy. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. A detail of the fair value hierarchy of investments held by the City are disclosed in Note 3 to the financial statements. Similar disclosure for debt held by the City at fair values is disclosed in Note 8.C.15 to the financial statements. The fiduciary and discretely presented component units separately invest their funds and report investments pursuant to their respective investment policies described in their separately audited financial statements.

"Cash and cash equivalents" and "Investments" are further split into current and non-current in accordance with GASB Statement No. 62, "Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements".

The City considers all highly liquid debt securities with a maturity date of three months or less to be cash equivalents.

Investments authorized by the City's investment policy, which is guided by state laws and city ordinances, generally include: obligations of the United States of America or its agencies and instrumentalities; fully-collateralized certificates of deposit from City Council-approved public depositories; direct obligations of the State of Texas or its agencies and instrumentalities; other obligations, the principal and interest of which are unconditionally guaranteed or insured by, or backed by the full faith and credit of, the State of Texas or the United States or their respective agencies and instrumentalities; obligations of states, agencies, counties, cities, and other political subdivisions; no-load money market mutual funds registered and regulated by the Securities and Exchange Commission; corporate commercial paper; fully collateralized repurchase agreements; and reverse repurchase agreements within specific terms.

2. Prepaid Items and Inventories of Materials and Supplies

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. Prepays are charged to expenditures when consumed and are offset at year-end by non-spendable fund balance in the governmental fund financial statements.

With the exception of fuel, inventories are carried at the average cost in government-wide, proprietary and governmental funds. Inventories are presented under the consumption method. These inventories include: automobile parts, chemical and medical supplies, uniforms and their accessories, vaccines and office supplies. Fuel is carried at the lower of market or replacement cost.

3. Capital Assets

a. Governmental Funds and Governmental Activities - Property, Plant, Equipment, and Infrastructure

Capital assets are defined by the general government as assets with an initial cost of \$5,000 or more, and an estimated useful life in excess of one fiscal year. The costs of maintenance and repairs that do not significantly add to the utility of an asset, or materially extend its useful life beyond its initially estimated useful life are not capitalized.

Capital asset valuation is based on historical costs if purchased or constructed, or based on estimated historical costs if original costs are not available - such as for the costs of infrastructure acquired prior to fiscal year 1981. Donated capital assets are recorded at acquisition value on the dates of donation.

General governmental capital acquisition and construction charges for land; buildings and improvements; improvements other than buildings; machinery and equipment; construction in progress; and infrastructure (e.g., storm drainage, streets and bridges) are reflected as capital outlay expenditures in the governmental funds' Statement of Revenues, Expenditures and Changes in Fund Balances. Capitalizable expenditures are reported also as capital assets in the Governmental Activities column of the government-wide Statement of Net Position.

During any construction phase, capitalizable outlays are reported as construction-in-progress on the government-wide Statement of Net Position. There is no depreciation expense for this class of capital assets.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Useful Life
Buildings and improvements	Range from 20 to 45 years
Improvements other than buildings	Range from 15 to 30 years
Machinery	Range from 5 to 20 years
Equipment	Range from 3 to 15 years
Storm drainage	Range from 40 to 50 years
Streets	Range from 6 to 50 years
Bridges	Range from 20 to 50 years

b. Enterprise Funds – Property, Plant, and Equipment

Property, plant, and equipment owned by the enterprise funds are stated at cost or estimated historical cost if original cost is not available. Construction costs (excluding land and equipment) are added to work-in-progress until the assets are substantially complete. At that point, the project is moved to the appropriate asset category and depreciation begins. Land and equipment costs are added to the capital asset base in the year of acquisition. Depreciation on equipment begins in the year of acquisition.

Depreciation is computed using the straight-line method on the composite asset base over the estimated useful lives as follows:

Assets	Useful Life
Airport System Facilities	Range from 3 to 50 years
Convention & Entertainment Facilities	Range from 5 to 45 years
Combined Utility Facilities	Range from 5 to 50 years

Water rights and conveyance system rights of the Combined Utility are not amortized. Garage rights of the Convention and Entertainment are amortized over the life of the related contracts. These rights are reported as capital assets. Land use and navigation easements of the Airport System are not amortized.

c. Leases

Leases are defined by the general government as the right to use an underlying asset. As a lessee, the City recognizes a lease liability and an intangible right-of-use lease asset at the beginning of a lease that have a term exceeding one year and the cumulative future payments on the contract exceeding \$100,000, unless the lease is considered a short-term lease or transfers ownership of the underlying asset. Right-of-use lease assets are measured based on the net present value of the future lease payments at inception, using the incremental borrowing rate or the weighted average cost of capital, which approximate the incremental borrowing rate. Re-measurement of a lease liability occurs when there is a change in the lease term and/or other changes that are likely to have a significant impact on the lease liability.

The City calculates the amortization of the discount on the lease liability and report that amount as outflows of resources. Payments are allocated first to accrued interest liability and then to the lease liability. Variable lease payments based on the usage of the underlying assets are not included in the lease liability calculations but are recognized as outflows of resources in the period in which the obligation was incurred.

As a lessor, the City recognizes a lease receivable. The lease receivable is measured using the net present value of future lease payments to be received for the lease term and deferred inflows of resources at the beginning of the lease term. Periodic amortization of the discount on the receivable are reported as interest revenue for that period. Deferred inflows of resources are recognized as inflows on a straight-line basis over the term of the lease. This recognition does not apply to short-term leases, contracts that transfer ownership, leases of assets that are investments, or certain regulated leases. Any initial direct costs are reported as an outflow of resources for that period. Re-measurement of lease receivables occur when there are modifications, including but not limited to changes in the contract price, lease term, and adding or removing an underlying asset to the lease agreements. In the case of a partial or full lease termination, the carrying value of the lease receivable and the related deferred inflows of resources will be reduced and will include a gain or loss for the difference.

For lease contracts that are short-term, the City recognizes short-term lease payments as inflows of resources (revenues) based on the payment provisions of the lease contracts. Liabilities are only recognized if payments are received in advance, and receivables are only recognized if payments are received subsequent to the reporting period.

Leases between the Airport System and air carriers and other aeronautical users are subject to external laws and regulations. As permitted by GASB Statement No. 87, paragraph 43, the Airport System recognizes inflows of resources based on the payment provisions of the lease contract, and the accounting policies described above do not apply to regulated leases. Additional disclosures regarding regulated leases are in Note 9.

d. Subscription Based Information Technology Arrangements

SBITA assets are defined by the general government as the right to use vendor-provided information technology ("IT") with access to vendors' IT assets. The City recognizes a subscription liability and an intangible subscription right-of-use asset at the beginning of the subscription term that have a term exceeding one year and the cumulative future payments on the contract exceed \$100,000 unless the contract is considered a short-term SBITA. A SBITA asset is measured based on the net present value of subscription payments expected to be made during the subscription term, using the incremental borrowing rate, and is amortized using the straight-line method over the shorter of the subscription term or the useful life of the underlying IT assets. Re-measurement of a subscription liability occurs when there is a change in the contract term and/or other changes that are likely to have a significant impact on the subscription liability.

4. Bond Premiums, Discounts and Issuance Costs

Bond premiums, discounts and prepaid bond insurance costs are amortized over the term of the bonds using the effective interest or straight-line amortization method. Gains or losses on refundings are reported as deferred inflows or outflows, respectively, and are amortized over the term of the lesser of the new bonds or the refunded bonds using the straight-line or effective interest method. Debt issuance costs are recognized as expenditures/expenses when incurred.

The remainder of this page is intentionally left blank

F. Deferred Outflows and Inflows of Resources

In accordance with GASB Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position," the City reports deferred outflows of resources in the Statement of Net Position in a separate section following assets. Similarly, the City reports deferred inflows of resources in the Statement of Net Position in a separate section following liabilities.

The components of the deferred outflows of resources and deferred inflows of resources are as follows (in thousands):

	Business-Type Activities					Total
	Governmental Activities	Houston Airport System	Convention & Entertainment	Combined Utility System		
Deferred Outflows of Resources:						
Municipal pension activities	\$ 721	\$ 10,036	\$ 3	\$ 7,730	\$ 18,490	
Police pension activities	187,041	—	—	—	187,041	
Firefighter's pension activities	369,606	—	—	—	369,606	
Deferred outflows of resources for pensions	557,368	10,036	3	7,730	575,137	
OPEB activities - long-term disability	1,499	173	—	274	1,946	
OPEB activities - health benefits	229,101	8,160	895	18,563	256,719	
Unamortized refunding costs	13,335	11,885	118	140,059	165,397	
Total Deferred Outflows of Resources	\$ 801,303	\$ 30,254	\$ 1,016	\$ 166,626	\$ 999,199	
Deferred Inflows of Resources:						
Municipal pension activities	\$ (151,239)	\$ (22,096)	\$ (567)	\$ (37,979)	\$ (211,881)	
Police pension activities	(220,552)	—	—	—	(220,552)	
Firefighters' pension activities	(255,568)	—	—	—	(255,568)	
Deferred inflows of resources for pensions	(627,359)	(22,096)	(567)	(37,979)	(688,001)	
OPEB activities - health benefits	(660,355)	(23,443)	(2,606)	(53,470)	(739,874)	
OPEB activities - long term disability	(4,768)	(552)	—	(873)	(6,193)	
Notes receivable and other unavailable revenues / SWAP liability	(71,689)	—	—	(13,708)	(85,397)	
Unamortized gains on refunded debt	—	(13,778)	(6,308)	(41,927)	(62,013)	
Leases (as lessor)	(31,783)	(286,775)	(2,170)	—	(320,728)	
Total Deferred Inflows of Resources	\$ (1,395,954)	\$ (346,644)	\$ (11,651)	\$ (147,957)	\$ (1,902,206)	

In the fund financial statements, revenues that have met the eligibility criteria for future years except for the time availability have been reclassified from liabilities to deferred inflows of resources. In the government-wide financial statements, the unamortized loss on refunding has been reclassified from long-term debt to deferred outflows of resources.

Governmental Funds	Nonmajor Governmental Funds			Total
	General	Grants		
Deferred Inflows of Resources				
Property taxes	\$ 80,737	\$ —	\$ —	\$ 80,737
Other	121,230	—	14,155	135,385
Lease related	31,783	—	—	31,783
Notes and loans	—	66,181	3,870	70,051
Total	\$ 233,750	\$ 66,181	\$ 18,025	\$ 317,956

G. Fund Balances and Budget Stabilization Arrangements

1. Fund Balance Descriptions

- a. **Non-spendable** - indicates that portion of a fund balance that cannot be spent because they are either:
 - 1) not in spendable form (such as inventories and prepaid amounts); or
 - 2) legally or contractually required to be maintained intact.
- b. **Restricted** - indicates that portion of a fund balance for which external constraints are placed on the use of resources that are either:
 - 1) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or
 - 2) imposed by law through constitutional provisions or enabling legislation.
- c. **Committed** – refers to that portion of a fund balance that can only be used for specific purposes pursuant to constraints imposed by ordinance of the City Council. The same formal action is required to remove the limitation.
- d. **Assigned** – indicates that portion of a fund balance that are intended to be used for specific purposes but do not meet the criteria to be classified as restricted or committed. City Council may assign fund balance through approval of budget appropriations.
- e. **Unassigned** – residual net resources as a positive balance within the general fund only.

Emergency services	—	—	—	—	3,053	—	—	—	—	3,053	3,053	
Capital construction	12,805	—	—	—	—	—	—	—	—	—	—	12,805
Public parks and preserves	6,915	—	—	—	—	2,535	—	5,708	—	8,243	15,158	
Recycling programs	—	—	—	—	—	4,849	—	—	—	4,849	4,849	
Development services	—	—	—	—	—	30,948	—	—	—	30,948	30,948	
Health services	—	—	—	—	—	—	24,277	—	—	24,277	24,277	
Affordable housing programs	—	—	—	—	—	—	—	—	108	108	108	
Public transit operations	—	—	—	—	—	—	—	—	2,304	2,304	2,304	
Total committed	21,369	—	—	—	35,235	38,332	24,277	7,202	5,330	110,376	131,745	
Assigned:												
Capital construction	—	—	200,686	—	—	—	—	—	—	—	200,686	
Total assigned	—	—	200,686	—	—	—	—	—	—	—	200,686	
Unassigned:												
Total	527,145	—	—	—	—	—	—	—	—	—	527,145	
	\$ 576,450	\$ 238,804	\$ 224,046	\$ 112,542	\$ 45,554	\$ 489,677	\$ 110,372	\$ 7,381	\$ 165,383	\$ 818,367	\$ 1,970,209	

When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the City's policy is to first apply the expense toward restricted resources and then toward unrestricted resources. In governmental funds, the City's policy is to first apply the expenditure toward restricted fund balance and then to other, less-restrictive classifications - committed and then assigned fund balances before using unassigned fund balances when expenditures are incurred for purposes for which amounts in any of these unrestricted fund balance classifications are available.

3. Budget Stabilization Arrangements

In accordance with the City's Financial Policies (as amended by Ordinance 2018-390) (the "Financial Policies"), the City created a Budget Stabilization Fund in an amount not less than the greater of (a) 1% of Adopted Budget General Fund expenditures (excluding debt service payments and transfers for pay-as-you-go ("PAYGO") capital expenditures) or (b) \$20 million, which may be used in accordance with the definition of the fund. Transfers necessary to meet this requirement shall occur by July 31 of each fiscal year. Any proposed use of the Budget Stabilization Fund shall be accompanied by a justification to City Council and shall require approval from two-thirds of the City Council present and voting. When an event causing use of the Budget Stabilization Fund has concluded, the City shall allocate sufficient funds by the end of the second subsequent full fiscal year to restore the Budget Stabilization Fund to at least minimum levels. Also, in accordance with the Financial Policies, the City will maintain fund balance as additional insurance against disasters, emergencies, and economic instability. The City's desired minimum unassigned fund balance for any given fiscal year is 7.5% of General Fund expenditures for that fiscal year, excluding debt service payments and transfers for PAYGO capital expenditures. These amounts are included in the General Fund's unassigned fund balance.

H. Transfers, Revenues, Expenditures and Expenses

1. Interfund Transactions

A description of the four basic types of interfund transactions and the related accounting policies are as follows:

- a. Loans are reported as receivables and payables as appropriate.
- b. Charges for services are reported as revenues for the performing fund and expenditures of the requesting fund.
- c. Transactions to reimburse a fund for expenditures made by it for the benefit of another fund are recorded as expenditures or expenses in the reimbursing fund and as a reduction of expenditures or expenses in the fund that is reimbursed.
- d. All other interfund transfers, such as legally authorized transfers from a fund receiving revenue to the fund through which the resources are to be expended, are transfers. Transfers are classified as other financing sources or uses (or transfers for proprietary funds) in the Statement of Revenues, Expenditures (or expenses) and Changes in Fund Balances (or net position). For reporting at the government-wide financial statements level, the City eliminates direct interfund charges for services and the balances created within the same fund categories (i.e. governmental vs. business-type). This process ensures neither business-type nor governmental funds report direct internal revenue/expenditures. Interfund activity and balances resulting from transactions with the fiduciary funds are not eliminated. Instead, the fiduciary interfund activity and balances are treated as transactions with an external party. Interfund activity with discretely presented component units are handled in the same manner as fiduciary interfund activity balances. However, the discretely presented balances are reported on a separate line of the Statement of Net Position. The Internal Service Fund reports any activity that provides goods or services to other funds, departments, or agencies of the primary government and its component units, or to other governments, on a cost reimbursement basis.

2. Compensated Absences

Full-time civilian employees of the City are eligible for 10 days of vacation leave per year. After four years, employees receive 15 days. The amount of vacation time gradually increases after that, reaching a maximum of 25 days per year after 18 years of service. Employees hired before January 1, 2000 may accumulate up to 700 hours of vacation; those hired on or after that date may accumulate up to 340 hours. Upon termination or retirement, accrued vacation is paid out up to the applicable cap, based on the employee's average rate of pay during their highest 60 days of employment. Part-time and temporary employees are not eligible for vacation or sick leave benefits. Firefighters accrue 15 to 22 days of vacation annually, based upon years of service. Police officers participate in a paid time off program that combines sick and vacation leave. Officers enter the program upon completion of their probationary period and then accrue 15 to 40 days annually, based upon years of service.

The majority of full-time civilian employees and firefighters are covered under the compensatory sick leave plan and receive a leave time allowance of 2.5 hours per payroll period (bi-weekly) up to a maximum of 65 hours per year. Employees who use fewer than 65 hours during the benefit year will receive a match equal to the number of hours accrued minus the number of hours used. Once an employee's balance has reached 1,040 hours, no additional match for unused hours is given. Upon termination, all unused sick leave time allowances in excess of 1,040 hours are payable to the employee at the employee's rate of pay at the time of termination. An employee who uses less than 16 hours of sick leave in any benefit year receives up to three days of personal leave in the next year. Personal leave may be used in place of vacation leave but will not accumulate and will not be paid out at termination. The balance of full-time civilian employees and firefighters are covered by a sick plan that was closed to employees in 1985. That plan accumulates a cash value for every sick day not used, which is payable upon resignation or retirement.

The City also has adopted policies of compensatory time to comply with the Fair Labor Standards Act as amended in 1985. These policies provide limits to the accumulation of compensatory time and provide that time not used will be paid in cash. Only classified employees and civilian employees in certain pay grades routinely earn compensatory time.

The City recognizes a liability (on a government-wide basis) for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled (for example paid in cash to the employee or payment to an employee benefit account) during or upon separation from employment. A liability for the estimated value of leave benefits that will be paid upon separation of service or used by employees as time off is included in the liability for compensated absences. The liability for compensated absences includes salary-related benefits, where applicable. On a fund financial statement basis for the governmental funds, only matured liabilities and liabilities expected to be liquidated with current assets are accrued. Sick leave benefits are accrued as a liability as employees earn the benefits, but only to the extent that it is probable that the City will compensate the employees through cash payments conditioned on the employees' termination or retirement. A compensated absence is liquidated in the fund where the employee's salary was paid at termination, with all compensated absences liquidated in the general fund that are associated with employees' salaries paid from governmental funds.

I. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

J. Reclassifications

Certain accounts in the prior-year financial statements have been reclassified for comparative purposes to conform to the presentation in the current-year financial statements. This reclassification had no effect on previously reported change in net position.

K. Internal Service Funds

The Internal Service Funds' purpose is to measure the full cost of providing health benefits and long-term disability to City employees and dependents for the purpose of fully recovering that cost through fees or charges – employee payroll deductions and expenditures in departmental personnel budgets. Any profit (loss) during a period is credited (charged) back to participating programs. All assets and liabilities are reported in the governmental activities column of the Statement of Net Position.

L. New Accounting Pronouncements

In June 2022, the GASB issued Statement No. 101, "Compensated Absences". This Statement clarifies the recognition and measurement guidance for compensated absences. This Statement requires that liabilities for compensated absences be recognized for (1) leave that has not been used and (2) leave that has been used but not yet paid in cash or settled through noncash means. The requirements of this Statement are effective for financial statements for reporting periods beginning after December 15, 2023. The City has implemented GASB Statement No. 101 in this annual report without material impact.

In December 2023, the GASB issued Statement No. 102, "Certain Risk Disclosure". The objective of the Statement is to provide users of government financial statements with essential information about risks related to a government's current vulnerabilities due to (1) certain concentrations and (2) certain constraints common in the governmental environment. The requirements of this Statement are effective for fiscal years beginning after June 15, 2024, and all reporting periods thereafter. The City has implemented GASB Statement No. 102 in this annual report.

In April 2024, the GASB issued Statement No. 103, "Financial Reporting Model Improvements". This Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025, and all reporting periods thereafter. The City is evaluating the impact that adoption of this Statement will have on its financial statements.

In September 2024, the GASB issued Statement No. 104, "Disclosure of Certain Capital Assets". This Statement requires certain types of capital assets to be disclosed separately in the capital assets note disclosures required by Statement No. 34. This Statement also requires additional disclosures for capital assets held for sale. The requirements of this Statement are effective for fiscal years beginning after June 15, 2025, and all reporting periods thereafter. The City is evaluating the impact that adoption of this Statement will have on its financial statements.

NOTE 2: RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**A. Explanation of Certain Differences between the Governmental Fund Balance Sheet and the Statement of Net Position**

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period, and accordingly, are not reported as fund liabilities in the governmental fund statements. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due. All liabilities - both current and long-term - are reported in the government-wide statement of net position. Also, during the year, the City had proceeds from its general obligation commercial paper. The amount borrowed is received in the governmental funds and increases fund balance.

Balances at June 30, 2025, were (in thousands):

Deferred outflows of resources	\$ 801,303
Deferred inflows of resources	(1,293,282)
	<hr/>
	<u>\$ (491,979)</u>
Internal Service Fund total assets	\$ 111,911
Less: Internal Service Fund capital assets	(1,022)
Internal Service Fund liabilities	(57,471)
Allocation to Proprietary Funds	(3,002)
	<hr/>
	<u>\$ 50,416</u>
Bonds and notes payable	\$ (3,816,339)
Arbitrage liability	(1,843)
Accrued interest	(52,819)
Compensated absences not reported at the fund level	(625,321)
Claims and judgments not reported at the fund level	(168,790)
Net pension liability (asset)	(1,325,795)
Lease liability	(61,759)
Subscription liability	(19,155)
Other post employment benefits obligation	(1,561,781)
	<hr/>
	<u>\$ (7,633,602)</u>

B. Explanation of Certain Differences between the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities

Proceeds from issuance of debt are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the government-wide statement of net position, however, issuing debt increases long-term liabilities and does not affect the government-wide statement of activities. Similarly, repayment of principal is an expenditure in the governmental funds but reduces the liability in the government-wide statement of net position.

Balances at June 30, 2025, were (in thousands):

Debt issued:	
Public Improvement Bonds	\$ 122,125
General Obligation Bonds	587,150
Commercial paper	170,000
Leases and subscriptions	4,038
Premiums on bonds	57,809
	<hr/>
	941,122
Repayments:	
Retirement of principal	(386,766)
	<hr/>
	(386,766)
Amortization of:	
Premium	(42,796)
Net adjustment	(42,796)
Total	\$ 511,560
	<hr/>

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the government-wide statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is not recognized under the modified accrual basis of accounting until due, rather than as it accrues. The adjustment is a combination of the following items (in thousands):

Property taxes earned but not available	\$ 80,737
Ambulance fees earned but not available	103,102
Fines and forfeits earned but not available	1,607
Other (primarily storm water drainage fees) earned but not available	29,839
Total revenue not reported at fund level	<hr/> \$ 215,285
Property taxes for prior periods	\$ (69,504)
Ambulance fees for prior periods	(95,950)
Fines and forfeits for prior periods	(2,179)
Other (primarily storm water drainage fees) earned but not available	(40,997)
Total revenue for prior period transactions	<hr/> \$ (208,630)
Accrued interest	\$ (9,722)
Municipal Employees pension	201,306
Police Officers' pension	(30,379)
Firefighters' pension	165,001
Claims and judgments	654,277
Compensated absences	(21,534)
Other post employment benefits	28,861
Arbitrage liability	(1,702)
Total differences in accrued expenses	<hr/> \$ 986,108

NOTE 3: DEPOSITS AND INVESTMENTS

A. Deposits

The City's Investment Policy (the "Investment Policy") requires all deposits to be fully collateralized with depository insurance; obligations of the United States of America or its agencies and instrumentalities (excluding those mortgage-backed securities prohibited by the Public Funds Investment Act); or in any other manner and amount provided by law for the deposits of the City. At all times, such securities should have a fair value of not less than 102% of the amount of the deposits collateralized thereby, adjusted by the amount of applicable depository insurance. There were no deposits with custodial risk at year end.

Cash, Cash Equivalents, and Investments

The City maintains a cash and investment pool (the "Pool") that is available for use by all funds. On the Statement of Net Position, "Cash and Cash Equivalents" includes each fund's portion of the Pool and each fund's non-pooled cash; "Investments" represents each fund's portion of the Pool and non-pooled investment. Participation in the Pool is limited to normal operating activities of the fund and other funds that are restricted because of statutory or contractual considerations but does not include cash on hand (petty cash and change funds), which is included in non-pooled cash. Earnings from the Pool are allocated to the funds based upon each fund's average daily balance in the Pool. A summary of balances in pooled and non-pooled accounts as of June 30, 2025, is as follows (in thousands):

	Pooled Cash and Cash Equivalents	Pooled Investments	Total Pooled Cash and Investments	Non-Pooled Cash	Non-Pooled Investments	Total Cash and Investments
Governmental Funds:

Long-term Disability	2,048	7,477	9,525	—	—	9,525
Fiduciary:						
Private-purpose Trust	—	—	—	521	8,112	8,633
Total	\$ 1,484,032	\$ 4,399,975	\$ 5,884,007	\$ 69,468	\$ 8,112	\$ 5,961,587

B. Investments and Risk Disclosures

The following describes the investment positions of the City's operating funds as of June 30, 2025. The City held \$5.7 billion in high grade, fixed income investments in three separate investment pools, each serving a specific purpose as described below. All investments are governed by state law and the Investment Policy, which dictates the following objectives, in order of priority:

1. Safety
2. Liquidity
3. Return on Investment
4. Legal Requirements

These funds are managed internally by City personnel. The investments listed in this section do not include the City's three pension funds, which are described separately in Note 3.C.

Fair Value Measurements

To the extent available, the City's investments are recorded at fair value. GASB Statement No. 72, "Fair Value Measurement and Application," defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Inputs are used in applying the various valuation techniques and take into account the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, interest and yield curve data, and other factors specific to the financial instrument. Observable inputs reflect market data obtained from independent sources. In contrast, unobservable inputs reflect the entity's assumptions about how market participants would value the financial instrument. Valuation techniques should maximize the use of observable inputs to the extent available.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis.

The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the City has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement determined using model- based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

1. General Investment Pool

The General Investment Pool consists of all working capital, construction, and debt service funds not subject to yield restriction under Internal Revenue Service ("IRS") arbitrage regulations. The funds of the City's enterprise systems, as well as the general fund, are commingled in this pool to gain operational efficiency. Approximately 97.8% of the City's total pooled investable funds are held in this portfolio.

Investments As Of June 30, 2025	Credit Quality Ratings ⁽¹⁾⁽²⁾	Fair Value (in thousands)	WAM* (years)
U.S. Treasury Securities	AAA	\$ 3,234,575	1.9
Govt. Agency Securities ⁽³⁾	AAA	628,975	0.9
Govt. Agency Securities ⁽³⁾⁽⁴⁾	Not Rated	111,714	1.2

Certificates of Deposit	AAA	15,112	0.8
Commercial Paper	A-1/P-1 Short Term	990,501	0.2
Municipal Securities	AAA Long Term	110,880	1.3
Municipal Securities	AA Long Term	151,670	0.9
Total Investments		\$ 5,724,159	

*Weighted Average Maturity ("WAM") is computed using average life of mortgage-backed securities and effective maturity of callable securities.

(1) Fitch Ratings Inc. has assigned an AAAf credit quality rating and S1 volatility rating to the City's General Investment Pool. The AAAf signifies the highest level of credit protection, and the S1 rating signifies volatility consistent with a portfolio of government securities maturing from one to three years.

(2) All credit ratings shown are either actual Fitch ratings, or if a Fitch credit rating is not available, the equivalent Fitch credit rating is shown to represent the actual Moody's or Standard & Poor's credit rating.

(3) These are securities issued by government sponsored enterprises, including the Federal Home Loan Bank, Federal Home Loan Mortgage Corporation ("Freddie Mac"), Federal National Mortgage Corporation ("Fannie Mae"), and Federal Farm Credit Bank ("Farmer Mac").

(4) These securities were issued by the Federal Home Loan Bank, Freddie Mac, Fannie Mae, and Farmer Mac. While these individual issues were not rated, senior lien debt of these entities is rated AA+.

Risk Disclosures:

Interest Rate Risk. In order to ensure the ability of the City to meet obligations and to minimize potential fair value losses arising from rising interest rate environments, the Investment Policy limits this investment portfolio's WAM to 2.5 years maximum. As of June 30, 2025, this investment portfolio's WAM was 1.381 years. Modified duration was 1.319 years. Modified duration can be used as a multiplier to determine the percent change in price of a bond portfolio for every 100 basis point (1%) change in yield. For example, a portfolio with a modified duration of 1.319 years would experience approximately a 1.319% change in market price for every 100 basis point change in yield.

Credit Risk – Investments. The U.S. Treasury Securities and Housing and Urban Development Securities are direct obligations of the United States government. Government Agency Securities and Mortgage Backed Securities were issued by government sponsored enterprises but are not direct obligations of the U.S. Government. The Money Market Mutual Funds were rated AAA. Municipal Securities were rated at least AA. The City's investment policy limits investments in the General Investment Pool to high quality securities with maximum maturity of five years for all U.S. Treasuries, Government Agency, and Municipal Securities with the exception of Government Mortgaged Backed Securities which can have maximum maturity of 15 years. Certificates of Deposit maximum maturity is two years, and Commercial Paper maximum maturity is 365 days. The General Investment Pool maximum sector exposure are as follow: U.S. Treasuries up to 100%; Government Agency Securities up to 85% with maximum exposure to any one Agency issuer is 35%; Mortgage Backed Securities up to 20%; Municipal Securities up to 20% with a rating not less than A by a nationally recognized rating agency; Money Market Mutual Funds up to 25%; Certificates of Deposit up to 15%; and Commercial Paper up to 25%.

Credit Risk – Securities Lending. Under its securities lending program, the City receives 102% of fair value for its U.S. Treasury securities at the time the repurchase agreements are signed, and agreements are limited to 90 days by policy and have been less than 35 days by practice. At June 30, 2025, there were no securities lending agreements outstanding.

Custodial Credit Risk. The custodial credit risk for investments is the risk that in the event of failure of a counterparty, the City will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are not registered in the name of the City, and are held by either the counterparty or the counterparty's trust department or agent but not in the City's name. As of June 30, 2025, none of the City's investments in the General Investment Pool were subject to custodial credit risk.

Foreign Currency Risk. Foreign currency risk is the risk that investments will change value due to changes in exchange rates between time of purchase and reporting or sale. The City's General Investment Pool investments are limited by policy to U.S. dollar denominated investments and not subject to this risk.

A summary of the General Investment Pool's investment under the requirements of the fair value hierarchy follows:

	Fair Value Measurements Using (in thousands)				
	June 30, 2025	(Level 1)	(Level 2)	(Level 3)	
Investments by fair value level					
U.S. Treasury Securities	\$ 3,234,575	\$ 3,234,575	\$ —	\$ —	—
Govt. Agency Securities	740,689	—	740,689	—	—
Govt. Mortgage Backed Securities	173,820	—	173,820	—	—
Municipal Securities	262,550	—	262,550	—	—
Commercial Paper	990,501	—	990,501	—	—
Total Investment by Fair Value Level	5,402,135	\$ 3,234,575	\$ 2,167,560	\$ —	—
Investments measured at net asset value (NAV)					
Certificates of Deposit	15,112				
MMF - TexSTAR Cash Reserves	306,912				
Total investments measured at the net asset value (NAV)	322,024				
Total investments measured at fair value and NAV	\$ 5,724,159				

TexSTAR uses the fair value method to determine the Net Asset Value ("NAV") per unit of the Cash Reserve Fund. Under the fair value method, fixed income securities are valued each day by independent or affiliated commercial pricing services or third-party broker-dealers. In instances where sufficient market activity exists, the pricing services or broker-dealers may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the broker-dealers or pricing services also utilize proprietary valuation models which may consider market transactions in comparable securities and the various relationships between securities in determining value and/or market characteristics such as benchmark yield curves, option adjusted spreads, credit spreads, estimated default rates, coupon-rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair values.

TexSTAR Cash Reserve Fund has not been classified in the fair value hierarchy table. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Position. For additional information regarding TexSTAR, visit: https://www.texstar.org/GetDocument.aspx?FileName=TexSTAR_InformationStatement.pdf.

2. Tax Exempt Pool

The Tax Exempt Pool consists of those funds which are subject to yield restrictions and arbitrage regulation under the 1986 Tax Reform Act. All these investments were held in a tax-exempt municipal bonds and cash.

Investments as of June 30, 2025	Credit Quality Ratings	Fair Value (in thousands)	WAM (Days)
Municipal Securities	AAA Long Term	\$ 8,383	271

Risk Disclosures:

Interest Rate Risk. In order to ensure the ability of the City to meet obligations and to minimize potential fair value losses arising from rising interest rate environments, the Investment Policy limits this pool's WAM to 1.5 years. As of June 30, 2025, the pool's dollar- weighted average maturity was 271 days or 0.742 years. Modified duration was 0.696 years.

Credit Risk. The Investment Policy limits investments in the Tax-Exempt Pool to high quality securities with a maturity of less than three years and a minimum rating of AA.

Custodial Credit Risk. As of June 30, 2025, none of the City's investments in this pool were subject to custodial credit risk.

Foreign Currency Risk. The City's investments in this pool are all U.S. dollar denominated and not subject to foreign currency risk.

A summary of the Tax Exempt Pool's investment under the requirements of the fair value hierarchy follows:

Investments by fair value level	Fair Value Measurements Using (in thousands)			
	June 30, 2025	(Level 1)	(Level 2)	(Level 3)
Municipal Securities	\$ 8,383	\$ —	\$ 8,383	\$ —
Total Investment by Fair Value Level	\$ 8,383	\$ —	\$ 8,383	\$ —

3. Housing Department Section 108 Pool

The Housing Department Pool was created to comply with rules of the U.S. Department of Housing and Urban Development ("HUD"), which requires that funds provided by HUD must be held in a separate custodial account for HUD's benefit. The primary goal of this fund is to meet the cash flow and investment needs of the City's Housing and Community Development HUD program.

Investments as of June 30, 2025	Credit Quality Ratings	Fair Value (in thousands)	WAM (Days)
U.S. Treasury Bills	F1+	\$ 7,980	22

Risk Disclosures:

Interest Rate Risk. In order to ensure the ability of the City to meet obligations and to minimize potential fair value losses arising from rising interest rate environments, the Investment Policy limits this investment portfolio's dollar-weighted average stated maturity to six months maximum. As of June 30, 2025, this investment portfolio's dollar-weighted average stated maturity was 22 days. Modified duration was 0.059 years.

Credit Risk. HUD requires that investment of these funds must be in direct obligations of the U.S. Government.

Custodial Credit Risk. As of June 30, 2025, none of the City's investments in this pool were subject to custodial credit risk.

Foreign Currency Risk. The City's investments in this pool are all U.S. dollar denominated and not subject to foreign currency risk.

A summary of the Housing Department Section 108 Pool's investment under the requirements of the fair value hierarchy follows:

	Fair Value Measurements Using (in thousands)			
	June 30, 2025	(Level 1)	(Level 2)	(Level 3)
Investments by fair value level				
Debt Securities				
U.S. Treasury Bills	\$ 7,980	\$ 7,980	\$ —	\$ —
Total Investment by Fair Value Level	\$ 7,980	\$ 7,980	\$ —	\$ —

4. Miscellaneous Money Market Accounts

In addition to its investment pools, the City maintains several money market accounts for various purposes. These accounts are considered cash and cash equivalents on the Statements of Cash Flows because they maintain a weighted average maturity of less than three months. These accounts are described below:

Investments as of June 30, 2025	Credit Quality Ratings	Fair Value (in thousands)	WAM (Days)
TexStar MMF - Rental Relief	AAA	\$ 5,954	45
TexStar MMF - ARPA Recovery	AAA	24,908	45
TexStar MMF - CAP-INT HAS	AAA	6,335	45
TexStar MMF - Local 341 Judgment Fund	AAA	371	45
BlackRock Institutional Temporary Liquidity Fund:	AAA	68,632	46
First American U.S. Treasury Money Market Fund:	AAA	171	47
Total Miscellaneous Money Market Funds		\$ 106,371	

Risk Disclosures:

Interest Rate Risk. These money market funds maintain an average maturity of less than 60 days and seek to maintain a stable net asset value of \$1.00. These funds are redeemable on a same day notice.

Credit Risk. These funds hold only U.S. dollar denominated securities that present minimal credit risk. They have the highest credit ratings.

Custodial Credit Risk. As of June 30, 2025, none of the City's investments in this pool were subject to custodial credit risk.

Foreign Currency Risk. The City's investments in this pool are all U.S. dollar denominated and not subject to foreign currency risk.

A summary of the investment under the fair value hierarchy follows (in thousands):

	<u>June 30, 2025</u>
Investments measured at net asset value (NAV)	
TexStar MMF - Rental Relief	\$ 5,954
TexStar MMF - ARPA Recovery	24,908
TexStar MMF - CAP-INT HAS	6,335
TexStar MMF - Local 341 Judgment Fund	371
BlackRock FedFund-Institutional	68,632
First American U.S. Treasury MMF	171
Total investment measured at net asset value (NAV)	<u><u>\$ 106,371</u></u>

5. Houston Foundation

The Houston Foundation (the “Foundation”) consists of the Hill Trust. It is reported as a private-purpose trust fund (a fiduciary fund); its investments are laid out below. The Hill Trust was established by will in the early 1900's as a general purpose charity trust. The trust is administered by an outside trustee. The City's Administration and Regulatory Affairs Department provides administrative support to the foundation and its board.

Investments as of June 30, 2025	Credit Quality Ratings	Fair Value (in thousands)	WAM (years)
Cash and Equivalents	Not Rated	\$ 80	N/A
Fixed Income	Not Rated	1,244	8.2
Equities	N/A	6,738	N/A
Tangible Assets	N/A	50	N/A
Total Assets		<u><u>\$ 8,112</u></u>	

Risk Disclosures:

Interest Rate Risk. The cash and equivalents portions of this portfolio are invested in money market mutual funds. The fixed income portfolio is invested in bond mutual funds with WAM equal to or less than 8.4 years. The WAM for the fixed income portfolio is 8.2 years, and the weighted average duration is 5.6 years.

Credit Risk. The allocations of assets among various asset classes are set by the Foundation's board. The fixed income portfolio consists of unrated mutual funds. The equities portion of this portfolio is invested in common stocks.

Custodial Credit Risk. As of June 30, 2025, all of the Foundation's holdings were subject to custodial credit risk.

Foreign Currency Risk. Foreign currency risk is the risk that investments will change value due to changes in exchange rates between times of purchase, reporting or sale. The equity investments of the Foundation are subject to this risk to the extent that the Foundation held have not fully hedged their foreign currency dealings.

A summary of the Foundation's investment under the requirements of the fair value hierarchy follows follows:

Fair Value Measurements Using (in thousands)						
	June 30, 2025	(Level 1)	(Level 2)	(Level 3)		
Investments by fair value level						
Cash and Equivalents	\$ 80	\$ 80	\$ —	\$ —

Tangible Assets	50	—	—	50		
Total Investment by Fair Value Level	\$ 8,112	\$ 3,413	\$ 4,649	\$ 50		

C. Pension Systems Investments and Risk Disclosures

1. Houston Municipal Employees Pension System (“HMEPS”)

HMEPS' Board, in accordance with the power and authority conferred under the Texas Statutes, engaged State Street Bank and Trust Company (the “Custodian”) as custodian of the assets of HMEPS, and in said capacity, the Custodian is a fiduciary of HMEPS' assets with respect to its discretionary duties including safekeeping of HMEPS' assets.

The Custodian has established and maintains a custodial account to hold, or direct its agents to hold, for the account of HMEPS all assets that the Board shall from time-to-time deposit with the Custodian. All rights, title, and interest in and to HMEPS' assets shall at all times be vested in HMEPS.

HMEPS' Board shall manage the investment program of HMEPS in compliance with all applicable Federal and State statutes and regulations concerning the investment of pension assets. HMEPS' Board has adopted an investment policy statement to set forth the factors involved in the management of investment assets for HMEPS and which is made part of every investment management agreement. Representative guidelines by type of investment are disclosed in HMEPS' separately issued financial statements.

Fair Value Disclosures:

A summary of the fair value hierarchy is as follows (in thousands):

June 30, 2025	Fair Value Measurements Using			
	Total	Level 1	Level 2	Level 3
Investments by fair value level

Risk Disclosures:

Custodial Credit Risk. Investment securities are exposed to custodial risk if the securities are uninsured, are not registered in the name of HMEPS and are held by either the counterparty or the counterparty's trust department or agent but not in HMEPS' name.

Concentration Risk. The allocation of assets among various asset classes is set by HMEPS' Board. For major asset classes (e.g., global equity, fixed income, real estate, private equity, inflation-linked, absolute return and private credit), HMEPS will further diversify by employing managers with demonstrated skills in complementary areas of expertise. The managers retained will utilize varied investment approaches, but when combined will exhibit characteristics that are similar, but not identical, to the asset class proxy utilized in the strategic asset allocation plan. The investment portfolio as of June 30, 2025, contained no concentration of investments in any one entity that represented 5% or more of the total investment portfolio, excluding passive index funds.

Interest Rate Risk. Duration is the measure of a bond prices sensitivity to a 100-basis point change in interest rates. The duration of HMEPS' debt securities is managed by the active managers.

At June 30, 2025, the following table shows HMEPS' investments by type, fair value and the effective duration rate (in thousands):

	Effective Duration	Domestic	International	Total
Collateralized mortgage obligations	1.5	\$ 2,017	\$ —	\$ 2,017
Corporate bonds	5.7	97,957	13,249	111,206
GNMA/FNMA/FHLMC	5.7	24,638	—	24,638
Municipal	10.1	354	—	354
Government issues	7.8	29,334	514	29,848
Misc. receivable (auto/credit card)	1.4	3,281	—	3,281
Other ABS	2.3	2,370	—	2,370
Bank loan	N/A	41,568	301	41,869
Commingled funds	N/A	26,606	—	26,606
Total		\$ 228,124	\$ 14,064	\$ 242,188

Credit Risk. The quality ratings of investments in fixed income securities are set forth in HMEPS' Investment Policy Statement. All issues purchased by investment grade fixed income managers must be of investment grade quality, unless expressly authorized by HMEPS' Board. Fixed income investments should emphasize high-quality and reasonable diversification.

The quality ratings of investments in fixed income securities as described by nationally recognized statistical rating organizations at June 30, 2025, are as follows (in thousands):

Quality Rating	Fair Value	Percentage
AAA	\$ 256	0.11 %
AA	1,350	0.56 %
A	7,720	3.19 %
BBB	20,860	8.61 %
BB	11,930	4.93 %
B	36,482	15.06 %
CCC	34,495	14.24 %
Commingled funds	26,606	10.99 %
Not available	102,489	42.32 %
Total	<u>\$ 242,188</u>	<u>100.00 %</u>

Securities Lending. HMEPS is authorized under its Investment Policy Statement to participate in a securities lending program through its agent and Custodian. Under this program, for an agreed-upon fee, HMEPS-owned investment are loaned to a borrowing financial institution. During the year ended June 30, 2025, the Custodian lent HMEPS securities and received cash and securities issued or guaranteed by the U.S. government as collateral. The following table show the fair value measurement of the securities lent, cash collateral received, and the reinvested cash collateral at June 30, 2025 (in thousands):

	Fair Value of Underlying Securities Lent	Cash Collateral Received	Collateral Reinvestment Value
Domestic bond and equities	\$ 42,494	\$ 43,350	\$ 43,350
Total	<u>\$ 42,494</u>	<u>\$ 43,350</u>	<u>\$ 43,350</u>

HMEPS also held securities collateral that cannot be pledged or sold absent a borrower's default totaling \$14.0 million at June 30, 2025. The securities collateral consists of U.S. Treasury Bills and US Agency Bonds. The custodian does not have the ability to pledge or sell securities delivered for collateral, absent a borrower's default. The securities collateral received are not shown on the Statement of Fiduciary Net Position.

Foreign Currency Risk. International securities investment managers are expected to maintain diversified portfolios by sector and by issuer using HMEPS' Investment Policy.

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit.

HMEPS has an indirect exposure to foreign currency fluctuation as of June 30, 2025, as follows (in thousands):

	Fair Value
Australian Dollar	\$ 3,414
Brazilian Real	4,463
Canadian Dollar	61,464
Danish Krone	1,810
Egyptian pound	250
Euro Currency	140,095

Malaysia Ringgit	186
Mexican Peso	2,200
New Taiwan Dollar	12,431
Norwegian Krone	627
Philippine Peso	1,085
Polish Zloty	128
Pound Sterling	46,408
Singapore Dollar	3,420
South African Rand	174
South Korean Won	3,471
Swedish Krona	14,470
Swiss Franc	16,862
Thailand Baht	312
Turkish Lira	157
Total	\$ 373,831

2. Houston Firefighters' Relief and Retirement Fund ("HFRRF")

Statutes of the State of Texas authorize HFRRF to invest surplus funds in the manner provided by the Government Code, Title 8, Subtitle A, Subchapter C. This subchapter provides for the investment of surplus assets as described in section 802.202 of the Government Code. HFRRF's Board seeks to produce a return on investments that is based on prudent and reasonable investment risk and the cash flow requirements of HFRRF given prevailing economic and capital market conditions. While HFRRF's Board recognizes the importance of the preservation of capital, it also adheres to the theory of capital market pricing which maintains that varying degrees of investment risk should be rewarded with incremental returns. Consequently, prudent risk-taking is justifiable.

HFRRF's Board manages the investment program of HFRRF in compliance with all applicable Federal and State statutes and regulations concerning the investment of pension assets. HFRRF has adopted an Investment Policy Statement to set forth the factors involved in the management of investment assets for HFRRF. HFRRF's Board has established an Investment Committee to act on all matters related to investments.

Fair Value Disclosures:

A summary of the fair value hierarchy is as follows (in thousands):

June 30, 2025	Fair Value Measurements Using			
	Total	Level 1	Level 2	Level 3

Mixed strategies	97,989
Secondary partnerships/funds	203,925
Special situations investments	12,246
Venture capital partnerships/funds	224,442
Total	<u>\$ 2,042,935</u>

Risk Disclosures:

Custodial Credit Risk. Portions of HFRRF's investments are classified as security investments. A security is a transferable financial instrument that evidences ownership or creditorship. Investments in companies, partnerships and real estate are investments that are evidenced by contracts rather than securities. At June 30, 2025, HFRRF's security investments (excluding cash) that were not subject to custodial credit risk were the investments not registered on an exchange.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributable to the magnitude of HFRRF's investment in a single issue. The allocation of assets among various asset classes is set by HFRRF's Board with the objective of optimizing the investment return of HFRRF within framework of acceptable risk and diversification. For major asset classes (e.g., domestic equities, international equities, fixed income, hedge funds, private equity and real estate), HFRRF further diversifies by employing investment managers who implement the strategies selected by the Investment Committee (IC). In addition, Exchange Traded Funds (ETFs) may be used.

Significant risk management asset allocation guidelines and actual allocations are disclosed in HFRRF's separately issued financial statements.

Interest Rate Risk. HFRRF invests in fixed income securities including, but not limited to, investments representing instruments with an obligated fixed rate of interest including public and private debentures, mortgages, investments in life insurance general accounts and guaranteed investment contracts, with maturities greater than one year, and options/futures. Instruments may have an investment grade or non-investment grade rating. Purchases and sales, investment selection and implementation of investment strategies are delegated to the discretion of external investment managers, subject to compliance with its investment management agreement and HFRRF's Investment Policy.

HFRRF does not have a formal investment policy that limits investment maturities as a means of managing its exposure to potential fair value losses arising from future changes in interest rates, but rather mandates such limits within the external manager's investment management agreement.

At June 30, 2025, the following table shows HFRRF's investments by type, with weighted average maturity and fair value (amounts in thousands):

	Weighted Average Maturity	Fair Value
Commingled Funds	5.5	\$ 306,875
Non-U.S. Corporate	3.2	75,087
U.S. Convertibles	2.8	1,301
U.S. Corporate	2.9	369,893
Total Fixed Income Securities		\$ 753,156

Credit Risk. HFRRF does not have a formal policy limiting investment credit risk, but rather mandates such limits within the investment management agreement of each manager as may be appropriate to strategy.

HFRRF's exposure to investment credit risk in fixed income securities (which includes government securities, corporate bonds, convertibles) as of June 30, 2025, is as follows (in thousands):

Quality Rating	Fair Value	Percentage of Holdings
BAA3	\$ 19,768	0.34%
BA1	38,065	0.66%
BA2	81,421	1.41%
BA3	103,572	1.80%
B1	69,129	1.20%
B2	57,004	0.99%
B3	359,247	6.24%
CAA1	7,869	0.14%
CAA2	9,381	0.16%
Not rated	7,700	0.13%
Total credit risk debt securities*	\$ 753,156	13.07%

*Obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and therefore, have not been included in this disclosure.

Foreign Currency Risk. HFRRF's policy allows external investment managers to decide what action to take regarding their respective portfolio's foreign currency exposures subject to compliance with its respective investment management agreement of each manager as may be appropriate to strategy.

HFRRF's exposure to foreign currency fluctuation as of June 30, 2025, is as follows (in thousands):

	Fair Value	Percentage of Holdings
Euro Currency Unit	\$ 455,421	8.04 %
Total securities subject to foreign currency risk	\$ 455,421	8.04 %

3. Houston Police Officers' Pension System ("HPOPS")

Statutes of the State of Texas authorize HPOPS to invest surplus funds in a manner provided by the Government Code, Title 8, Subtitle A, Subchapter C. These statutes stipulate that the governing body of HPOPS is responsible for the management and administration of the funds of HPOPS and shall determine the procedure it finds most efficient and beneficial for the management of the reserve fund of HPOPS. The governing body may directly manage the investments of HPOPS or may choose and contract for professional investment management services.

Fair Value Disclosures:

Total	<u><u>\$ 3,451,687</u></u>

Risk Disclosures:

Custodial Credit Risk for Deposits and Investments. As of June 30, 2025, HPOPS had a balance of \$552 thousand on deposit at a financial institution. The Federal Deposit Insurance Corporation (“FDIC”) covered cash on deposit up to \$250 thousand at this financial institution. Therefore, as of June 30, 2025, \$302 thousand of the \$552 thousand of HPOPS’ bank balance was exposed to custodial credit risk. At June 30, 2025, HPOPS did not have any other investments with other financial institutions subject to custodial credit risk.

Credit Risk. As of June 30, 2025, HPOPS’ fixed income assets that are not U.S. government guaranteed represented 100.0% of HPOPS’ fixed income plus short term investments portfolio. The tables below and on the following page summarize the HPOPS’ fixed income portfolio and short term investment exposure levels and credit qualities as of June 30, 2025 (in thousands).

Average Credit Quality and Exposure Levels of Non-U.S. Government Guaranteed Securities

Total	\$ 535,892	\$ 7,351	\$ 555,282	\$ 986,874

HPOPS' investment policy allows investment managers full discretion in adopting investment strategies to deal with these risks. Specific guidelines governing risks and concentrations and portfolio quality are established in contracts with each manager and are monitored by HPOPS' staff.

Concentration of Credit Risk. HPOPS' investment policy does not provide for specific limits on investment in any one single security, as this is governed by contracts with individual managers. As of June 30, 2025, HPOPS did not have any single investment in any one organization which represented greater than 5% of plan net position.

Interest Rate Risk. HPOPS' investment policy delegates the management of interest rate risk to the individual investment managers in accordance with each manager's designated strategy. Investment managers have full discretion in adopting investment strategies to deal with these risks, and all of HPOPS' fixed income portfolios are managed in accordance with guidelines that are specific as to the degree of interest rate risk taken. The reporting of modified duration as of June 30, 2025, found in the tables below quantify the interest rate risk of HPOPS' fixed income and short-term investments.

Modified Duration by Security Type

Security Type	Fair Value	Percent of Total	Weighted Average Modified Duration (years)
Corporate Bonds	\$ 535,892	25.7 %	3.1
Corporate Convertible Bonds	7,351	0.4	2.8

Total	\$ 986,874		0.1

Securities Lending Program. HPOPS' Board of Trustees' policies permit HPOPS to lend securities (domestic and international equities and fixed income) to securities firms on a temporary basis through its custodian bank. HPOPS receives fees for all loans and retains the right to all interest and dividend payments while the securities are on loan. Cash, letters of credit or various government securities having fair values equal to or exceeding 102% and 105% of the value of the loaned securities for domestic and international securities, respectively, collateralize all security loan agreements. Whenever the fair value of the securities on loan changes, the borrower must adjust the collateral accordingly. HPOPS' bank pools all collateral received from securities lending transactions and invests any cash collateral. HPOPS holds an undivided share of the collateral provided by the borrowers of the securities. At June 30, 2025, the weighted-average maturity of the collateral pool was 15 days. The relationship between the maturities of the collateral pool and HPOPS' loans has not been determined. Cash collateral invested in the custodian bank collateral pool at June 30, 2025, was \$98.8 million. HPOPS also had non-cash collateral at June 30, 2025, of \$35.0 million consisting of U.S. Treasury securities and letters of credit. HPOPS cannot sell or pledge the collateral unless the borrower fails to return the securities borrowed.

The fair value of securities on loan at June 30, 2025, was \$131.1 million. At June 30, 2025, HPOPS had no credit risk exposure to borrowers because the amounts HPOPS owes the borrowers, \$133.8 million, exceeds the amounts the borrowers owe HPOPS, \$131.1 million.

Foreign Currency Risk. The books and records of HPOPS are maintained in U.S. dollars. Foreign currencies and non-U.S. dollar denominated investments are translated into U.S. dollars at the bid prices of such currencies against U.S. dollars at each balance sheet date. Realized and unrealized gains and losses on investments which result from changes in foreign currency exchange rates have been included in the net appreciation in fair value of investments. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date of investment securities transactions, foreign currency transactions and the difference between the amounts of interest and dividends recorded on the books of HPOPS and the amount actually received. International and global managers have the permission to use currency forward and futures contracts to hedge currency against the U.S. dollar.

Currency forwards and futures used for the purpose of hedging currency shall be subject to the following guidelines: 1) net forward and futures sales of any currency may not exceed total fair value of the assets denominated in that currency (this limitation does not apply to global fixed income managers and currency overlay managers if provided for in their contracts), 2) foreign currency exchange contracts with a maturity exceeding 12 months are not permitted, and 3) currency options may be entered into in lieu of or in conjunction with forwards sales of currencies with the same limitations as currency forwards and futures. Cross hedging, the selling of one foreign currency for another foreign currency, which may or may not be the base currency of the portfolio, is permitted.

Derivatives. HPOPS' investment managers may invest in derivatives if permitted by the guidelines established by HPOPS' Board of Trustees. HPOPS' staff monitors guidelines and compliance. From time to time HPOPS' investment managers will invest in equity, fixed income and short term futures contracts along with foreign currency forward contracts. No derivatives are purchased with borrowed funds. These investments derivatives are primarily classified in Level 1 of the fair value hierarchy as futures contracts are price base on market quotes.

The fair value balance of posted margin and collateral and notional amounts of derivative instruments outstanding at June 30, 2025, classified by type, and the changes in fair value of such derivative instruments for the year then ended is shown in the table below (in thousands).

	Fair Value				
	Changes in Fair Value	Collateral Held at Custodian Bank			Notional Value
		Posted Margin		Fair Value	
Equity Futures	\$ 50,094	\$ 79,988	\$ 708,049	\$ 831,999	\$ 1,501,213
Currency Futures	(31,317)	(1,569)	22,427	86,078	(207,195)
Currency Forwards	205	—	—	(65,443)	(65,443)

Futures are used to obtain market exposure and to take advantage of mis-pricing opportunities. When a position is taken in a futures contract, a margin is posted and the contract is subject to daily mark-to-market adjustments. For options, no margin is posted. Instead, options are purchased at a premium, which is either forfeited or recouped, depending on the gain or loss on the contract. Foreign currency contracts are used to hedge against the currency risk in the System's investments in foreign equity and fixed income securities. To liquidate the contract prior to expiration an offsetting position in the same contract must be taken.

These derivative instruments are subject to the following risks:

- *Custodial Credit Risk* – Consistent with HPOPS' investment policy, HPOPS' derivative instruments were held by the counterparty that was acting as HPOPS' agent.
- *Credit Risk* – HPOPS' investment policy allows investment managers full discretion in adopting investment strategies to deal with this risk. HPOPS' investment managers seek to control this risk through counterparty credit evaluations and approvals, counterparty credit limits, and exposure monitoring procedures.
- *Interest Rate Risk* – Interest rate risk is the risk that changes in interest rates will adversely affect the fair values of the HPOPS' derivative instruments.
- *Foreign Currency Risk* – HPOPS' exposure to foreign currency risk derives from its positions in foreign currency denominated international equity and fixed income investments as outlined in the following schedule. HPOPS has a currency hedging program in place that hedges fifty percent of the exposure to the Euro, Pound, and Yen exposure in these investment programs. This hedging program is disclosed elsewhere in this footnote.

HPOPS' derivative instruments exposure to foreign currency risk in U.S. dollars as of June 30, 2025, is shown in the table below (in thousands).

Notes Receivable

The City entered into various loan agreements with various third parties related to Hurricane Harvey projects and its affordable housing and community development programs. Of the \$99.6 million recorded in notes receivable, approximately \$93.5 million is not expected to be collected within one year. Included in the \$99.6 million is a loans receivable totaling \$29.5 million for loans to Houston First Corporation, a component unit of the City, associated with Hurricane Harvey project costs. These loans have maturity date from 2027 to 2030, with interest rates ranging from 1.99% to 3.87%. The remaining \$70.1 million note and loans receivables are related to Grants Fund and Special Revenue Funds totaling \$158.6 million, net of allowance for doubtful accounts of \$88.5 million. Those loans have maturity date from 2025 to 2062, with interest rates ranging from 0% to 7%. The \$70.1 million of notes and loans have corresponding deferred inflows of resources balance recorded within the governmental funds.

In addition, the City entered into loan agreements with various third parties and organizations for the purpose of financing housing and redevelopment projects. These projects include a mix of affordable housing and market rate units. Principal and interest of these loans may be forgiven by the City upon meeting certain requirements, such as affordability period of the housing project. Payments on these loans may be required to be made from the project's surplus cash flows. Due to the uncertainty of payment, the City is not recognizing a receivable in the financial statements and will record all payments as revenue at the time of receipt. The total amount of these notes outstanding is \$618.0 million as of June 30, 2025.

Airport System Fund - Concentration of Financial Resource Provider

The Airport System accounts for the City's airport operations and reports \$2,370.4 million of revenue bonds outstanding on June 30, 2025. The bond indentures state that the revenue generated by airport operations is pledged as the sole source of repayment for the bonds. A loss of revenue from major customers could adversely affect the Airport System.

For the year ended June 30, 2025, the Airport System earned approximately 36.6% of its operating revenues from two major customers, United Airlines and Southwest Airlines. No other companies or customers individually represent more than 5% of total operating revenues of the Airport System. The two major companies and their respective percentage of outstanding receivable (billed receivable) and revenue as of and for the year ended June 30, 2025, are as follows:

	Percentage of Accounts Receivable
United	0.9%
Southwest	0.3%
	Percentage of Operating Revenue
United	27.8%
Southwest	8.8%

See Note 7 to the financial statements for conduit debt obligations.

The remainder of this page is intentionally left blank

NOTE 5: PROPERTY TAX

The City's annual ad valorem property tax is required to be levied by October 1, or as soon thereafter as practicable, on the assessed value listed as of the prior January 1 for all real and certain personal property. Taxes are due on January 31 of the year following the year of the levy. A tax lien attaches to all property on January 1 of each year to secure the payment of all taxes, penalties and interest that is ultimately imposed on the property. The tax rate established by the City Council for the 2024 tax year was \$0.51919 per \$100 of assessed value with \$0.378605 for operations and \$0.140585 for debt service.

In 2004, Houston voters approved Proposition 1, which limits increases in ad valorem tax revenues collected by the City. In each fiscal year, Proposition 1 limits increases in ad valorem tax revenues collected by the City by limiting such annual ad valorem collections to the lesser of (i) the actual ad valorem tax revenues collected in the preceding fiscal year, plus 4.5%, or (ii) actual ad valorem revenues received in fiscal year 2005, adjusted for the cumulative combined rates of inflation and the City's population growth (as determined by the U.S. Census). The Texas Property Tax Code (the "Code"), with certain exceptions, exempts intangible personal property, household goods, and family-owned automobiles from taxation. In addition, the Code provides for countywide appraisal districts.

Tax Increment Reinvestment Zones

The City has 27 active Tax Increment Reinvestment Zones ("TIRZs") as of June 30, 2025.

TIRZ #	TIRZ Name	TIRZ #	TIRZ Name	TIRZ #	TIRZ Name
1	St. George Place	11	Greenspoint	20	Southwest
2	Midtown	12	City Park	21	Near Northside
3	Main St/Market Square	13	Old Sixth Ward	22	Leland Woods
5	Memorial Heights	14	Fourth Ward	23	Harrisburg
6	**Eastside	15	East Downtown	24	**Greater Houston
7	OST/Almeda	16	Uptown	25	Hiram Clarke/Fort Bend County
8	Gulfgate	17	Memorial City	26	Sunnyside
9	South Post Oak	18	Fifth Ward	27	Montrose
10	Lake Houston	19	Upper Kirby	28	**Medical Center Area

The TIRZs were created pursuant to Chapter 311 of the Code to aid in financing the development or redevelopment of unproductive, underdeveloped or blighted areas.

The City, through its agreement with each individual TIRZ, contributes tax increment dollars to finance capital projects such as streets, drainage, water, parks and public facilities, streetscape (sidewalks, lighting, landscaping), parking facilities, and affordable housing to enhance economic growth. The amount of tax increment contributed by the City is based on the incremental taxable value generated by each individual TIRZ above its taxable value at creation.

Each TIRZ is required by Chapter 311 of the Code to create a project plan and reinvestment zone financing plan that reflects the TIRZ's goals and priorities for its term. The plan is subsequently approved by City Council for implementation. Annually, the City Council reviews and approves each TIRZ budget for implementation of capital projects.

During the year ended June 30, 2025, the City contributed \$201 million in tax increments to the City-led TIRZs. A summary of taxing units that participate in various TIRZs through interlocal agreements are listed below. These taxing units contributed a combined \$29 million to the TIRZs.

City of Houston TIRZ Interlocal Participation Agreements	
Taxing Jurisdiction	TIRZ Number
Harris County ^{1,2}	1, 3, 16, 18, 20, 23, 24
Harris County Flood Control District ¹	3
Harris County Hospital District ^{1,3}	3
Harris County Port of Houston Authority ¹	3
Houston Community College District	2
Houston Independent School District ⁴	1, 2, 3, 4, 7, 8, 12, 13, 14, 15, 16, 18
Humble Independent School District	10
Aldine and Spring Independent School Districts, Lone Star College District	11

¹ Included in the Harris County Interlocal Agreement

² Harris County no longer participates in TIRZ No. 2, 5, 7, 8, 9, 10, 11 and 13

³ Harris County Hospital District and Harris County Flood Control no longer participates in TIRZ No. 2 and 3

⁴ Houston Independent School District no longer participates in TIRZ No. 5, 9, and 19

** These TIRZs are not a legally separated entity from the City or a component unit of the City. Activities of this TIRZ are accounted for in the City's special revenue funds.

Tax Abatements

The City also enters into property tax abatement agreements with local businesses under the state Property Redevelopment and Tax Abatement Act, Chapter 312. These have investment and employment requirements that must be met to have a portion of their property taxes abated. The total amount abated was \$1,621,101, to eight businesses.

Company Name	Abatement Project Information	Investment Requirement	City's Abatement Commitments	Amount Eligible for Abatement (HCAD Value)	Tax abatement for Tax Year 2024 (COH tax rate - 0.51919%)
Brittmoore Founders District	Development of a multi-use facility including office space, co-working space, retail, regional community events center, 250+ units of multi-family apartments, athletic facilities and park amenities; the use of the facility is to create a 32 acre mixed-use entrepreneurial hub for startups, technology firms, and other high-growth businesses.	\$ 150,000,000	City agrees to grant the Owner a ninety percent (90%) of the ad valorem taxes levied on the Improvements in the Zone.	\$ 22,842,062	\$ 118,594
UPS	The facility will be approximately 400,000 to 500,000 square feet comprising package handling and distribution center and ancillary office facilities.	\$ 59,000,000	City agrees to grant the Owner a seventy-five percent (75%) of the ad valorem taxes levied on the Improvements in the Zone.	\$ 84,033,405	\$ 436,293
Halliburton	The Owner represents that it will complete construction of the Facility on the Real Property no later than December 31, 2015. The Owner represents and warrants that it will invest a minimum of \$145,000,000 in designing, construction, and installing the Improvements by the Effective Date of Abatement.	\$ 145,000,000	City agrees to grant Halliburton a fifty percent (50%) abatement of the ad valorem taxes on the Improvements in the Zone during the abatement period. Maximum abatement amount is \$1,500,000.	\$ 52,953,545	\$ 274,930

(continued)

Company Name	Abatement Project Information	Investment Requirement	City's Abatement Commitments	Amount Eligible for Abatement (HCAD Value)	Tax abatement for Tax Year 2024 (COH tax rate - 0.51919%)
Kroger	The Company represents and warrants that it will invest approx. \$24M related to an upgrade of the Facility and approx. \$17M related to the expansion of the Facility in the Zone by the Effective Date of Abatement.	\$ 10,097,947	City agrees to grant Kroger a Seventy five percent (75%) abatement of the ad valorem taxes on the Improvements in the Zone during the abatement period. The real property improvements subjects to tax abatement are \$17M.	\$ 47,628,011	\$ 247,280
Cullen SH Apartments	The Company represents and warrants that it will invest a minimum of \$22M in acquiring the Real Property and constructing and installing the Improvements in the Zone by the Effective Date of Abatement.	\$ 22,000,000	City agrees to grant Cullen SH Apartments 90% abatement of the improvements.	\$ 38,536,808	\$ 200,079
Converge Midstream Services (formerly Fairway Energy)	The Company represents and warrants that it will invest a minimum of \$218M in capital improvements to the Facility by the Effective Date of Abatement and has provided a pro forma of projected annual Net Operating Income.	\$ 218,000,000	City agrees to grant a 50% abatement of the ad valorem taxes on the Improvements in the Zone during the Abatement Period.	\$ 44,349,505	\$ 230,258
Skanska	The Company represents and warrants that it will invest a minimum of \$117M in LEED capital improvements to the Facility by the Effective Date of Abatement.	\$ 117,000,000	City agrees to grant the Company a 15% abatement of the ad valorem taxes on the increase of the value of the improvements in the Zone during the Abatement Period.	\$ 21,893,177	\$ 113,667
MetroNational (BLEX Exchange GP VII, LLC)	The Company represents and warrants that it will invest a minimum of \$3M in LEED capital improvements to the Facility by the Effective Date of Abatement, and has provided a pro forma of projected annual Net Operating Income.	\$ 117,000,000	City agrees to grant a 5% abatement of the ad valorem taxes on the Improvements in the Zone during the Abatement Period	\$ —	\$ —

NOTE 7: CONDUIT DEBT OBLIGATIONS

The City has authorized various issues of Special Facilities Bonds to enable United Airlines, Inc. ("United") (formerly known as Continental Airlines, Inc.), a publicly traded company, to construct facilities at the George Bush Intercontinental Airport ("Special Facilities") that were deemed to be in the public interest. These bonds are limited special obligations of the City, payable solely from and secured by a pledge of revenues generated from lease agreements with United. Collected pledged revenues are remitted directly to a trustee by United. In addition, no commitments beyond the payments from United and maintenance of the tax-exempt status of the conduit debt obligation were extended by the City. At June 30, 2025, the bonds have an aggregate outstanding principal amount payable of approximately \$2.1 billion.

Under the terms of the related lease agreements, United operates, maintains, and insures the terminals, and manages and retains revenues from all concessions operated in the Terminal B and E Special Facilities. The City operates, maintains, insures, and manages and retains revenues from all concessions operated in all other terminal facilities.

The City holds legal title to the completed facilities, as they are constructed on airport property, but the constructed facilities are operated and controlled by United through long-term leases, and the City and the Airport System will enjoy no direct financial benefit from these facilities for the term of the lease agreements. Accordingly, the City accounts for the Special Facilities Bonds shown in the following table as conduit debt, and neither the debt nor the related assets have been recorded in the accompanying financial statements.

	(in thousands) June 30, 2025
Airport System Special Facilities Revenue Bonds (Continental Airlines, Inc. Terminal Improvement Projects), Series 2011 (AMT), \$113,305,000 original principal, matures in 2038	\$ 113,305
Airport System Special Facilities Revenue Refunding Bonds (United Airlines, Inc. Terminal E Project), Series 2014 (AMT), \$308,660,000 original principal, matures in 2029	169,965
Airport System Special Facilities Revenue Bonds (United Airlines, Inc. Terminal Improvement Projects), Series 2015B-1 (AMT), \$176,650,000 principal, matures in 2035	176,650
Airport System Special Facilities Revenue Refunding Bonds (United Airlines, Inc. Technical Operations Center), Series 2018 (AMT), 90,650,000 original principal, matures in 2028	90,650
Airport System Special Facilities Revenue Refunding Bonds (United Airlines, Inc. Airport Improvement Projects), Series 2018C (AMT), \$46,425,000 original principal, matures in 2028	46,425
Airport System Special Facilities Revenue Refunding Bonds (United Airlines, Inc. Terminal Improvement Projects), Series 2020A (AMT), \$34,165,000 original principal, matures in 2027	34,165
Airport System Special Facilities Revenue Refunding Bonds (United Airlines, Inc. Terminal Improvement Projects), Series 2020B-2 (AMT), \$47,470,000 original principal, matures in 2027	47,470
Airport System Special Facilities Revenue Refunding Bonds (United Airlines, Inc. Airport Improvement Projects), Series 2020C (AMT), \$66,890,000 principal, matures in 2027	66,890
Airport System Special Facilities Revenue Refunding Bonds (United Airlines, Inc. Airport Improvement Projects), Series 2021A (AMT), \$70,175,000 original principal, matures in 2041	70,175
Airport System Special Facilities Revenue Refunding Bonds (United Airlines, Inc. Airport Improvement Projects), Series 2021B-1 (AMT), \$219,320,000 original principal, matures in 2041	219,320
Airport System Special Facilities Revenue Bonds (United Airlines, Inc. Airport Improvement Projects), Series 2024B (AMT), \$1,100,000 original principal, matures in 2039	1,100,000
Total Conduit Debt Outstanding	\$ 2,135,015

On December 2, 2024, the City issued \$1.1 billion in Airport System Special Facilities Revenue Bonds (United Airlines, Inc. Terminal Improvement Projects), Series 2024B (the “United 2024B Series Bonds”), on behalf of United, for the purpose of 1) financing the costs of design, construction, improvement and installation of certain facilities in terminal B at IAH and 2) paying related costs of issuance. Interest rates range from 5.250% to 5.500%, with yields range from 4.480% to 4.660%. The final maturity date for the United 2024B Series Bonds is July 15, 2039.

On August 25, 2021, the City issued \$70.2 million and \$219.3 million in Airport System Special Facilities Revenue Bonds (United Airlines, Inc. Terminal E Project and Terminal Improvement Projects), Series 2021A and 2021B-1, respectively, on behalf of United, for the purpose of 1) financing the costs of development, construction, and acquisition of a new multi-terminal baggage handling system and other infrastructure improvements at George Bush Intercontinental Airport and 2) paying related costs of issuance. Interest rate for both series is 4% per annum. Maturity dates are July 1, 2041, and July 15, 2041, for Series 2021A and 2021B-1, respectively.

On June 29, 2020, the City issued \$34.2 million in Airport System Special Facilities Revenue Bonds (United Airlines, Inc. Airport Improvement Projects), Series 2020A (AMT) on behalf of United, to refund certain outstanding Special Facilities Revenue Bonds, and to pay the Series 2020A costs of issuance. The bonds were issued as a 5% Term Bond due July 1, 2027, with a yield of 4.375%.

On June 29, 2020, the City issued \$47.5 million in Airport System Special Facilities Revenue Bonds (United Airlines, Inc. Airport Improvement Projects), Series 2020B-2 (AMT) on behalf of United, to refund certain outstanding Special Facilities Revenue Bonds, and to pay the Series 2020B-2 costs of issuance. The bonds were issued as a 5% Term Bond due July 15, 2027, with a yield of 4.375%.

On June 29, 2020, the City issued \$66.9 million in Airport System Special Facilities Revenue Bonds (United Airlines, Inc. Airport Improvement Projects), Series 2020C (AMT) on behalf of United, to refund certain outstanding Special Facilities Revenue Bonds, and to pay the Series 2020C costs of issuance. The bonds were issued as a 5% Term Bond due July 15, 2027, with a yield of 4.625%.

On February 20, 2018, the City issued \$90.7 million in Airport System Special Facilities Revenue Bonds (United Airlines, Inc. Technical Operations Center Project), Series 2018 (AMT) on behalf of United, to finance the construction of a technical operations center and related facilities at IAH. The bonds were issued as a 5% Term Bond due July 15, 2028, with a yield of 3.60%.

On February 20, 2018, the City issued \$46.4 million in Airport System Special Facilities Revenue Bonds (United Airlines, Inc. Airport Improvement Projects), Series 2018C (AMT) on behalf of United, to finance the improvement, renovation, expansion and repair of certain special facilities at IAH, including improvements to an existing aircraft maintenance hangar facility, construction of an aircraft shops facility, and renovation of a maintenance and parts storage facility. The bonds were issued as a 5% Term Bond due July 15, 2028, with a yield of 3.60%.

On March 16, 2015, the City issued \$176.7 million in Airport System Special Facilities Revenue Bonds (United Airlines, Inc. Terminal Improvement Projects), Series 2015B-1 (AMT) on behalf of United, to finance the construction of a new North Concourse building at Terminal B with jet bridge loading, and to make improvements to related facilities. The bonds were issued with a coupon rate of 5.00%, and a yield of 4.75%, to mature in varying amounts from 2026 to 2035.

On May 8, 2014, the City issued \$308.7 million in Airport System Special Facilities Revenue Refunding Bonds (United Airlines, Inc. Terminal E Project) Series 2014 on behalf of United, at coupon rates ranging from 4.50% to 5.00%. The bonds mature in varying amounts from 2020 to 2029. Proceeds of the bonds were used to refund a portion of the City’s outstanding Airport System Special Facilities Revenue Bonds (Continental Airlines, Inc. Terminal E project) Series 2001 and to pay costs of issuance.

On November 17, 2011, the City issued \$113.3 million in Airport System Special Facilities Revenue Bonds (Continental Airlines, Inc. Terminal Improvement Projects), Series 2011 (AMT), at coupon rates ranging from 6.50% to 6.625%, to finance the replacement of two flight stations at Terminal B, with a new South Concourse building to serve United Airlines’ regional jet operations.

NOTE 8: LONG-TERM LIABILITIES

A. General Long-Term Liabilities

Changes in general long-term liabilities for the year ended June 30, 2025, are summarized as follows (in thousands):

	Balance July 01, 2024	Additions	Retirements/ Transfers	Balance June 30, 2025	Amounts Due within One Year
Governmental Activities					
Bonds and notes payable:					
General tax obligation debt	\$ 2,972,104	\$ 879,275	\$ (349,244)	\$ 3,502,135	\$ 238,568
Direct borrowing loans	40,367	—	(8,848)	31,519	6,945
HUD Section 108 loans	27,824	—	—	27,824	290
Plus premium (discount) on bonds	245,753	57,810	(48,702)	254,861	—

C. Terms of Long-Term Debt

1. Public Improvement Bonds

The City has issued Public Improvement Bonds on numerous occasions. The bonds are payable from ad valorem tax revenues. The proceeds are used for street and bridge improvements, traffic signals, municipal buildings, parks, and other capital improvements. Interest is payable semi-annually (March and September); principal is payable in various amounts annually through March 1, 2051. At June 30, 2025, the public improvement bonds have an outstanding balance totaling \$1,470.5 million.

2. Pension Obligation Bonds

The City has issued several series of General Obligation Taxable Pension Bonds. The proceeds were used to reduce the unfunded actuarial accrued liability of the Houston Municipal Employees Pension System and the Houston Police Officers Pension System. Interest is payable semi-annually, and principal is payable in varying amounts through 2047. Although these obligations have an ad valorem tax pledge, a portion of the liabilities is recorded in the enterprise funds because the liabilities are directly related and expected to be paid from those funds based on percentages of payroll. At June 30, 2025, the pension obligation bonds have an outstanding balance totaling \$1,367.4 million.

3. General Obligation Bonds

The City has issued General Obligation Bonds in July 2024. The proceeds were issued to refund, discharge and extinguish a certain special obligation of the City. Interest is payable semi-annually, and principal is payable in varying amounts through 2051. Although these bonds have an ad valorem tax pledge, a portion of the liabilities is recorded in the Airport System because the liabilities are directly related to and expected to be paid from the Airport System based on percentages of payroll. At June 30, 2025, the general obligation bonds have an outstanding balance totaling \$600.3 million, of which \$575.8 million and \$24.5 million is reported in the governmental activities and business-type activities, respectively, in the accompanying financial statements.

4. General Obligation Commercial Paper

The City currently has multiple General Obligation Commercial Paper Programs ("GO Commercial Paper") with total authorization of \$1,025 million. The programs' current issuance capacity is \$1,025 million, of which \$625 million is supported by credit facilities: GO Commercial Paper, \$200 million Series E Program, \$200 million Series G Program, \$100 million Series H-2 Program, \$125 million Series J. The GO Commercial Paper may be issued for a period not to exceed 270 days and will bear interest based upon the specified term of the GO Commercial Paper, but not to exceed 10%. Principal on the GO Commercial Paper is payable from ad valorem tax revenue, the issuance of new commercial paper, bond proceeds and other funds provided under credit lines. Interest is payable from ad valorem tax revenue collected by the City. Proceeds from the GO Commercial Paper are used to finance various capital projects and public improvements for authorized City purposes. Upon maturity, the GO Commercial Paper will be remarketed by the commercial paper dealers or extinguished with long-term debt. At June 30, 2025, \$170.0 million (par amt) of GO Commercial Paper was outstanding. The City's outstanding notes from credit agreements contain a two – three-year repayment provision in the event of default or material adverse change.

The City has two unused programs, \$200 million Series K-1 and \$200 million Series K-2 that are Forward Bond Purchase Agreements.

During fiscal year 2025, the average interest rate for the outstanding GO Commercial Paper was 3.315%. This does not include Series K-1, K-2 and G-1 which was established mainly for appropriation purposes; therefore, there were no draws during fiscal year 2025. The average fees related to Series K-1 was 0.13%, K-2 is 0.13% and G-1 is 0.22% without any notes outstanding during fiscal year 2024. The Credit Agreements expire on the following dates: Series E-1 on July 10, 2026, Series E-2 on April 22, 2027 Series G-1 on April 9, 2027, Series G-2 on November 19, 2025, Series H-2 on September 27, 2028, Series J on May 21, 2026, Series K-1 on December 31, 2030, and Series K-2 on December 31, 2030.

5. Certificates of Obligation

Since 1988, the City has issued Certificates of Obligation each year to provide for the purchase of equipment utilized in general City operations including, without limitation, police vehicles, maintenance vehicles and equipment, computer equipment, and costs associated with demolishing dangerous structures. Each year the City is obligated to levy, assess, and collect ad valorem taxes sufficient to pay principal and interest on the certificates payable semi-annually until maturity. At June 30, 2025, there are no certificates of obligation bonds outstanding.

6. Direct Borrowing Loans

SECO Loan

During the year ended June 30, 2022, the City began to borrow and incur interest on a loan obtained from the State Energy Conservation Office (“SECO”), a segment within the State of Texas Comptroller. The SECO program affords low-rate 2% loans for borrowers approved to build or acquire energy efficient equipment or other assets.

The City entered into a reimbursement loan agreement in the amount of \$2.3 million with SECO, with a SECO-approved list of projects, which have been completed during fiscal year 2024, and the initial repayment to commenced shortly thereafter. At June 30, 2025, the outstanding loan balance was \$2.1 million.

There are no unique default provisions, payment provisions, or collateral pledged to either of these loans. In the event of default, such as failing to make timely payments in accordance with the agreements, the outstanding balances, including accrued interest, may become due immediately. As of June 30, 2025, the City is in compliance with terms and conditions of these loan agreements.

Motorola Solutions, Inc. Loan

During the year ended June 30, 2023, the City entered into an installment payment agreement (the “Motorola Note”) with Motorola Solutions, Inc. (“Motorola”) to finance the purchase for certain communication equipment totaling approximately \$48.1 million. The payment term of the Motorola Note includes a \$10.0 million down payment due January 1, 2023 and five \$8.6 million annual payments starting on August 1, 2024. After the first install payment, an interest rate of 6.478% per annum is applied to the outstanding balance. At June 30, 2025, the outstanding loan balance was \$29.5 million.

There are no unique default provisions or collateral pledged. In the event of default, such as failing to make timely payments in accordance with the agreement, the outstanding balance, including accrued interest, may become due immediately, and the City would be required to transfer the title to the equipment and deliver the equipment to Motorola. In addition, the City has the option to early terminate the Motorola Note with a 30-day notice. Upon exercising the early termination option, the remaining balance on the Motorola Note becomes due immediately.

7. HUD Section 108 Loan

The City has borrowed money from the United States Department of Housing and Urban Development (“HUD”) and loaned it to the Houston Business Development Initiative (“HBDI”) and three hotels in the downtown business district. HBDI in turn makes small business loans to under-served areas of the community. The City has pledged only certain grant revenues and its receipts from the loans to repay HUD.

8. Airport System Revenue Bonds

At June 30, 2025, the Airport System has no senior lien revenue bonds outstanding. Any bonds issued on the senior lien would require net revenues, as defined by the Master Bond Ordinance for the Airport System, totaling 125% of the debt service requirements for such fiscal year. The Airport System has issued subordinate lien revenue bonds which are paid solely from a lien on the Airport System’s net revenues, which must total 110% of the debt service requirements for subordinate lien revenue bonds for such fiscal year. At June 30, 2025, the subordinate lien revenue bonds have an outstanding balance totaling \$2,370.4 million with a final maturity in 2053.

9. Airport System Inferior Lien Contract

On October 21, 2015, the City authorized up to \$450.0 million in Airport System Inferior Lien Revenue Bonds, in one or more series. On November 5, 2015 the City authorized execution of a forward delivery purchase agreement with the Royal Bank of Canada ("RBC"), to expire February 5, 2027, for the issuance of \$450.0 million in Inferior Lien Revenue Bonds. City Council must reauthorize this liquidity arrangement annually. For the year ended June 30, 2025, no Inferior Lien Revenue Bonds have been issued and outstanding.

10. Airport System Special Facility Bonds

The Airport System Special Facilities Taxable Revenue Bonds, (CRCF Project), Series 2001, original par value \$130.3 million, financed the design and construction of a common car customer service building, a parking structure, maintenance, storage and administrative facilities for each car rental company lessee, a common bus fleet and maintenance facility, and related infrastructure at Intercontinental. The City holds legal title to the completed CRCF, as it was constructed on airport property, but the facility is operated and maintained by IAH RACS, LLC, a limited liability company formed by various car rental companies. The bonds are payable from Customer Facility Charges ("CFC") collected by the car rental companies from their customers and remitted to a trustee for payment of debt service and other uses allowable by a trust indenture. As of June 30, 2025, the daily usage charge per customer is set at \$4.00. The trust indenture determines when and how the City is responsible for changing the rate, which under the Bond covenants must be set to provide a debt service coverage ratio of at least 125%. The bonds are limited special obligations of the City, payable solely from and secured by pledged CFC. There is no pledge of car rental company revenues or any general revenue of the City.

At June 30, 2025, special facilities revenue and refunding bonds (CRCF) outstanding totaled \$34.0 million.

11. Airport System Commercial Paper Notes

During the year ended June 30, 2013, the City authorized up to \$150 million in Airport System Commercial Paper Notes ("Airport Commercial Paper"). On November 20, 2013, the City re-authorized and amended the Series A and B Airport Commercial Paper. A new direct pay letter of credit was issued on December 18, 2013, covering \$150 million in face value of Series A and B Airport Commercial Paper, plus \$11.1 million in respect of 270 days accrued interest computed at 10%. This letter of credit expired on December 16, 2016 and was replaced by a letter of credit for the same amount issued by Sumitomo Mitsui Banking Corporation ("SMBC"), which expires on December 15, 2025. Any advances made under the letter of credit and not repaid within 90 days will be converted to term loans payable in twenty quarterly installments, subject to the greater of several options for interest rates. The maximum interest rate permitted under the ordinance is 15%.

On April 1, 2020, the agreement with SMBC was expanded to \$350 million, plus interest, and extended the expiration of the letter of credit to March 25, 2030. At June 30, 2025, there was no outstanding balance for the Airport Commercial Paper.

12. Airport System Direct Borrowing Loans

During the year ended June 30, 2020, the Airport System began to borrow and incur interest on two loans obtained from SECO, a segment within the State of Texas Comptroller. The SECO program affords low-rate 2% loans for borrowers approved to build or acquire energy efficient equipment or other assets.

The Airport System entered into two reimbursement loan agreements with SECO, each with a SECO-approved list of projects, which have been completed during fiscal year 2022, and the initial repayment to commenced shortly thereafter.

Loan No. 1 has a maximum amount of \$8.0 million is to be repaid over approximately ten years. Loan No. 2 has a maximum amount of \$7.5 million, and similar terms to Loan No. 1. The replacement projects were completed during the fiscal year ended June 30, 2022. At June 30, 2025, the Airport System has a total of \$12.3 million loan balance outstanding.

There are no unique default provisions, payment provisions, or collateral pledged to either of these loans. In the event of default, such as failing to make timely payments in accordance with the agreements, the outstanding balances, including accrued interest, may become due immediately. As of June 30, 2025, the Airport System is in compliance with terms and conditions of these loan agreements.

13. Convention and Entertainment Facilities Bonds and Flexible Rate Notes

The facilities bonds are special limited obligations of the City that are paid from a lien on the pledged receipts of the Hotel Occupancy Tax ("HOT"), and revenues collected from certain City-owned parking facilities. The pledged HOT receipts are equal to 5.65% of the cost of substantially all hotel room rentals in the City, plus related penalties and interest for delinquent payments. As long as any of the Senior Lien Bonds remain outstanding, the City is required to levy HOT at a rate not less than 7%. The City currently levies HOT at the rate of 7%. Final maturity of the bonds is September 1, 2044. At June 30, 2025, the facilities revenue bonds have an outstanding balance totaling \$304.0 million.

The City has obtained a debt service reserve insurance policy for the Senior Lien Hotel Occupancy Tax Revenue Bonds. The surety policy expires upon final maturity of the outstanding Bonds that are due through September 1, 2033.

Direct Borrowing Flexible Rate Notes

During the year ended June 30, 2025, the City entered into a Note Purchase Agreement (the "Note Purchase Agreement") with a national bank, with an aggregate commitment amount of \$200.0 million under the Note Purchase Agreement. The commitment by the bank expires on April 10, 2028. Each note issued under the Note Purchase Agreement matures not later than the earlier of 364 days following the issuance date of each note and April 10, 2028. The notes are payable from a lien on defined pledged revenues.

The Convention and Entertainment issued five notes totaling \$92.5 million under the Note Purchase Agreement during the year ended June 30, 2025, to fund expenses related to the George R. Brown Convention Center expansion project. At June 30, 2025, the aggregate principal balance of the notes was \$77.5 million, and the remaining commitment by the bank was \$122.5 million.

There are no unique default provisions and payment provisions of these notes. In the event of default, such as failing to make timely payments in accordance with the Note Purchase Agreement, the outstanding balances, including accrued interest, may become due immediately. As of June 30, 2025, the Convention and Entertainment is in compliance with loan agreement terms and conditions.

14. Water and Sewer System Junior Lien Revenue Bonds

The City's Water and Sewer System Junior Lien Revenue Bonds are all bonds outstanding under the Previous Ordinance, prior to the Master Ordinance for the Combined Utility (the "Utility Master Ordinance"). The Utility Master Ordinance defines "Previous Ordinance" as, collectively, the City's ordinances that authorized the issuance of outstanding "Previous Ordinance Bonds." "Previous Ordinance Bonds" are defined as, on any date, all of the City's Water and Sewer System Junior Lien Revenue Bonds that are outstanding under the Previous Ordinance.

On September 3, 2003, City Council authorized creation of the Combined Utility, which currently consist of the City's Water and Sewer System. On June 10, 2004, as part of the restructuring to the new Combined Utility, the City refunded a substantial portion of its outstanding junior lien bonds and reissued bonds as Combined Utility System bonds. The only Previous Ordinance Bonds that are currently outstanding are the Series 1998A Bonds. Debt service payments on remaining Water and Sewer Junior Lien Revenue Bonds ("WS Junior Lien Bonds") will be made after payment of operating expenses and prior to any "other" debt service payments on the Combined Utility System bonds. The final maturity date for the remaining WS Junior Lien Bonds is December 1, 2028. No additional WS Junior Lien Bonds may be issued. As of June 30, 2025, the current principal balance outstanding is \$25.3 million.

15. Combined Utility System First Lien Revenue Bonds

On April 21, 2024, the City council approved the Utility Master Ordinance for issuance of City of Houston, Combined Utility System Revenue obligations. The Utility Master Ordinance includes covenants and agreements relating to the operation and management of the Combined Utility. The Combined Utility's First Lien Revenue Bonds are special obligations of the City, payable from and secured by a lien on Net Revenues of the Combined Utility, after payment of all required payments, including and not limited to, those defined as maintenance and operation expenses under Previous Ordinance, and debt service on WS Junior Lien Bonds. Therefore, the lien on Net Revenues securing these bonds is subordinate to the lien securing WS Junior Lien Bonds. So long as any Bonds remain outstanding, the Utility Master Ordinance requires the Combined Utility to generate Net Revenues in each fiscal year at least equal to the greater of 120% of the combined debt service on all Previous Ordinance and First Lien Revenue Bonds outstanding, or 110% of the combined debt service on all Previous Ordinance, First Lien and Second Lien Revenue Bonds outstanding, in such fiscal year. At June 30, 2025, the Combined Utility System First Lien Revenue Bonds have an outstanding balance totaling \$5,072.4 million.

In June 2004, the Combined Utility issued First Lien Revenue Refunding Bonds, Series 2004B and 2004C (Taxable) bonds as auction rate securities, each consisting of various sub-series, i.e., Series 2004B-1 through 2004B-6 and Series 2004C-1 through 2004C-5. In 2008, as a result of the credit/liquidity crisis, the series 2004B bonds were converted to variable rate demand bonds. In 2012, the Series 2004B-1 bonds were refunded by SIFMA Index Floating Rate Bonds, consisting of \$125 million and \$100 million of First Lien Revenue Refunding Bonds, Series 2012A and 2012B, respectively. In June 2018, the Series 2012B bonds were remarketed as variable rate demand bonds ("VRDB") and continue to remain outstanding as VRDBs. In 2020, the Series 2012A were remarketed as VRDBs and continue to remain outstanding as such. The remaining Series 2004B-2, B-3, B-4, B-5, and B-6 remain outstanding as VRDBs.

With respect to the Series 2004C bonds, in May 2008, these bonds were refunded by \$249.08 million of First Lien Revenue Refunding Bonds, Series 2008A and \$205.3 million first Lien Revenue Refunding Bonds, Series 2008D Bonds (Taxable), both of which were issued as adjustable rate bonds in multiple subseries. The Series 2008D-1, D-2, and D-3 sub-series have since been refunded with fixed rate bonds. In 2010, the Series 2008A-1 and A-2 bonds were refunded by the Series 2010B bonds, which were direct purchase adjustable rate bonds issued in the Indexed Floating Rate mode, with a mandatory date of tender ("MDT") of March 22, 2013. In 2012, the Series 2010B bonds were refunded by the Series 2012C bonds, which were publicly offered Securities Industry and Financial Markets Association ("SIFMA") Index Floating Rate Bonds with a MDT of August 1, 2016. In 2016, the Series 2012C bonds were refunded by the Series 2016C bonds, which were a direct purchase by Bank of America Merrill Lynch. The 2016C bonds were issued as adjustable rate bonds with a MDT of August 1, 2019. In 2018, as a direct result of tax reform and the decrease in the corporate tax rate, the 2016C were refunded by the Series 2018C bonds, which as of June 30, 2025 are VRDBs.

Combined Utility System Direct Placement First Lien Revenue Bonds

In prior years, the City issued direct placement first lien revenue bonds facilitated by the Texas Water Development Board ("TWDB") through their Clean Water State Revolving Fund ("CWSRF") and Drinking Water State Revolving Fund ("DWSRF"). Direct placement debt with TWDB is offered at subsidized interest rates for qualified water and wastewater projects. As of June 30, 2025, the current principal balance outstanding totaled \$543.5 million.

Proceeds are used to pay for projects, a debt service reserve fund and to pay costs of issuance of the Bonds. The bonds were issued beginning in 2011 and mature in varying amounts through 2050.

The direct placement first lien revenue bonds contain no unique default provisions, payment provisions, or collateral pledged. In the event of default, such as failing to make timely payments in accordance with the agreements, the outstanding balances, including accrued interest, may become due immediately. As of June 30, 2025, the City is in compliance with terms and conditions of these loan agreements.

16. Combined Utility System SWAP Agreements

In accordance with the GASB Statement No. 72, "Fair Value Measurement and Application", the City has determined the swap liability to be a level 2 measurement. The fair value below includes consideration of the City's credit rating and an adjustment for nonperformance risk. The City has determined that the swaps are effective hedges and the change in the fair values are reported as deferred inflows/outflows on the statement of net position (GASB 53, para.75). A summary of the total fair value is as follows:

Notional Amount	Change in Fair Value	Fair Value at June 30, 2025
\$ 902,400,000	\$ 13,708,279 Deferred Inflow	\$ 59,724,577 (SWAP Liability)

General Terms:

Objective (GASB 53, para. 71): To manage interest rate exposure and to reduce the cost of capital related to the City's Combined Utility System First Lien Revenue Refunding Bonds, Series 2004B (the "Series 2004B Bonds"), the City entered into several interest rate swap agreements (the "Series 2004B Swaps"). Additionally, to manage interest rate exposure and to reduce the cost of capital related to the City's Combined Utility System First Lien Revenue Refunding Bonds, Series 2018C (the "Series 2018C Bonds"), the City entered into an interest rate swap agreement (the "Series 2018C Swap"). The Series 2004B Swaps and Series 2018C Swap are collectively referred to herein as the "Swaps". Moreover, the Series 2004B Bonds and the Series 2018C Bonds are collectively referred to herein as the "Bonds".

Hedging Relationship (GASB 53): Hedge accounting can be applied for derivative instruments that are found to be effective hedges under GASB 53. The City has determined that the swaps are effective hedges and the changes in fair values are reported as deferred inflows/outflows on the statement of net position.

Non-Performance Adjustments (GASB 72, para. 62): GASB 72 requires a government to consider nonperformance risk when measuring the fair value of a liability. The fair values include consideration of the City's credit rating and an adjustment for nonperformance risk.

Credit risk (GASB 53, para. 73(a)): As of June 30, 2025, the City was not exposed to credit risk because the Swaps had a negative fair value. However, should interest rates change and the fair value of the Swaps become positive, then the City will be exposed to credit risk in the amount of the fair value of the Swaps. In accordance with the City's swap policy and as established the Swaps, if a counterparty's credit rating falls below AA, collateral must be posted in varying amounts, depending on the credit rating and the fair value of the Swaps. No collateral has been required to date.

Basis risk (GASB 53, para. 73(c)): Basis risk is measured by the difference between variable receipts on the Swaps and variable payments on the Bonds. In the case of the Series 2004B Bonds, the basis is the difference between the 1-Week SIFMA and 10-Year Constant Maturity Swap Rate ("10-Year CMS"). In the case of the Series 2018C Bonds, the basis is the difference between 1-Month London Interbank Offered Rate ("LIBOR") and 10-Year CMS.

As of July 1, 2023, the ICE Benchmark Administration ceased publishing any LIBOR setting using the methodology in place as of December 31, 2021. As a result, as of July 1, 2023, LIBOR is no longer an appropriate benchmark interest rate for a derivative instrument that hedges the interest rate risk of taxable debt for purposes of GASB Statement No. 53. The agreements have been amended in July 2023 to reflect this change.

Termination risk (GASB 53, para. 73(d)): The City retains the right to terminate the Swaps at any time and for any reason. If the City terminates any of the Swaps, then a termination payment reflecting the "then-current" market value of the Swaps will be payable to or receivable by the City. By comparison, the City's counterparties may only terminate the Swaps in the event that the City fails to perform under the terms of the swap agreement, e.g., the City defaults on any swap payments.

Hedged Debt (GASB 53, para. 74): As of June 30, 2025, debt service requirements for the swap agreements are reported in Note 8D as if the swap was in effect, assuming current interest rates remain the same. As rates vary, variable rate bond interest payments and net swap payments will vary. Expected debt service payments on the associated bonds are included with other Combined Utility System Bonds on Note 8.D.

a. Combined Utility System Synthetic Fixed Rate Swap Agreements

Combined Utility System Synthetic Fixed Rate Swaps. On June 10, 2004, the City entered into three identical pay-fixed, receive variable rate swap agreements. The City pre-qualified six firms to submit competitive bids on the swap. The bidding took place on June 7, 2004. The three firms selected all matched the lowest fixed rate bid of 3.7784%. On November 15, 2018, the City amended the swap by changing the floating rate index from one-month LIBOR to 10-year constant maturity swap rate (CMS).

Terms. The notional amount totals \$653.3 million, the principal amount of the associated 2004B Bonds. The City's swap agreements contain scheduled reductions to outstanding notional amounts that follow anticipated payments of principal of the 2004B Bonds in varying amounts during the years 2028 to 2034.

Under the terms of the swaps, the City will pay a fixed rate of 3.7784% and receive a floating rate equal to 57.6% of One-Month U.S. Dollar LIBOR plus 37 basis points. All agreements were effective June 10, 2004, the date of issuance of the 2004B Bonds, and will terminate on May 15, 2034.

However, effective November 15, 2018, as per the amended terms, the City will now receive variable payments based on 58.55% of 10-year CMS.

At June 30, 2025, the effective rate on the 2004B Bonds associated with the swap was computed as follows:

	<u>Amended Terms</u>	<u>Rate (%) Received (Paid)</u>
Variable rate payment from counterparties	10YR SOFR x 58.55%	2.4053
Swap Receipt		2.4053
Fixed rate paid to counterparties		(3.7784)
Net rate (paid)/received for swap		(1.3731)
Year-end variable rate on 2004B bonds, year-end		(3.0779)
Plus: dealer and credit fees on 2004B bonds		(0.5182)
Effective rate of the 2004B bonds		(4.9692)

In contrast, the fixed rate the City paid on its Combined Utility System Series 2004A fixed rate bonds, which have a comparable maturity, was 5.08%.

Fair Value. Because long-term interest rates have changed since inception of the swaps, the swaps had a negative fair value of \$43.0 million on June 30, 2025. This value was calculated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. The fair value is recorded on the balance sheet of the Combined Utility in the SWAP liability. These net payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swaps.

Counterparty	Notional Amount	GAAP Fair Value	Counterparty Rating (Moody's /S&P/Fitch)
Goldman Sachs	\$ 353,325,000	\$ (23,234,398)	A1/A+/A+
JP Morgan Chase	150,000,000	(9,863,892)	Aa2/A+/AA
Wells Fargo	150,000,000	(9,858,009)	Aa2/A+/AA-
Total	<u>\$ 653,325,000</u>	<u>\$ (42,956,299)</u>	

b. Combined Utility System Forward Interest Rate Swap

Combined Utility System Forward Starting Swap. On November 1, 2005, the City entered into a forward interest rate swap transaction with RBC. The City pre-qualified eight firms to submit competitive bids on the swap. RBC submitted the lowest fixed rate bid of 3.761% and was selected. On September 1, 2015, the swap agreement was novated to Wells Fargo.

On November 15, 2018, the City amended the swap by changing the floating rate index from one-month LIBOR to 10-year constant maturity swap rate (CMS). The transaction was conducted through a competitive bid process.

Terms. Under the terms of the initial contract, the City will pay a fixed rate of 3.761% on a par value of \$249.1 million, and it will receive variable payments based on 70% of One-Month U.S. Dollar LIBOR. The City's scheduled net swap payments are insured by Ambac Assurance Corporation.

However, effective November 15, 2018, as per the amended terms, the City will now receive variable payments based on 58.55% of 10- year CMS.

At June 30, 2025, the effective rate on the 2018C Bonds associated with the swap was computed as follows:

	Initial Terms	Amended Terms	RATE (%) Received (Paid)
Variable rate payment from counterparties		10YR SOFR x 58.55%	2.4053
Swap Receipt			2.4053
Fixed rate paid to counterparties	Fixed		(3.7610)
Net rate (paid)/received for swap			(1.3557)
Year-end variable rate on 2018C bonds			(3.0406)
Plus: dealer and credit fees on 2018C bonds			(0.3800)
Effective rate of 2018C bonds			<u>(4.7763)</u>

Fair value. The swap had a reported negative fair value of \$16.8 million on June 30, 2025. The fair value is recorded on the balance sheet of the Combined Utility in the SWAP liability. This value was calculated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These net payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swaps.

Counterparty	Notional Amount	GAAP Fair Value	Counterparty Rating (Moody's /S&P/Fitch)
Wells Fargo	\$ 249,075,000	\$ (16,768,279)	Aa2/A+/AA-

17. Combined Utility System Commercial Paper

Effective December 17, 2009, the City established a \$700 million Series B Commercial Paper Note program (the "Utility Commercial Paper") that provides for the issuance of Utility Commercial Paper notes to finance costs of eligible projects, including acquisition, construction, improvements and additions or extension for the Combined Utility, and pay costs of issuance. Effective May 17, 2023, the City amended and restated the Series B Ordinance authorizing for issuance \$1 billion of Utility Commercial Paper notes. The program is structured as a revolving commercial paper note program, whereby the Utility Commercial Paper may be issued for a period that does not exceed 270 days and the maximum interest rate may not exceed 10%. The Utility Commercial Paper are issued as third lien obligations and are payable from and secured by a lien on Net Revenues of the Combined Utility which is subordinate to the lien securing payment of First Lien Bonds. The Combined Utility's outstanding notes from credit agreements contain a two – four-year repayment provision in the event of default or material adverse change.

A portion of the Utility Commercial Paper, in the amount of \$475 million, is secured by credit facilities from Bank of America (Series B-1 and Series B-6) with an expiration date of August 19, 2027, SMBC, acting through its New York Branch (Series B-3) with an expiration date of December 31, 2029, PNC Bank, N.A. (Series B-4) with an expiration date of July 12, 2028, and JPMorgan (Series B-7) with an expiration date of June 1, 2027. The Series B-7 (\$100 million of principal) was established within the amended and restated ordinance of May 2023. As of June 30, 2025, the Combined Utility has no outstanding in Series B commercial paper notes.

The remaining \$525.0 million exists as an Extendable Commercial Paper ("ECP") Note program in the amounts of \$275 million and \$250 million, that provide for the issuance of Series B-2 and Series B-5 ECP Notes as third lien obligations. During FY23, the City amended and restated the Supplemental Ordinance authorizing the issuance of Series B-2 ECP notes in the aggregate principal amount not to exceed \$275 million outstanding at any time and provide for the issuance of Series B-2 notes through December 15, 2039. The Series B-2 ECP Notes and Series B-5 ECP Notes may each be issued for a period not to exceed 90 days (which may be extended, but in no event later than 270 days following the date of issuance) and bear interest at an annual rate not to exceed 9%. The Series B-2 and Series B-5 ECP Notes are (1) separately offered and remarketed by Morgan Stanley & Co. LLC, (2) issued as Third Lien Obligations, and (3) are separately payable from and secured by a lien on Net Revenues of the Combined Utility, which is subordinate to the lien securing payment of First Lien Bonds. Proceeds of Series B-2 and B-5 ECP Notes may each be used to finance various capital projects of the Combined Utility.

18. Combined Utility Subordinate Liens- Direct Placement

In December 2015 (2015E) and December 2016 (2016D), the City closed on a Texas Water Development Board "TWDB" direct placement subordinate lien State Water Implementation Fund for Texas ("SWIFT") Loans of \$25,915,000 and \$63,020,000, respectively. These loans were issued to fund the Northeast Plant Expansion and Northeast Transmission Line. Annual debt service is payable from the Combined Utility, General Purpose Fund. The annual debt service payments began in May 2016 and May 2017, respectively. As of June 30, 2025, \$5,955,000 and \$13,620,000 of the principal has been paid for the 2015 loan and 2016 loan, respectively. These bonds mature on November 15, 2045, and November 15, 2046, respectively. Two new SWIFT loans were issued in November 2017 (2017C) and June 2018 (2018B) for \$83,170,000 and \$106,910,000, respectively. The annual debt service payments began in May 2018 and November 2018, respectively, and both bonds mature in fiscal year 2048, respectively. As of June 30, 2025, \$15,230,000 of principal has been paid for 2017C and \$16,490,000 of principal has been made paid for 2018B. A new SWIFT loan was issued in November 2018 (2018F) for \$170,265,000. As of June 30, 2025, \$24,775,000 of principal was paid for this bond. This bond matures in fiscal year 2049. A new SWIFT loan was issued in November 2020 (2020E) for \$38,000,000. As of June 30, 2025, \$4,490,000 of principal was paid for this bond. This bond matures in fiscal year 2050. The outstanding debt for Subordinate Lien as of June 30, 2025 is \$406.7 million.

The direct placement subordinate lien bonds contain no unique default provisions, payment provisions, or collateral pledged. In the event of default, such as failing to make timely payments in accordance with the agreements, the outstanding balances, including accrued interest, may become due immediately. As of June 30, 2025, the City is in compliance with terms and conditions of these loan agreements.

19. Coastal Water Authority (“CWA”)

The contract payable relating to CWA represents the outstanding balance of \$60.3 million at June 30, 2025, for Revenue Refunding Bonds, Series 2010 and 2014, and Revenue Bonds, Series 2024 issued by CWA, a governmental agency of the State of Texas, to finance the construction of a water conveyance system. Pursuant to a series of exchange agreements with CWA, the City issued the Certificate and endorsed the bonds and is unconditionally obligated to pay from the gross revenues of the Combined Utility all debt service payments on these Certificates and Bonds, as well as amounts necessary to restore deficiencies in funds required to be accumulated under the CWA bond resolutions. The outstanding bonds mature on December 15, 2025, December 15, 2034, and December 15, 2054 respectively.

Luce Bayou

In January 2009, the City entered into a contract with CWA for the project design, property acquisition, construction and financing of the Luce Bayou Interbasin Transfer Project. This would include the construction of infrastructure sized to transfer approximately 450,000 acre feet per year of the City's permitted surface water from Trinity River to Lake Houston. The funding for this project is to be financed and paid through the TWDB financing program. The Water Infrastructure Fund (“WIF”) Bonds are secured by the City's pledged revenues to pay debt service.

The current contract payable out of the General Purpose Fund relating to Luce Bayou as of June 30, 2025, represents \$28,754,000 of State Participation Loan (maturing in 2047), \$28,000,000 of Series 2009 WIF Loan (maturing in 2029, outstanding principal balance of \$12,080,000 as of June 30, 2025) and \$5,115,000 of Series 2010 WIF Loan (maturing in 2030, outstanding principal balance of \$2,500,000 as of June 30, 2025). The annual debt service payments for the State Participation Loan started in fiscal year 2015, Series 2009 started in fiscal year 2019 and Series 2010 WIF Loan started in fiscal year 2020.

In fiscal year 2017, two new State Water Implementation Revenue Fund for Texas (“SWIRFT”) bonds were issued in relation to Luce Bayou on November 2015 and December 2016 for \$66,565,000 and \$136,460,000, respectively. The annual debt service payments for these bonds started in fiscal year 2019 and their maturity is in 2050 and 2051, respectively. Additionally in fiscal year 2018, two new SWIRFT bonds were issued in relation to Luce Bayou on November 2017 for \$72,795,000 and \$24,180,000, respectively. The annual debt service payments for the \$72.795 million bond started in fiscal year 2019. This bond matures in 2052. The annual debt service payments for the \$24.1 million bond started in fiscal year 2018, with a current outstanding principal balance of \$19,120,000 as of June 30, 2025. This bond matures in 2047.

Luce Bayou-Land & Mitigation Costs-ROW

Land and Mitigation Costs associated with the Luce Bayou Project relate to acquisition of land and costs of environmental mitigation. CWA advanced funds to pay for the City's share of Land and Mitigation costs from available CWA revenues in lump sums (\$6.4 million in 2009, \$3.2 million in 2010, \$3.2 million in 2012) for a total of \$12.8 million. Repayment of the loan started in FY 2019 with the accrued interest during 2009-2020 rolled into principal to be amortized over the next 20 years. As of June 30, 2025, the current principal balance is \$13.2 million.

20. Other Contracts

U.S. Army Corps of Engineers

Payments on the following contracts will be made only after the Combined Utility has funded all maintenance and operation costs and debt service payments for the Combined Utility, including required reserves.

On June 20, 1967, the City, TRA, and Chambers-Liberty Counties Navigation District contracted with the United States of America to have the U.S. Army Corps of Engineers build a salinity control barrier and recreation facilities at Wallisville Lake. Because of legal actions, construction was blocked for a long period, and the project was not completed until April 2003. The City's share of the project cost was \$10,580,707, which will be paid to the U.S. government over 50 years at 3.222% interest with final payment due January 1, 2053. Current principal balance outstanding as of June 30, 2025, is \$7.6 million.

D. Schedule for Debt Service Requirements to Maturity:

Aggregate future debt service payments to maturity as of June 30, 2025, are as follows (in thousands):

1. General Long-Term Tax Obligation Debt:

Year Ending June 30	Public Improvement Bonds		Pension Obligation Bonds

E. Debt Issuances and Refunding

Refunding Debt and Defeased Debt

General Obligation and Public Improvement Refunding Bonds

On July 18, 2024, the City has issued General Obligation Refunding Bonds Series 2024A of \$612.1 million and Public Improvement Refunding Bonds Series 2024B of \$122.1 million. Pursuant to the Series 2024A Ordinance and a Memorandum of Agreement regarding the settlement agreement between the Houston Professional Fire Fighters' Association, Local 341, and the City, the Series 2024A Bonds were issued to refund, discharge and extinguish a certain special obligation of the City. A portion of the proceeds of the Series 2024B Bonds, together with other available funds was used to purchase a portfolio of obligation authorized under State law. The Series 2024B refunded \$40.3 million of the Series 2014A notes. The Series 2024A bonds mature in varying amounts in 2025 through 2051. The Series 2024B bonds mature in varying amounts in 2025 through 2044 and yielded a reduction in debt service and economic gain (present value of the debt service savings) of \$0.8 million.

Tax Revenue Anticipation Notes

On October 24, 2024, the City has issued \$99.0 million of competitive sale on the Tax Revenue Anticipation Notes ("TRANS"). For the year ended June 30, 2025, the City is authorized to issue parity tax and revenue anticipation notes in an aggregate amount not to exceed \$232.0 million. TRANS are payable solely from pledged revenue collected in the year ended June 30, 2025, and to be paid on or before June 30, 2025. TRANS are issued to finance the City's general operating expenditure for the year ended June 30, 2025, in anticipation of the collection of taxes and revenue a significant portion of which will be collected in the latter half of the fiscal year. The TRANS were paid on June 30, 2025, and are no longer outstanding.

Coastal Water Authority Contract Revenue Bonds

In July 2024, TWDB approved financial assistance in the amount of \$320.0 million in multi-year financing from the SWIFT program to the Coastal Water Authority to facilitate the planning, design, construction, and installation of a second B System raw water pipeline to mitigate the risk of failure of the CWA's existing B System raw water pipeline and loss of water to industrial facilities and the City's East Water Purification Plant (the "CWA Transmission Expansion Project"). Related thereto, on August 14, 2024, the City entered into the Sixth Supplement to the Projects Contract to include the CWA Transmission Expansion Project as an Other City Project under the Operating Contract thereby obligating the City to debt service. On November 20, 2024, CWA issued \$25.0 million of Coastal Water Authority (CWA) Contract Revenue Bonds, Series 2024, (City of Houston Projects) with coupons ranging from 2.06% to 3.82%. The proceeds were to facilitate the planning, design, construction and installation of the CWA Transmission Expansion Project and to pay costs of issuance of the Bonds. The true interest cost of the 2024 Bonds is 3.425%. The Bonds mature in varying amounts from 2025 to 2054.

F. Bond Compliance Requirements

The revenue bond ordinances require that, during the period in which the bonds are outstanding, the City must create and maintain certain accounts or funds to receive the proceeds from the sale of the revenue bonds and to account for the revenues (as defined), which are pledged for payment of the bonds. The assets can be used only in accordance with the terms of the bond ordinance and for the specific purpose(s) designated therein.

The City is generally required to make a monthly transfer to debt service funds equal to one-sixth of the next interest payment and one-twelfth of the next principal payment. Certain bond ordinances have additional requirements for the establishment of rates and the accumulation of principal and interest repayment amounts from surplus operating funds. Generally, the bonds may be redeemed prior to their maturities in accordance with the bond ordinances and at various premiums equal to or less than 2%. As of and for the year ended June 30, 2025, the City has complied with the requirements of all revenue bond ordinances and related bond restrictions.

G. Voter Authorized Obligations

In November 2006, voters of the City authorized the issuance of \$625.0 million of Public Improvement Bonds. The City Council has authorized issuance of \$525.0 million as General Obligation Commercial Paper Series G, H-1, H-2 and J.

In November 2012, voters authorized an additional \$410.0 million of Public Improvement Bonds. The City Council has authorized issuance of \$410.0 million as General Obligation Commercial Paper Series G1, G2, H-2 and J.

In November 2017, voters authorized an additional \$495.0 million of Public Improvement Bonds. The City Council has authorized issuance of \$495.0 million as General Obligation Commercial Paper Series G, H-2 and J.

In November 2022, voters authorized an additional \$478.0 million of Public Improvement Bonds. The City Council has authorized issuance of \$473.0 million as General Obligation Commercial Paper Series G, H-2 and J.

H. Legal Debt Margin

At June 30, 2025, the City's legal debt limit was 10% of assessed property valuation totaling \$431,355.4 million. The City's legal debt margin less applicable outstanding debt was \$39,633.4 million.

I. Arbitrage Rebate

Arbitrage rebate rules, under the Internal Revenue Code Section 148 and related Treasury Regulations, require generally that a tax-exempt bond issuer forward to the federal government any profits made from investing bond proceeds at a yield above the bond yield, when investing in a taxable market. Payments based on cumulative profits earned by bonds are due, in general, every five years. At June 30, 2025, a yield restriction/arbitrage rebate of \$1.8 million and \$12.5 million was accrued for governmental and business-type activities, respectively.

NOTE 9: LEASES AND SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS

A. LEASES

1. City as a Lessee

The City has obtained office space, data processing, machinery, and other equipment through long-term leases. The terms and conditions for these leases varies. Some leases are fixed, periodic payments over the lease term, which ranges between 1-50 years. See Note 6 for changes in lease right-of-use assets for the year ended June 30, 2025.

Principal and interest requirements to maturity for the lease liability as of June 30, 2025, are as follows (in thousands):

Year ending June 30	General Government			Airport System		
	Principal	Interest	Total	Principal	Interest	Total
2026	\$ 6,756	\$ 1,035	\$ 7,791	\$ 4	\$ —	\$ 4

Total	<u>\$ 61,767</u>	<u>\$ 10,621</u>	<u>\$ 72,388</u>

The remainder of this page is intentionally left blank

2. City as a Lessor

The Convention and Entertainment leases all of its capital assets to Houston First Corporation, a discretely presented component unit. The agreement is a cancellable lease that is subject to termination in 2026. The capital assets include the George R. Brown Convention Center and the Convention Center Parking Garage, Wortham Theater Center, Jones Hall for the Performing Arts, Theater District Parking Garages, Miller Outdoor Theater, and Talento Bilingue De Houston, among others.

The Airport System leases terminal space (except for regulated leases), aircraft maintenance and overhaul facilities, cargo facilities, hangars, and other structures to air carriers and other tenants under various leases, a majority of which is non-cancellable and terminate no later than July 2058. Certain provisions of the leases provide for fixed and variable rental payments, and all are generally designed to allow the Airport System to meet its debt service requirements and recover certain operating and maintenance costs. In addition, certain of the agreements under which the Airport System receives revenue from the operation of concessions at Intercontinental and Hobby airports provide for the payment of a fee based on the greater of an aggregated percentage of gross receipts or a guaranteed minimum.

For the year ended June 30, 2025, the total amount of inflows of resources recognized are as follows (in thousands):

Governmental

Fixed Payments	
Rentals, buildings	\$ 1,421
	<u>\$ 1,421</u>

Enterprise

	Airport System		Convention & Entertainment		Total
	Fixed Payments	Variable Payments	Fixed Payments	Total	
Rentals, buildings	\$ 21,717	\$ —	\$ 1,445	\$ 23,162	
Concessions	1,608	31,516	—	33,124	
Interest revenue	11,682	—	—	11,682	
	<u>\$ 35,007</u>	<u>\$ 31,516</u>	<u>\$ 1,445</u>	<u>\$ 67,968</u>	

The remainder of this page is intentionally left blank

Principal and interest to maturity for the lease receivable as of June 30, 2025, are as follows (in thousands):

Year ending June 30	General Government			Airport System		
	Principal	Interest	Total	Principal	Interest	Total

3. Regulated Leases

The City and United Airlines (“United”), Southwest Airlines (“Southwest”), Delta Air Lines, American Airlines, Spirit Airlines, and Air Canada (collectively, the “Signatory Airlines”) entered into Airport Use and Lease agreements (“Regulated Leases”), for usage of Intercontinental and Hobby Airport facilities for the purpose of conducting business as air transportation businesses. These agreements are non-cancellable and terminate no later than 2053, with options to extend, or month-to-month and cancellable with 30 days’ notice. Under the terms of these agreements, Signatory Airlines pay the Airport System monthly based on the annual rental rate/fee schedule. Rate calculations are based on total estimates of costs and expenses, estimates of passengers and total landed weight, and other factors. Final settlements are made each year after the audit of Airport System Fund’s ACFR. Other airlines operating at Intercontinental and Hobby airports are billed at rates established by the City ordinances.

Under the agreements with United, United has exclusive and preferential use of certain space and facilities of terminals A, B, C, and E at Intercontinental Airport and preferential use of certain apron areas. And under these agreements, all or part of the concession revenues and related costs generated from terminals B, C, and E of Intercontinental Airport are excluded from the Airport System Fund’s concession revenues and operating expenses on the statements of revenues, expenses, and changes in net position, as United operates, retains revenues, and pay related costs of operations for those concessions in accordance with the agreements. In addition, one of the agreements with Southwest grants Southwest preferential use of West Terminal/West Concourse, boarding gates, and other areas at Hobby Airport. Another agreement grants Southwest exclusive and preferential use of certain terminal areas of terminal A at Intercontinental Airport. No other airlines have exclusive or preferential use of more than ten (10) percent of terminal space or other areas of the Airport System as of June 30, 2025.

Exclusive and preferential use of space, as of June 30, 2025, are summarized as follows:

George Bush Intercontinental Airport (IAH)			
	United	Southwest	Total IAH
Terminal areas - leasable airline space (in thousands)	1,927 sq. ft.	— sq. ft.	3,479 sq. ft.
Apron - leasable airline space (in thousands)	2,345 sq. ft.	— sq. ft.	3,641 sq. ft.
Number of gates and remote stands	90	—	126

William P. Hobby Airport (HOU)			
	Southwest	Total HOU	
Terminal areas - leasable airline space (in thousands)	381 sq. ft.	467 sq. ft.	
Apron - leasable airline space (in thousands)	516 sq. ft.	815 sq. ft.	
Number of gates and remote stands	19	30	

	(in thousands)	
	Fixed Payments	Variable Payments
United	\$ 122,871	\$ 45,715
Southwest	\$ 35,685	\$ 23,446
Other Signatory Airlines	\$ 19,541	\$ 10,153

Expected future minimum lease payments from Regulated Leases at June 30, 2025, are as follows, projected by management of the Airport System using the following assumptions: 1) revenues earned from the Signatory Airlines during the year ended June 30, 2025, 2) through the expiration of the agreements with the Signatory Airlines or the next five (5) years, whichever is longer, 3) compounded at three (3) percent per annum, and 4) without considering future expansion and changes in operations by the Airport System or the Signatory Airlines (in thousands):

Year ending June 30	Total
2026	\$ 264,961
2027	272,910
2028	281,097
2029	289,530
2030	298,216
2031 - 2035	1,455,037
2036 - 2040	1,686,787
2041 - 2045	1,436,284
2046 - 2050	1,665,046
2051 - 2054	1,272,741
Total	\$ 8,922,609

The Airport System' senior lien and subordinate lien revenue refunding bonds are secured by net revenues earned from the airlines.

B. Subscription-Based Information Technology Arrangements

The City has entered into SBITA involving data center, various desktop and server software, electronic workflows and document management software, public safety radio communication system, public safety detection software, public safety case and records management, solid waste fleet management system, airport operations management systems, airport passenger information and public Wi-Fi systems, and airport parking management system. As of June 30, 2025, all SBITA have fixed, periodic, payments over the subscription periods, which range from 1 to 15 years and expire no later than fiscal year 2038. In addition, certain of these agreements are cancellable with a 30 or 60-day notice. There are no commitments or outflows of resources related to SBITA that are not yet effective. See Note 6 for changes in subscription right-of-use assets for the year ended June 30, 2025.

Future subscription payments as of June 30, 2025, are as follows (in thousands):

Year ending June 30	General Government			Airport System		
	Principal	Interest	Total	Principal	Interest	Total

NOTE 10: PENSION PLANS

A. General Information

Plan Descriptions

The City has three single-employer defined benefit pension plans, which provide pension benefits for substantially all of its full-time employees. These pension plans were established under the authority of Texas statutes (Vernon's Texas Civil Statutes, Articles 6243.e2 (1), 6243h, and 6243g-4), which establish the various benefit provisions. Independent Boards of Trustees administer each plan. The fiscal year of each pension fund ends June 30. The most recent available stand-alone financial statements of the pension funds are for the year ended June 30, 2025. The specific summary plan description for each plan and the financial statements are available at the plan offices (see Note 1.B.1).

Benefits Provided

Houston Firefighters' Relief and Retirement Fund ("HFRRF"): Prior to July 1, 2017, retirement benefits for firefighters with 20 or more years of service are entitled to 50% of average salary (defined as the monthly average of their highest individual 78 pay periods) for a total monthly pension not to exceed 80% of the average monthly salary for the highest 78 pay periods. After July 1, 2017, benefits accrue at 2.75% per year prior to 20 years of service and 2% thereafter for those hired prior to July 1, 2017. For those hired after that date, 2.25% is accrued per year, up to 20 years of service and 2% thereafter, subject to a maximum of 80%. Benefits are adjusted annually for a cost-of-living adjustment between 0% and 4% for eligible members. A DROP is available to eligible members with 20 or more years of service that were hired prior to July 1, 2017.

Houston Municipal Employees' Pension System ("HMEPS"): The plan includes three contributory groups and provides for service-connected disability and death benefits to eligible members and surviving spouse and/or dependents, with no age or service eligibility requirements. Pension benefits are based on a participant's average monthly salary and years of debited service, as defined in the Pension Statute. Pension benefits are adjusted annually for a cost-of-living adjustment of between 0% and 2%, depending on investment returns. The maximum pension benefit is 90% of the participant's average monthly salary. A Deferred Retirement Option Plan ("DROP") is available to eligible members.

In March 2022, employees of Houston First Corporation ("HFC"), a component unit of the City, were determined to be eligible to participate in HMEPS based on a settlement agreement between the City and HMEPS. Per the settlement agreement, HFC made a lump-sum contribution of \$16.0 million to HMEPS and started making employer contributions in accordance with the plan provisions effective January 1, 2022.

Houston Police Officers' Pension System ("HPOPS"): Retirement benefits for police officers are equal to 2.75% of the member's pensionable pay for each of the member's first 20 years of service plus 2% of pensionable pay for each year more than 20 years with no maximum percentage. Members hired or rehired after October 9, 2004 accrue benefits equal to 2.25% of the member's pensionable pay for the first 20 years plus 2% of the member's pensionable pay for each year in excess of 20 years, subject to a maximum of 80%. Pension benefits are adjusted annually for a cost-of-living adjustment between 0% and 4%. A DROP is available, generally, to members hired before October 9, 2004, for eligible members with at least 20 years of service. Pursuant to House Bill 2688 which became effective September 1, 2025, members hired or rehired subsequent to October 9, 2004 will become eligible to participate in DROP under the same rules, except for the benefit accrual rate, as apply to members who were hired prior to October 9, 2004.

Contributions

Employer and employee obligations to contribute, as well as employee contribution rates, are included in the enabling pension statutes. Additionally, these laws provide that employer funding be based on annual actuarial valuations. There are three contributory pension plans. All pension plans provide service, disability, death, and survivor benefits. In addition, each pension plan recognizes participant and employer contributions as revenues in the period in which they are due pursuant to formal commitments and recognizes benefits and refunds when they are due and payable in accordance with the terms of the pension statutes.

As of the most recent measurement date of the net pension liability, membership data for the pension plans are as follows:

	HFRRF	HMEPS	HPOPS
Inactive members or beneficiaries currently receiving benefits	3,580	12,204	5,299
Inactive members entitled to but not yet receiving benefits	147	9,398	89
Active members	3,014	11,883	5,305
DROP members	655	—	—
Total plan members	<u>7,396</u>	<u>33,485</u>	<u>10,693</u>

B. Net Pension Liability (Asset)

The Net Pension Liability ("NPL") or Net Pension Asset ("NPA") is the difference between the Total Pension Liability ("TPL") and the plan's Fiduciary Net Position ("FNP"). The TPL is the present value of pension benefits that are allocated to current members due to past service by entry age normal actuarial cost method. The TPL includes benefits related to projected salary and service, and automatic cost of living adjustments ("COLAs"). In addition, ad hoc COLAs are also included in the TPL to the extent they are substantively automatic. The FNP is determined on the same basis used by the pension plans. The City's TPL, NPL, and certain sensitivity information are based on an actuarial valuation performed as of July 1, 2024, or 2025. See actuarial assumptions in Note 10.H. The total pension liability was rolled forward from the valuation date to the measurement date of June 30, 2025, as applicable, using generally accepted actuarial principles.

Net pension liability (in thousands)	HFRRF	HMEPS	HPOPS
Measurement date	June 30, 2025	June 30, 2025	June 30, 2025
Total pension liability	\$ 5,800,379	\$ 5,932,875	\$ 8,770,454
Less: Fiduciary net position	(5,799,107)	(4,723,001)	(8,269,542)
Net pension liability (asset)	<u>\$ 1,272</u>	<u>\$ 1,209,874</u>	<u>\$ 500,912</u>

A schedule of Net Pension Liability (Asset), in addition to the information above and multi-year trend information, is presented in the Required Supplementary Information section on pages [160](#) through [169](#).

C. HMEPS - Allocation between the Primary Government and Component Unit and Explanation on the Amounts Reported on the Government-Wide Financial Statements

Effective January 1, 2022, employees of HFC became members of HMEPS. As of June 30, 2025, net pension liability, related amounts of deferred outflows and inflows of resources, and pension expense, allocated based on each's proportional share of employer contributions, for the primary government and its component unit are as follows (in thousands):

HMEPS as of June 30, 2025 Measurement Date						
	Primary Government		Component Unit ⁽¹⁾			Total
	Governmental Activities	Business-Type Activities	Business-Type Activities			
Net pension liability	\$ 823,611	\$ 357,635	\$ 28,628	\$ 1,209,874		
Deferred outflows of resources	721	17,770	9,927		28,418	
Deferred inflows of resources	151,239	60,642	4,472		216,353	
Pension expense (benefit)	(54,706)	(10,667)	10,511		(54,862)	

⁽¹⁾ Amounts for HFC, which has a calendar year-end, will be reported in the separately issued financial statements of HFC as of and for the year ending December 31, 2025.

HMEPS as of June 30, 2025 Reporting Date

	Primary Government		Component Unit (2)		Total
	Governmental Activities	Business-Type Activities	Business-Type Activities		
Net pension liability	\$ 823,611	\$ 357,635	\$ 31,266	\$ 1,212,512	
Deferred outflows of resources	721	17,770	18,320	36,811	
Deferred inflows of resources	151,239	60,642	4,812	216,693	
Pension expense (benefit)	(54,706)	(10,667)	12,844	(52,529)	

(2) Due to the difference in the year-end dates, amounts for HFC, included in the City's government-wide financial statements as of and for the year ended June 30, 2025, are as of and for the year ended December 31, 2024. Amounts reported by HFC as of and for the year ended December 31, 2024, were measured as of June 30, 2024.

D. Schedule of Changes in Net Pension Liability (Asset)

Changes in the City's NPL/NPA presented below are calculated on the same basis as each of the plans. The Changes in NPL/NPA for HFRRF, HMEPS, and HPOPS for the ended June 30, 2025, are as follows:

HFRRF

Changes in Net Pension Liability (Asset) (in thousands)	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability (Asset)

E. Pension Expense (Benefit)

For the year ended June 30, 2025, the City recognized pension expense (benefit) totaling \$67.4 million. Pension expense (benefit) recognized by each plan is as follows (in thousands):

Amounts Recognized in Pension Expense (Benefit)	HFRRF	HMEPS	HPOPS
Service Cost	\$ 67,699	\$ 91,783	\$ 89,369
Interest	370,240	397,122	558,138
Benefit Changes	—	—	349,382
Difference between Expected and Actual Experience	36,821	4,884	52,464

Differences between Projected and Actual Earnings	(173,306)	(212,763)	(260,855)
Member Contributions	(39,415)	(34,787)	(55,469)
Projected Earnings on Plan Investments	(369,670)	(300,931)	(536,526)
Administrative Expense	4,999	6,276	4,750
Other	1,202	(414)	—
Total Pension Expense (Benefit)	<u>\$ (77,891)</u>	<u>\$ (54,862)</u>	<u>\$ 200,113</u>

F. Schedule of Deferred Outflows and Inflows of Resources

Deferred outflows of resources and deferred inflows of resources by source reported by the City on June 30, 2025, for each plan are as follows (in thousands):

	HFRRF		HMEPS		HPOPS		Total	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between Expected and Actual Experience	\$ 239,196	\$ (84,570)	\$ 1,059	\$ (4,118)	\$ 187,041	\$ (1,045)	\$ 427,296	\$ (89,733)
Changes in Assumptions	130,410	(47,057)	—	—	—	(2,822)	130,410	(49,879)
Net Difference between Projected and Actual Earnings	—	(123,941)	—	(184,875)	—	(216,685)	—	(525,501)
Change in Proportion	—	—	27,359	(27,359)	—	—	27,359	(27,359)
Total	<u>\$ 369,606</u>	<u>\$ (255,568)</u>	<u>\$ 28,418</u>	<u>\$ (216,352)</u>	<u>\$ 187,041</u>	<u>\$ (220,552)</u>	<u>\$ 585,065</u>	<u>\$ (692,472)</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions at June 30, 2025, will be recognized in pension expense as follows (in thousands):

Year Ending June 30:	HFRRF	HMEPS	HPOPS	Total
2026	\$ 70,504	\$ (36,745)	\$ 69,792	\$ 103,551
2027	(9,811)	(52,583)	(55,945)	(118,339)
2028	(7,079)	(61,759)	(55,947)	(124,785)
2029	27,136	(36,848)	(12,257)	(21,969)
2030	33,288	—	14,406	47,694
Thereafter	—	—	6,440	6,440
Total	\$ 114,038	\$ (187,935)	\$ (33,511)	\$ (107,408)

A single discount rate of 7.00% was used to measure the TPL for the HMEPS and the HPOPS. This single discount rate was based on the expected rate of return on the respective pension plan's investments of 7.00% and the current municipal bond rate was not applicable. The projection of cash flows used to determine this single discount rate assumed that respective plan member contributions will be made at the current contribution rate and that City contributions will be made at the rate determined actuarially in the annual Risk Sharing Valuation Study which would become effective in the fiscal year beginning one year after the study date. Based on these assumptions, the respective pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, a single discount rate of 7.00% was applied to all periods of projected benefit payments to determine the total pension liability. For the June 30, 2025, measurement date, the single discount rate used was 7.00% for each of the plans.

The discount rate used to measure HFRRF's TPL was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions to the plan will continue to follow the current funding policy. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members for all future years. Therefore, a single discount rate of 7.00% was applied to all periods of projected benefit payments to determine the total pension liability. For the June 30, 2025, measurement date, the single discount rate of 7.00% was used.

G. Sensitivity of the net pension liability to changes in the discount rate

The following presents the NPL/NPA for each of the City's plans as of June 30, 2025, calculated using the discount rate, as well as what the City's NPL would have been if it were calculated using a discount rate that is 1-percent-point lower and 1-percent-point higher than the current rate (in thousands):

	Net Pension Liability (Asset)		
	Current Discount		
	1% Decrease	Rate	1% Increase
	6.00 %	7.00 %	8.00 %
HFRRF - Net Pension Liability (Asset)	\$ 589,894	\$ 1,272	\$ (483,831)
HMEPS - Net Pension Liability	\$ 1,793,747	\$ 1,209,874	\$ 750,937
HPOPS - Net Pension Liability (Asset)	\$ 1,425,451	\$ 500,912	\$ (255,910)

H. Actuarial Assumptions

Schedule of Assumptions	HFRRF	HMEPS	HPOPS
Inflation	2.25%	2.25%	2.30%
Salary Changes	3.00%	3.25% to 5.50%	0% to 30%, plus a 3.25% inflation and productivity component
Investment Rate of Return	7.00%	7.00%	7.00%
Valuation Date	7/1/2024	7/1/2024	7/1/2025
Actuarial Cost Method	Entry Age Normal Cost	Entry Age Normal Cost	Ultimate Entry Age Normal Cost
Amortization Method	Level Percent of Payroll	Level Percent of Payroll, Open	Level Percent of Payroll, 30 year closed laddered bases
Amortization Period	30 Years	23 years	22 years
Asset Valuation Method	Market value	5 year smoothed market, direct offset of deferred gains and losses	Market value of assets less a five-year phase in of the excess (shortfall) between expected investment return and actual income.
Cost-of-Living Adjustments	2.25%	0% - 2.00%	2.00%
Mortality Assumption	Mortality Improvement Scale MP-2021	PUB-2010 table, amount weighted, below-median income, with a 2-year set forward. The rates are then projected on a fully generational basis by the long-term rates of improvement of scale MP-2020.	Mortality Improvement Scale MP-2020
Experience Study	6/30/2023	6/30/2020	6/30/2022

The long-term expected rate of return on the investments was supported using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2025, are summarized in the following table:

Asset Class	HFRRF		HMEPS		HPOPS	
	Target Allocation	Long-term Expected Rate of Return	Target Allocation	Long-term Expected Rate of Return	Target Allocation	Long-term Expected Rate of Return
Cash & Short-term	2.00 %	3.11 %	— %	3.55 %	(9.75)%	1.00 %
Domestic Equity	19.00	8.25	—	—	28.80	4.60
International Equity	19.00	8.88	28.00	6.20	19.20	5.40
Fixed Income	—	—	10.00	5.95	10.20	1.70
Aggregate Bonds	5.00	4.81	—	—	—	—
Inflation Linked	—	—	20.00	7.60	—	—
Intermediate Credit	3.00	5.20	—	—	5.80	3.60
Intermediate High Yield	5.00	8.65	—	—	—	—
Hedge Funds	2.00	5.68	—	—	7.75	3.90

NOTE 11: OTHER EMPLOYEE BENEFITS

The City's Other Post-Employment Benefit ("OPEB") plans consist of a health benefit plan and a long-term disability plan. As of and for the year June 30, 2025, total balances of OPEB related assets, deferred outflows of resources, liabilities, deferred inflows of resources, and expenses are as follows (in thousands):

Plan	Total OPEB Liabilities	Deferred Outflows of Resources	Deferred Inflows of Resources	Expenses
Health Benefit (Note 11.A)	\$ 1,738,259	\$ 256,719	\$ 739,874	\$ 14,309
Long-term Disability (Note 11.C)	13,435	1,946	6,193	1,803
Total	\$ 1,751,694	\$ 258,665	\$ 746,067	\$ 16,112

A. Post-Employment Health Insurance Benefits Plan

The City's OPEB Health Benefit plan is a single-employer plan, and calculations are based on the OPEB benefits provided under the terms of the plan in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point.

The City provides certain health care benefits for retired employees as approved during the annual budget process. Substantially all the City's employees become eligible for these benefits if they reach normal retirement age while working for the City. The City is not required by law or contractual agreement to provide funding for OPEB other than pay-as-you-go amounts necessary to provide current benefits to retirees, eligible dependent, and beneficiaries. The plan is not accounted for as a trust, and an irrevocable trust that meets the criteria of GASB codification P22.101 or P52.101 to pay related benefits has not been established for this OPEB plan. The cost of retiree health care premiums incurred by the City (employer and subscriber) amounted to approximately \$60.9 million for the year ended June 30, 2025.

1. Membership

Membership data is updated every two years by the Actuary. As of the most recent actuarial valuation of the total OPEB liability, membership data is as follows:

Retirees and beneficiaries currently receiving	9,893
Active members	21,395
Total participants	31,288

2. Total and Net OPEB Liability

The total OPEB liability was measured as of June 30, 2024. The total OPEB liability was determined from an actuarial valuation as of June 30, 2024. The net OPEB liability is the total OPEB liability less the plan fiduciary net position. The total OPEB liability is the present value of all future benefit payments for current retirees and active employees, considering assumptions about demographics, turnover, mortality, disability, retirement, health care trends, and other actuarial assumptions (in thousands).

Measurement Date:	June 30, 2024
Reporting Date:	June 30, 2025
Total OPEB Liability	\$ 1,738,259
Less: Fiduciary Net Position	—
Net OPEB Liability	\$ 1,738,259

A schedule of Total OPEB Liability, in addition to the information above, includes multi-year trend information, is presented in the Required Supplementary Information section on page [170](#) through [172](#).

3. Schedule of Changes in Total OPEB Liability

Changes of assumption reflects a change in discount rate from 3.65% in 2023 to 3.93% in 2024. In addition, per capita health costs and future trend on such costs, as well as actuarial spread factors used to estimate individual retiree and spouse costs by age and by gender, have been updated. Changes in total OPEB liability for the year ended June 30, 2025, are as follows (in thousands):

Change in Total OPEB Liability	
Service cost	\$ 96,247
Interest	73,664
Difference between expected and actual experience	(142,841)
Changes of assumptions	(180,051)
Benefit payments	(60,872)
Net change in total OPEB liability	(213,853)
Beginning total OPEB liability	1,952,112
Ending total OPEB liability	\$ 1,738,259

4. OPEB Expense

For the year ended June 30, 2025, the City recognized OPEB expense of \$14.3 million. OPEB expense recognized is as follows (in thousands):

Components of OPEB Expense (Benefit)	
Service cost	\$ 96,247
Interest	73,664
Difference between expected and actual experience	(17,855)
Changes of assumptions	(22,506)
Amortization of beginning of year deferred amounts	(115,241)
OPEB expense (benefit)	\$ 14,309

5. Schedule of Deferred Outflows and Inflows of Resources

Deferred outflows and inflows of resources related to OPEB reported by the City at June 30, 2025, are as follows (in thousands):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes of assumptions	\$ 182,238	\$ (592,781)
Difference between expected and actual experience in the total OPEB liability	21,343	(147,093)
Contributions subsequent to the measurement date	53,138	—
Total	\$ 256,719	\$ (739,874)

\$53.1 million reported as deferred outflows of resources resulting from contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ending June 30, 2026.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to total OPEB liability at June 30, 2025, will be recognized in OPEB expense (benefit) as follows (in thousands):

Year Ending June 30		
2026	\$	(109,413)
2027		(83,363)
2028		(120,812)
2029		(127,187)
2030		(27,578)
Thereafter		(67,940)
Total	\$	<u>(536,293)</u>

6. Sensitivity of the Total OPEB Liability to Changes in the Discount Rate and Healthcare Cost Trend Rate

The following presents the total OPEB liability, calculated using the discount rate and the healthcare cost trend rate, as well as what the City's total OPEB liability would have been if it were calculated using a discount rate or healthcare cost trend rate that is 1-percent-point lower and 1-percent-point higher than the current rate (in thousands):

1% Decrease 2.93%	Current Discount Rate 3.93%	1% Increase 4.93%
\$ 1,986,505	\$ 1,738,259	\$ 1,534,818
1% Decrease in Health Care Cost Trend Rates	Current Health Care Cost Trend Rates	1% Increase in Health Care Cost Trend Rates
\$ 1,492,842	\$ 1,738,259	\$ 2,049,998

7. Schedule of Assumptions

The total OPEB liability is based on an actuarial valuation as of June 30, 2024, using the following assumptions, applied to all periods included in the measurement, unless otherwise specified:

Experience study	June 30, 2022
Inflation	2.25%
Salary increases	3.25% to 33.25%, varies by job classification, service and age
Discount rate	3.93% and 3.65% for June 30, 2025 and 2024 reporting, respectively
Measurement date	June 30, 2024
Healthcare costs trends rates	
Medical	7.00% grading down to 4.50% by 0.25% per annum
Prescription drug	10.00% grading down to 4.50% by 0.50% per annum
Medicare Advantage	-2.64% in the first year, 6.00% in the second year, then 0.25% down per annum
Administrative costs	2.00%
Healthy mortality rates	Rates that vary by job classification and employee status. The rates are consistent with the pension plans valuation assumptions for the same employees.

B. Health Benefits Internal Service Fund

On May 1, 2019, the City awarded CIGNA a five-year contract with two (2) one-year renewal options for 3 new health plans. All have an emphasis on a wellness component and include: 1) a limited network HMO-type plan, 2) an open access PPO-type plan with out-of-network coverage, and 3) a consumer driven high deductible health plan, partnered with a health reimbursement account.

Premiums paid (employer and subscriber) for current employees to third party administrators including claim liability totaled \$333.8 million for the year ended June 30, 2025.

CIGNA Schedule of Changes in Liability (in thousands)			
	June 30, 2025	June 30, 2024	
Beginning actuarial estimate of claims liability reserve, July 1	\$ 34,370	\$ 27,634	
Catastrophic claims reserve, July 1	15,000	15,000	
Incurred claims for fiscal year	342,457	339,088	
Payments on claims - net of RX rebates and refunds	(343,947)	(332,351)	
Ending actuarial estimate of claims liability including catastrophic claims liability, June 30	\$ 47,880	\$ 49,371	

C. Long-Term Disability Plan

The long-term disability ("LTD") plan, with related contributions and benefit payments accounted for as an internal service fund, is a part of the City's Compensable Sick Leave Plan ("CSL") and is provided at no cost to City employees who are members of CSL. The LTD plan is a single-employer plan. Coverage is effective the later of September 1, 1985, or upon completion of one year of continuous service. When an employee cannot work because of injury or illness, the plan provides income equal to 50% of base pay plus longevity or 70% of base plus longevity when combined with income benefits available from other sources. Plan benefits may be payable after all CSL scheduled sick leave benefits, including frozen sick leave days, have been used, however, not before six months absence from work. The plan is administered by Reed Group, which is reimbursed from the internal service fund for claims as they are paid along with a fee for administrative services. For the year ended June 30, 2025, claims paid totaled approximately \$0.9 million. Effective September 1, 2001, the Meet and Confer Agreement establishes Paid Time Off for classified police officers. This replaces those police officers' participation in the LTD plan. No assets are accumulated in a trust that meets the criteria of GASB codification P22.101 or P52.101 to pay related benefits for this OPEB plan.

1. Changes in Total OPEB Liability (in thousands)

	Total OPEB Liability
Balance at June 30, 2024	\$ 13,648
Changes for the year	
Service cost	1,589
Interest	638
Experience	(1,328)
Assumption changes	(262)
Benefit payments	(850)
Net change	(213)
Balance at June 30, 2025	\$ 13,435

Total OPEB liability at June 30, 2025, was measured as of June 30, 2025. And total OPEB liability of \$13.4 million includes \$8.9 million for active employees and \$4.5 million for disabled employees. Changes of assumption reflects a change in discount rate from 4.31% in 2024 to 4.81% in 2025.

2. OPEB expense for the year ended June 30, 2025, is \$1.8 million. Components of OPEB expense for the year ended June 30, 2025, are as follows (in thousands):

Service cost	\$ 1,590
Interest	638
Differences between expected and actual experience	(636)
Changes in assumptions	211
Total OPEB expense	\$ 1,803

3. Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2025, the City reports deferred outflows of resources and deferred inflows of resources related to the LTD plan from the following sources (in thousands):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 420	\$ (5,171)
Changes in assumptions	1,526	(1,022)
	\$ 1,946	\$ (6,193)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (in thousands):

Year Ending June 30		
2026	\$	(425)
2027		(425)
2028		(414)
2029		(553)
2030		(758)
Thereafter		(1,672)
	\$	(4,247)

4. Sensitivity of the Total OPEB Liability to Changes in the Discount Rate (in thousands)

The following presents the total OPEB liability, calculated using the discount rate of 4.81%, as well as what the total OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1 percentage-point higher than the current rate:

	Current		
	1% Decrease 3.81%	Discount Rate of 4.81%	1% Increase 5.81%
Total OPEB Liability	\$ 13,957	\$ 13,435	\$ 12,907

The last experience study for the LTD plan was performed as of April 30, 2025.

D. Deferred Compensation Plan

The City offers its employees a deferred compensation plan (the “DCP”), created in accordance with Internal Revenue Code Section 457 as a separately administered trust. The DCP, available to all City employees, permits employees to defer a portion of their salary until future years. The City does not make any matching or discretionary contributions to the DCP. The DCP is considered as an other employee benefit plan in accordance with paragraph 6 of GASBS No. 97. And the DCP is not considered as a fiduciary activity of the City under the provisions of GASBS No. 84. The deferred compensation funds are not available until termination, retirement, death, or unforeseeable emergency. However, the Plan now offers loans to participant employees. The maximum loan amount is the lesser of \$50,000 or 50% of the total account balance, less any outstanding loans. The minimum loan amount is \$1,000. The DCP’s assets are not subject to the City’s general creditors and are not included in the accompanying financial statements.

E. Workers' Compensation Self-Insurance Plan

The City has established a Workers' Compensation Self-Insurance Plan, accounted for within the various operating funds. This plan is administered by TriStar Insurance Group, Inc. Funds are wire transferred to TriStar as needed to pay claims.

As of June 30, 2025, the City has an accumulated liability in the amount of approximately \$152.1 million, covering estimates for approved but unpaid claims and incurred but not reported claims (calculated on an actuarial basis), recorded in the accompanying Statement of Net Position.

**Schedule of Changes in Liability
(in thousands)**

	June 30, 2025	June 30, 2024
Beginning actuarial estimate of claims liability, July 1	\$ 143,238	\$ 146,202
Incurred claims for fiscal year	27,007	20,726
Payments on claims	(26,265)	(25,889)
Actuarial adjustment	8,169	2,199
Ending actuarial estimate of claims liability, June 30	<u>\$ 152,149</u>	<u>\$ 143,238</u>

The remainder of this page is intentionally left blank

NOTE 12: INTERFUND TRANSACTIONS

A. Transfers

Transfers during the year ended June 30, 2025, were as follows (in thousands):

Transferred from:	Transferred to:					Total Transfers Out
	General Fund	Debt Service Fund	Capital Projects Fund	Nonmajor Governmental Funds		
General Fund	\$ —	\$ 19,779	\$ 18,261	\$ 160,161	\$ 198,201	
Nonmajor Funds	24,372	1,932	144,375	630	171,309	
Convention and Entertainment	1,521	—	—	—	1,521	
Combined Utility System	91,858	2,868	—	1,120	95,846	
Total transfers in	<u>\$ 117,751</u>	<u>\$ 24,579</u>	<u>\$ 162,636</u>	<u>\$ 161,911</u>	<u>\$ 466,877</u>	

Of the \$198.2 million transfers from the General Fund, \$160.2 million and \$18.3 million was to Public Works Special Revenue Fund and to Capital Projects Fund, respectively, for capital improvements. Of the \$171.3 million transfers from nonmajor funds, \$144.4 million was transferred from Public Works Special Revenue Fund to Capital Projects Fund for capital improvements related to drainage. In addition, \$15.0 million was transferred from Public Works Special Revenue Fund to the General Fund for Stormwater project. Of the \$91.9 million transferred from the Combined Utility System to the General Fund, \$88.4 million was for drainage related expenditures. All other transfers are routine in nature, such as cash match of grants, debt service payments, and internal service costs.

B. Schedule of Amounts Due To and Due From Other Funds

The interfund balances are primarily due to charges for services between funds during the fiscal year and settled shortly after year-end. The composition of interfund balances as of June 30, 2025, is as follows (in thousands):

Receivable fund:	Payable fund:									Total
	General Fund	Capital Projects	Grants	Nonmajor	Airport System	Combined Utility	Convention & Entertainment	Internal Service		
General	\$ —	\$ 30,421	\$ 33,278	\$ 10,865	\$ 1,942	\$ 43,924	\$ —	\$ 12	\$ 120,442	
Capital Projects	11,471	—	—	680	—	—	—	—	—	12,151
Debt Service	—	—	—	—	1,248	—	—	—	—	1,248
Grants	6,614	—	—	4,261	—	656	431	—	—	11,962
Nonmajor	7,808	680	55	70	—	210	—	—	—	8,823
Airport System	38	—	—	—	—	—	—	—	—	38
Combined Utility	33	—	—	26	—	—	—	—	—	59
Internal Service	1	—	—	—	—	—	—	—	—	1
Total	<u>\$ 25,965</u>	<u>\$ 31,101</u>	<u>\$ 33,333</u>	<u>\$ 15,902</u>	<u>\$ 3,190</u>	<u>\$ 44,790</u>	<u>\$ 431</u>	<u>\$ 12</u>	<u>\$ 154,724</u>	

NOTE 13: COMMITMENTS AND CONTINGENCIES

A. Litigation and Claims

Claims and judgments at June 30, 2025, consist of the following (in thousands):

	Governmental Activities	Business-Type Activities	Total
Health benefits (Note 11.B)	\$ 47,880	\$ —	\$ 47,880
Workers' compensation (Note 11.E)	140,982	11,166	152,148
Other workers' compensation	2,384	—	2,384
Litigation and claims	8,355	—	8,355
Environmental liabilities	19,456	—	19,456
Total claims and judgments	\$ 219,057	\$ 11,166	\$ 230,223

The City is a defendant in various lawsuits and is aware of pending claims arising in the ordinary course of its governmental and enterprise activities, certain of which seek substantial damages. That litigation includes lawsuits and claims alleging that the City caused personal injuries and/or wrongful deaths; class actions and other lawsuits and claims alleging discriminatory hiring and promotional practices and certain civil rights violations arising under the Federal Voting Rights Act; various claims from contractors for additional amounts under construction contracts; and claims involving property tax assessments and various other liability claims. The status of such litigation ranges from an early discovery stage to various levels of appeal of judgments both for and against the City. The amount of damages is limited in certain cases under the Texas Tort Claims Act and is subject to appeal. The City intends to defend itself vigorously against the suits. There is other threatened litigation for which an amount cannot be determined. The City typically utilizes the General Fund to liquidate claims and judgments.

Propositions

In 2004, Houston voters approved two ballot propositions limiting City revenue growth. Proposition 1 generally limits annual growth in property tax revenues to the lesser of the actual revenues collected in the preceding fiscal year, plus 4.5 percent, or the allowable property tax revenues in the previous fiscal year, plus the cumulative combined rates of inflation and the City's population growth. With the exception of grant monies, revenue received from other governmental entities and interfund transfers, Proposition 2 caps growth in all City revenues, including the General Fund, Special Revenue Funds and Enterprise Funds (combined revenues). Proposition 2 would require a 60 percent vote at a regular election before the City could increase combined revenues over the combined revenues for the preceding fiscal year as adjusted for rates of change in the consumer price index and population growth. Any combined revenues collected by the City in excess of the Proposition 2 restriction would be placed in a taxpayer relief fund. Although both propositions received a majority of votes in the 2004 election, the City declared that Proposition 2 was not effective because Proposition 1 received the higher number of favorable votes.

Supporters of Proposition 2 filed a lawsuit to declare Proposition 2 effective. After protracted litigation, on August 26, 2011, the Texas Supreme Court vacated the judgment of the trial court (for lack of ripeness) without reference to the merits and dismissed the case for want of jurisdiction. In April 2014, the suit was refiled. The court granted the City Defendant's Motion for Summary Judgment on September 16, 2019, and denied plaintiffs' Motion for Summary Judgment. On October 4, 2019, the trial court held a bench trial on the remaining issues. On October 29, 2019, the trial court held for the City Defendants, ordering that the plaintiffs take nothing. On October 12, 2021, the court of appeals affirmed. On April 23, 2023, the Texas Supreme Court reversed in part and remanded the case to determine whether the two propositions may be harmonized. On November 13, 2025, the trial court granted final summary judgment in favor of the City Defendants finding the propositions are irreconcilably inconsistent. The City Defendants are waiting to see if Plaintiff will appeal.

In 2007, Houston voters approved several ballot propositions including Proposition G, which eliminated some of the most serious concerns created by the potential application of Proposition 2 by revising how the City's revenues limited by the Charter would be calculated (including the removal of the revenues of the City's Enterprise Funds from the revenues limited by the City Charter), and Proposition H, which allowed the City to raise revenues for police, fire, and emergency services in excess of the revenues allowed under any revenue limitations contained in the City Charter.

Surface Water System

A general contractor has sued the City in connection with a \$1.7 billion design-build project for the construction of a 320 million gallons per day water treatment plant expansion for the Greater Houston area. The contractor's claims include claims for settlement with a subcontractor, raw material price escalation, cost overruns, and delays. The City denies Plaintiff's claims. The City counterclaimed related to a separate dispute with Plaintiff resulting from Plaintiff's demand that the City pay over the amount of the contract for site civil claims. The City claims the general contractor failed to deliver Phase 1 of the expansion construction timely. Discovery is complete and the case is currently set for trial in 2026.

Wastewater Treatment and Collection System

The City entered into a Consent Decree executed with the United States of America on behalf of the Environmental Protection Agency ("EPA") and the State of Texas ("State") to settle claims arising under the Clean Water Act relating to the City's Wastewater Collection and Treatment System. The Consent Decree became effective on April 1, 2021, when it was entered by the United States District Court for the Southern District of Texas, Houston Division, in the matter entitled United States of America, et al. v. City of Houston, Texas; Civil Action No. 4:18-cv-03368.

The Consent Decree contains specific remedial measures to address sanitary sewer overflows ("SSOs") and wastewater treatment plant permit exceedances that are being implemented over the 15-year term of the Consent Decree. A copy of the Consent Decree is available on the City's website at <https://www.publicworks.houstontx.gov/> that sets forth details regarding the City's obligations and as well as progress reports to date.

Per the provisions of the Consent Decree, the City paid \$4.4 million in penalties to the State and EPA, and \$200,000 in attorneys fees to the State to resolve all civil claims of the federal government and the State against the City for alleged wastewater violations since 2005. The Consent Decree also provides for the imposition of stipulated penalties to be paid to the United States and State over the term of the Consent Decree for SSOs, effluent exceedances, and failure to timely complete/submit deliverables and/or implement compliance requirements. The City has been assessed and has paid \$4.1 million in stipulated penalties to the United States and State for SSOs and effluent exceedances incurred during the first 3.75 years of the Consent Decree; the City has not been assessed any stipulated penalties to-date for failing to timely complete/submit deliverables and/or implement compliance requirements.

While the total amount of the investment to be made in the wastewater system will not be known until the System completes the assessment work to identify the condition and remedial measures needed, it is estimated that the City may be required to invest at least \$9 billion over the 15-year term of the Consent Decree to upgrade the wastewater system pursuant to the Consent Decree. The City is currently in the process of conducting a water and wastewater rate study to take into account this additional investment in wastewater infrastructure in evaluating impacts on future water/ wastewater utility rates. Other than the costs identified above paid for resolution of all civil claims of the federal government and the State against the City for alleged wastewater violations since 2005 and the stipulated penalties paid to date, the City cannot definitively predict the total financial impact on current and future long-term operations, annual maintenance and/or capital improvements costs that may be required, which could be substantial. Until the City completes its rate study and implements any resultant change to rates, the City will manage the System through capital investments, maintenance and assessment activities. These activities include enhanced sewer cleaning, restaurant inspections, system inspections and investigations, SSO response, and public outreach and education.

Drainage Utility Fee

In 2011, City Council passed an ordinance that imposed an assessment upon benefited properties that receive drainage services (the “Drainage Utility Fee”) to assist with the provision, maintenance and improvement of the City’s drainage and street drainage systems. Certain properties are exempt from the Drainage Utility Fee, including State government agency facilities, public and private institutions of higher education, and churches existing at the time of passage. Exempt properties comprise approximately 2.55% of the drainage service area.

The Drainage Utility Fee is deposited into a segregated drainage account in the “Dedicated Pay-As-You-Go Fund for Drainage and Streets” (the “Pay-As-You-Go Fund”), which also includes ad valorem tax revenue, certain grants, and a developer impact fee. All funding in the Pay-As-You-Go Fund that is not derived from ad valorem taxes is excluded from the revenue limitations in the City Charter.

Jones v. Turner. On October 21, 2019, taxpayers filed suit in state district court alleging miscalculation by the City of required ad valorem tax contributions to Pay-As-You-Go-Fund resulting in alleged underpayments into the fund. The plaintiffs seek declaratory relief, an injunction, mandamus relief, attorneys’ fees, and any other relief to which they may be entitled. The trial court denied the City’s plea to the jurisdiction in December 2019, and the Fourteenth Texas Court of Appeals reversed in the City’s favor and rendered a decision dismissing Jones’ claim. The Texas Supreme Court reversed the Court of Appeals decision and remanded the case to the trial court for further proceedings. The trial court sustained the City’s plea to the jurisdiction on July 6, 2023. Jones appealed and on April 23, 2024, the Fourteenth Court of Appeals reversed and ruled against the City.

In May 2025, the Harris County District Court approved the settlement agreement between the City of Houston and the plaintiffs. Under the agreement, the City will phase in the required ad valorem tax allocations to the Dedicated Drainage and Street Renewal Fund in alignment with the City Charter as interpreted by the Fourteenth Court of Appeals. The City will allocate no less than 57% of the required amount in fiscal year 2025, 67% in fiscal year 2026, and 77% in fiscal year 2027. Beginning in fiscal year 2028 and thereafter, the City will allocate the full amount required under Article IX, Section 22(b)(iii) of the Houston City Charter.

Drainage Utility Fee Litigation. In 2012, the owners of three apartment complexes filed a lawsuit against the City and the Director of Houston Public Works in their official capacity, challenging the validity of the Drainage Utility Fee and alleging ultra vires actions by the Director. The City Defendants denied Plaintiffs’ claims. The declaratory judgment claims and constitutional challenges to the ordinance and any associated ultra vires claims were resolved by interlocutory summary judgment in the City’s favor. The remaining claims were settled and the Parties’ Agreed Order of Dismissal with Prejudice was signed on July 30, 2025. This case is now closed.

A small business filed a lawsuit contending that the City and Mayor Sylvester Turner and the Director of Houston Public Works in their official capacities have illegally assessed, collected and spent hundreds of millions of dollars for drainage and street repairs from Houston taxpayers and landowners for the past seven years, pursuant to a void Charter Amendment and/or a void City Ordinance. The case was abated pending the resolution of a similar case challenging the drainage fee ordinance and remains abated.

An additional lawsuit has been filed against the City seeking a declaratory judgment that the Drainage Utility Fee is illegal and asking that the City reimburse residents who have paid the fee in prior years. The lawsuit seeks to certify such residents as a class. The trial court dismissed the case; the plaintiff has appealed and the dismissal of the case was affirmed on appeal. The Texas Supreme Court granted review, received briefing and heard oral argument. On June 10, 2022, the Texas Supreme Court confirmed the City’s ability to charge a drainage fee and remanded the case to the trial court to allow repleading on any remaining claims. The plaintiff moved for a re-hearing before the Texas Supreme Court. No additional claims have been asserted.

Houston Professional Fire Fighters' Association Settlement

The Houston Professional Fire Fighters' Association (the "Association") brought a lawsuit styled as Houston Professional Fire Fighters' Association, Local 341 v. City of Houston, Texas, Cause No. 2017-42885 ("the Lawsuit") relating to compensation of classified fire fighters of the City from July 1, 2017 to June 30, 2024. The Association (which includes the Medical Trust) and the City executed a Settlement Agreement (the "Settlement Agreement") on March 13, 2024, which provides for payment of overtime by the City to classified members of the City of Houston Fire Department employed between July 1, 2017 and June 30, 2024, and to the Medical Trust. The Settlement Agreement of \$650.0 million releases the City from all claims and causes of action asserted by the Association in the Lawsuit, other than claims for enforcement of the Settlement Agreement.

The Association and the City executed the Amendment to March 13, 2024, Settlement Agreement on May 16, 2024. The Settlement Agreement specifically exempts any fire fighter during the aforementioned time period convicted of a felony or placed on felony probation, the Fire Chief, and Executive Management Staff of the City of Houston Fire Department (Assistant Chiefs) from receiving any settlement funds (except for any period an Assistant Chief was not Executive Management Staff). Separate and apart from the settlement proceeds, the City will pay \$6.5 million in attorney's fees from the City's Property & Casualty Fund. The Settlement Agreement incorporates a Collective Bargaining Agreement related to employment terms and conditions, compensation, and benefits of classified fire fighters of the City for fiscal years 2025 to 2029.

A group of Houston Fire Department Assistant Fire Chiefs has filed suit alleging they were improperly excluded from the firefighter pay settlement approved in 2024. They claim they are "fire fighters" under state law and entitled to the same protections and compensation. In 2025, the Texas Fourteenth Court of Appeals allowed portions of their claims to proceed. The case remains pending, and no financial impact has been determined.

B. Environmental Liabilities

The City is aware of various sites contaminated by asbestos or other hazardous materials. As of June 30, 2025, the City has recorded accrued liabilities of \$19.5 million, to be used for: assessment and remediation of asbestos, lead and mold; Phase I and II environmental site assessments and remediation; and remediation of radioactive material.

C. Commitments for Capital Facilities

At June 30, 2025, the City had appropriated but not yet spent from the Capital Projects and Enterprise Funds approximately \$3.0 billion for capital projects.

D. Risk Management

The City purchases fidelity coverage to comply with City ordinance, boiler and machinery insurance with a per occurrence loss limit of \$125.0 million and commercial property insurance with a per occurrence loss limit of \$200.0 million. The commercial property insurance sub-limit for flood is \$200.0 million. The commercial property insurance provides deductibles as follows: \$2.0 million per occurrence for all perils, except (1) 3% of the damaged insured value for windstorm or hail from a named storm, subject to a \$2.5 million minimum and a \$20.0 million maximum deductible and (2) 3% of the damaged insured value for flood, subject to a \$2.5 million minimum and a \$20.0 million maximum deductible. Should a named storm event occur that involves both perils of windstorm and flood, the maximum deductible is \$20.0 million. The City's property insurance retention is 10% of the \$50.0 million primary limits, not to exceed the \$5.0 million retention limit.

Self-insured claims are reported as liabilities in the accompanying financial statements when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. This determination is based on reported pending claims, estimates of claims incurred but not yet reported, actuarial reports and historical analysis. All claims are accounted for in the accompanying Government-wide Statement of Net Position.

Claims that are expected to be paid with expendable, available financial resources are accounted for in the General Fund and the appropriate Enterprise Funds.

E. Purchase Commitments for Electricity

On July 1, 2020, the City entered into an electricity supply agreement with Reliant Energy Retail Services, Inc. for a 5-year term with two 1-year renewal options. The total committed price is approximately \$640.1 million for the expected duration of the 7-year contract term. As of June 30, 2025, the remaining commitment is approximately \$232 million.

On November 14, 2015, the City entered into a 20-year power purchase agreement with ENGIE. The 50MW solar power plant is in Alpine, Texas and provides solar power to City of Houston operations. The solar power purchase agreement started in April 2017 with a total contract value of approximately \$124.7 million. As of June 30, 2025, the remaining commitment is approximately \$80.5 million.

F. Federal and State

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, could be a liability of the City. The amount of liability, if any, cannot be determined at this time. City management believes any such claims would be immaterial to the City's financial position at June 30, 2025.

G. Chapter 380 Program and Commitment

Chapter 380 of the Local Government Code authorizes municipalities to offer incentives designed to promote economic development such as commercial and retail projects. In 1999, the City created the Chapter 380 Program (the "380 Program") by City Ordinance 1999-74, to incentivize job creation and stimulate business and commercial activity in Houston. Under the 380 Program, private businesses and developers fund public improvements in advance and assume the risks related to those public improvements during the construction period. If the improvements are completed as planned, these businesses or developers are reimbursed over time by the City from incremental property tax, sales tax, or beverage tax. At June 30, 2025, the City has a number of 380 Program agreements as follows:

Type of Agreement	Number of Active Agreements	(in thousands)		
		Gross Commitment	Reimbursed to-Date	Remaining Commitment
Agreed-up on maximum commitment	9	\$ 55,571	\$ 36,618	\$ 18,953
Actual cost reimbursement	7	\$ —	\$ 198,298	Costs subject to the City's review and approval

The remainder of this page is intentionally left blank

NOTE 14: RELATED ORGANIZATION TRANSACTIONS**A. Metropolitan Transit Authority (“METRO”)**

The City and METRO have an inter-local agreement governing the distribution and usage of a portion of incremental sales tax collected within the METRO service area for Eligible Transportation Projects (“General Mobility Program”, “Program”). The City uses funds allocated through the Program to perform street maintenance/construction, traffic control, and other eligible transportation projects. During the fiscal year ended June 30, 2025, the City recognized \$190.1 million from METRO under this contract. The breakout was \$51.8 million to Capital Projects, \$110.9 million to Special Revenue Funds and \$27.4 million to the General Fund. None of the payments were for the prior contract year. In addition, the City did not make any payments to METRO for services performed through the Program.

Consistent with provisions under Chapter 451 of the Texas Transportation Code, the City currently appoints five (5) of the nine (9) members of the METRO Board of Directors; however, the City has no financial accountability for METRO and the entity is separate from the operating activities of the City.

B. Trinity River Authority (“TRA”)

As described in Note 8.C, the City and TRA have a long-term contract under which the City is obligated to pay debt service for certain bonds as well as certain maintenance and operating expenses for a TRA dam and reservoir. During the year ended June 30, 2008, all outstanding long-term debt had been paid off. During the year ended June 30, 2025, the City paid \$5.6 million for maintenance and operating expenses under the terms of the contract.

In December 2016, the City and the TRA entered into a Raw Water Supply Contract. This contract referred to prior agreements with TRA regarding the construction of Lake Livingston and the Wallisville salinity control barrier of which the City paid for all the construction costs. The 2016 agreement established a receivable due from TRA for their 30% share of the project costs. The receivable will be offset by the charges due from the City to TRA as established by the Raw Water Supply contract. It is estimated the receivable will be dismissed by 2040. The balance as of June 30, 2025, is \$54.0 million. The current portion of this receivable is \$3.5 million with the remaining \$50.5 million reflected as non-current.

During FY2025, TRA undertook emergency repairs and rehabilitation to address damage to Lake Livingston Dam as a result of historic flows of floodwater through the reservoir. Under Interlocal Agreement (ILA) with TRA, the City shall provide up to \$45.0 million in temporary financial assistance herein for project costs. Any temporary financial assistance shall be repaid by June 30, 2026. As of June 30, 2025, the balance included \$30.8 million in current receivables related to temporary financial assistance and \$7.9 million in prepaid assets reflecting its responsibility for 70% of the local match required for FEMA grant funding.

C. Coastal Water Authority (“CWA”)

The City has a long-term contract with CWA for water conveyance. During the year ended June 30, 2025, the City paid CWA \$6.3 million for debt services and \$38.6 million for maintenance and operating expenses.

D. Jointly Governed Organizations

The City is a participant in jointly governed organizations. Six of thirteen board members of the Harris County Houston Sports Authority with the chairman appointed jointly by the City and Harris County. Three of fourteen board members of the Gulf Coast Rail District with the chairman appointed jointly by the City and Harris County.

NOTE 15: ACCOUNTING CHANGES AND ERROR CORRECTIONS**Error Corrections:**Discretely Presented Component Units

1. The following discretely presented component units reported corrections to the beginning net position for the year ended June 30, 2025:

Governmental Component Units	(amounts in thousands)
Error Corrections	
East Downtown Redevelopment Authority	\$ (105)
OST/Almeda Corridors Redevelopment Authority	(108)
Total	\$ (213)

Change in Accounting Principle:Discretely Presented Component Units

1. Houston Forensic Science Center, Inc.: Implementation of GASB Statement No. 101, *Compensated Absences*, decreased previously reported net position at June 30, 2024, by \$1,115.0 thousand.

Changes to or within the Financial Reporting Entity:Governmental Funds

1. American Rescue Plan Act (“ARPA”) Fund: The ARPA Fund was presented as a major fund in prior years due to its significance and to provide additional details of the fund. Effective July 1, 2024, the City collapsed the ARPA Fund, a sub-fund of the Grants Fund, into the Grants Fund. As a result, the beginning fund balance of the Grants Fund was increased by \$11,662.0 thousand, representing the ARPA Fund’s ending fund balance as of June 30, 2024.

Discretely Presented Component Units

1. Houston Area Library Automated Network (“HALAN”): As of July 1, 2024, all contracts with the member libraries have expired or terminated. As a result, the City no longer has any financial accountability over HALAN and report a change to the financial entity by adjusting the current reporting period’s beginning net position by \$588.0 thousand in the accompanying financial statements.

Adjustments to and Restatements of Beginning Balances

During the year ended June 30, 2025, error corrections, change in accounting principle, and changes to or within the financial reporting entity resulted in adjustments to and restatements of beginning net position and fund net position as follows:

	(amounts in thousands)						June 30, 2024	
	(Previously Reported)		(Restatements)			(Restated)		
	June 30, 2024	Error Correction	Change in Accounting Principle	Change to or within the Financial Reporting Entity	June 30, 2024

NOTE 16: SUBSEQUENT EVENTS

Management has evaluated subsequent event through the date that the financial statements were available to be issued, December 12, 2025, and determined that the following items require disclosure. No events occurring after this date have been evaluated for inclusion in these financial statements.

Convention and Entertainment Facilities

On July 24, 2025, the Convention and Entertainment issued a \$122.5 million note under the Note Purchase Agreement, as discussed in Note 8 to the financial statements, to fund expenses related to the George R. Brown Convention Center expansion project. The note matures on July 23, 2026, with a variable interest rate of 4.1% as of August 1, 2025.

Fiduciary Fund (OPEB Trust Fund)

On August 6, 2025, City Council approved the establishment of a qualifying Other Postemployment Benefits (OPEB) trust. Contributions from all departments are anticipated to begin in fiscal year 2026. The trust is intended to reduce the City's total OPEB liability over time and improve long-term financial sustainability.

Houston Airport System

On August 13, 2025, the Airport System issued \$699.8 million in Airport System Subordinate Lien Bonds in two series: 2025A (AMT) in the amount of \$677.8 million and 2025B (Non-AMT) in the amount of \$22.0 million (the "Series 2025 Airport Bonds") with interest rates on bonds ranging from 5.00% to 5.50%. The Series 2025A Bonds mature on July 1, 2055, and the Series 2025B Bonds mature on July 1, 2055. The Series 2025 Airport Bonds were issued for the purpose of providing funds to among others: (a) refunding \$34.2 million of Commercial Paper Notes and (b) pay certain costs of issuance with respect to the Series 2025 Airport Bonds and (c) provide financing for the Terminal B project at the George Bush Intercontinental Airport as well as terminal expansion at the William P. Hobby Airport. No deferred gain or loss was recognized for this transaction.

On December 2, 2025, the City issued \$277.4 million in Airport System Special Facilities Revenue Refunding Bonds (United Airlines, Inc. Terminal Improvement Projects) Series 2025B (the "Series 2025 United Bonds"), with interest rates ranging from 5.25% to 5.50%. These bonds are limited special obligations of the City. The Series 2025B United Bonds mature in varying amounts from 2026 to 2038. The Series 2025B United Bonds were issued for the purpose of: (a) defeasing and refunding the Airport System Special Facilities Revenue Bonds, Series 2011 (AMT) and Series 2015B-1 (AMT) and (b) paying costs of issuance of the Series 2025B United Bonds.

Between July 1, 2025 and December 12, 2025, the Airport System issued a total of \$112.0 million in Airport Commercial Paper with interest rates ranging from 2.43% to 3.05%. The outstanding balance of Airport Commercial Paper was \$77.8 million as of December 12, 2025.

Public Improvement Bonds

On September 30, 2025, the City issued \$284.5 million of Public Improvement Refunding Bonds, Series 2025 (the "Series 2025 PI Bonds") with an interest rate of 5.00%. The Series 2025 PI Bonds mature on March 1, 2045. The Series 2025 PI Bonds were issued for purpose to refund and defease certain of the City's outstanding general obligation commercial paper notes and pay cost of issuance.

Tax and Revenue Anticipation Notes

On October 23, 2025, the City issued \$121.0 million of Tax and Revenue Anticipation Notes, Series 2025 (the "Series 2025 Notes) with interest rates ranging from 4.00% to 5.00%. Proceeds of the Series 2025 Notes were used to finance the City's general operating expenditures for fiscal year 2026 in anticipation of the collection of taxes and revenue for fiscal year 2026. Principal of and interest on the Series 2025 Notes are payable on June 30, 2026.

Combined Utility System

On November 20, 2025, CWA issued \$50.0 million of Coastal Water Authority (CWA) Contract Revenue Bonds, Series 2025, (City of Houston Projects) with coupons ranging from 1.94% to 4.12%. The proceeds will be used to facilitate the planning, design, construction and installation of the CWA Transmission Expansion Project and to pay costs of issuance of the bonds. The bonds mature in varying amounts from 2026 to 2055.

On December 9, 2025, the City closed on a Texas Water Development Board “TWDB” Direct Placement First Lien Revenue Bond loan of \$350.0 million in Combined Utility System Revenue Bonds Series 2025 with coupons ranging from 1.99% to 4.12%. The proceeds will be used to provide funding for the East Water Purification Plant Enhancement. The bonds mature in varying amounts from 2026 to 2055.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

June 30, 2025

(Unaudited)

1. General Budget Policies

During January of each year, the Mayor, with City Council input, establishes budget guidelines. All departments of the City submit requests for appropriations to the Mayor and the City's Department of Finance so that a budget may be prepared. Typically during June, the City Controller certifies that funds are available for a continuing appropriation and the budget is proposed to City Council. City Council holds public hearings and a final budget is normally adopted by June 30th. A final appropriation ordinance is adopted later in the fiscal year and may include budget revisions or amendments.

The legal level of budgetary control is the expenditure account group within each department for the general fund. An expenditure account group means a group of accounts within a department which have similar purposes such as personnel services. The Mayor is authorized to transfer unlimited budgeted amounts within departments and amounts between departments, provided such transfers do not exceed 5% of an expenditure category. Appropriations related to funds with annual budgets lapse at year-end except for Capital Outlay appropriations, which cover multiple years.

On April 30, 2025, City Council approved the fiscal year 2025 general appropriation ordinance in the amount of \$2.7 billion for the General Fund.

Annual operating budgets are adopted for the General Operating Fund, the Debt Service Fund, the Special Revenue Funds (except for the Grants Revenue Fund, Disaster Recovery, Health Special Fund and the Housing Special Fund), and the Proprietary Funds. The budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. Budgets for proprietary funds are prepared on the accrual basis, but focus on expenses relating to maintenance and operations, and equipment purchases and, accordingly, exclude depreciation and other allocations related to income determination.

The following provides actual fiscal year 2025 results for both budgeted and non-budgeted Special Revenue Funds (in thousands):

	Revenues	Expenditures	Other Sources (Uses)
Budgeted Special Revenue Funds	\$ 473,940	\$ 368,015	\$ (11,564)
Non-budgeted Grants Revenue Fund	356,628	425,323	—
Non-budgeted Health and Housing	15,113	2,732	2,491
Non-budgeted Other Funds	73,960	103,388	(325)
Total Special Revenue Funds - Actual	\$ 919,641	\$ 899,458	\$ (9,398)

2. General Fund Budgetary Highlights

Revenues were \$130.4 million above budget. This decrease was in taxes and assessments of \$21.9 million. Additionally, increases in licenses and permits of \$2.4 million, charges for services of \$25.5 million, intergovernmental-grants of \$25.7 million, interest of \$9.5 million, other income of \$1.9 million, and other financing sources (uses) of \$43.2 million.

Significant differences between budgeted and actual taxes and assessments include:

- \$6.6 million decrease in property taxes due to lower than anticipated collections during the year. In addition, a portion of the property taxes dedicated for debt service was reported in the debt service fund.

Reporting Fund	Property Taxes Final Budget	Property Taxes Actual	Variance
General Fund	\$ 1,046,615	\$ 1,040,020	\$ (6,595)
Debt Service Fund	380,860	380,860	—
Total	\$ 1,427,475	\$ 1,420,880	\$ (6,595)

- \$3.2 million increase in industrial assessments.
- \$25.9 million increase in sales tax.
- \$1.2 million decrease in mixed beverage tax.

Notes to the Required Supplementary Information:**A. Houston Firefighters' Relief and Retirement Fund****1. Benefit changes in fiscal year ended June 30, 2017:**

- a. Standard service pension benefit changed for retirements on or after November 1, 1997, to the following: for retirement on or after November 1, 1997, and applicable for service accrued prior to July 1, 2017, 50% of monthly salary; plus 3% of average monthly salary per year of service in excess of 20 years. For service accrued after July 1, 2017, 2.75% of average monthly salary per year of service for the member's first 20 years of service; plus 2% of average monthly salary per year of service in excess of 20 years

2. Changes of assumptions:

- a. The discount rate was changed from 8.50% to 7.25% for the year ended June 30, 2017. The discount rate was changed from 7.25% to 7.00% for the year ended June 30, 2024.
- b. For the year ended June 30, 2018, mortality rates for active participants and non-disabled pensioners were based on the RP-2014 Mortality Tables with Blue Collar Adjustment and generational improvement using Scale MP-2017. Projected longevity improvements were applied by adjusting the RP-2014 tables back to 2006 using Scale MP-2014, and then applying generational projection from 2006 forward using Scale MP-2017. For the year ended June 30, 2021, Scale MP-2017 was replaced with Scale MP-2019. For the year ended June 30, 2024, Scale MP-2019 was replaced with Scale MP-2021.
- c. For the year ended June 30, 2021, the assumptions used in the actuary report are based on recommendations made and approved by the HFRRF Board as part of an experience study covering fiscal year ended June 30, 2015 through fiscal year ended June 30, 2019. For the year ended June 30, 2024, the assumptions used in the actuary report are based on recommendations made and approved by the HFRRF Board as part of an experience study covering fiscal year ended June 30, 2020 through fiscal year ended June 30, 2023.

B. Houston Municipal Employee Pension System**1. Changes of assumptions:**

- a. Discount rate was changed from 8.50% to 8.00% as of July 1, 2015, and subsequently lowered to 7.00% as of July 1, 2017.
- b. The actuarially determined contribution includes the Legacy Liability payment as specified by the July 1, 2016 Risk Sharing Valuation and a calculated employer rate equal to the normal cost and the amortization of any new unfunded liabilities over a closed 30-year period from the valuation date the liability base was created.
- c. Salary increases were changed as of July 1, 2016, from 3.25%-6.00%, including inflation, to 3.25%-5.50%, including inflation.

2. Covered payroll for 2022 is reported fiscal year pay, except for Houston First Corporation ("HFC") employees. For HFC, annualized pay was used.**C. Houston Police Officers' Pension System****1. Benefit changes:**

- a. The benefit changes in fiscal year 2017 are detailed in the "Final Risk Sharing Valuation Study as of June 30, 2016" dated September 25, 2017, as a result of the amendment of the Governing Statute on July 1, 2017, which included changes to normal retirement eligibility, normal retirement benefit, and post-retirement Cost of Living Adjustments (COLA).

b. The benefit changes in fiscal year 2025 are due to Texas HB 2688 which became law on September 1, 2025. The law adjusted certain pension benefits for members hired or rehired subsequent to October 9, 2004. These members will subsequently be eligible to retire upon attaining twenty years of service or alternatively attaining ten years of service and age 60. In addition, these Members will be eligible to participate in the (Deferred Retirement Option Plan (DROP) and Post Retirement Option Plan (PROP) programs.

2. Changes of assumptions:

- a. Discount rate was changed from 8.00% to 7.00% for the year ended June 30, 2017.
- b. A new set of assumptions were adopted in the July 1, 2018, actuarial valuation and are first reflected in the contribution rate determined for the fiscal year ending 2020.

D. Schedule of City Contributions for Pension Plans

1. Separately issued / audited financial statements for each of the pension plans can be obtained by contacting the pension boards or via the links below:

- a. Houston Firefighters' Relief and Retirement Fund: 4225 Interwood North Parkway, Houston, TX 77032. (<https://www.hfrrf.org/about-us/governance/>)
- b. Houston Municipal Employees Pension System: 1201 Louisiana, Suite 900, Houston, TX 77002. (<https://hmepps.org/publication-type/annual-reports/>)
- c. Houston Police Officers' Pension System: 602 Sawyer, Suite 300, Houston, TX 77007. (<https://www.hpops.org/publications/acfr/>)

Notes to Schedule:

1. The schedule is intended to show information for ten years. The additional years' information will be displayed as it becomes available.
2. There are no assets in a trust compliant with GASB codification P22.101 or P52.101 to pay related benefits.
3. Benefit changes: Reflected for the June 30, 2021 measurement date - Texas Plus, Cigna Health Spring, and UHC Plan F plans have all been terminated as of December 31, 2020, and a new plan, Aetna PO1 PPO Basic, was added as of January 1, 2021.
4. Changes of assumptions:
 - a. Discount rate reflected for the June 30 measurement date: 2024 - 3.93%; 2023 - 3.65%; 2022 - 3.54%; 2021 - 2.16%; 2020 - 2.21%; 2019 - 3.50%; 2018 - 3.87%; 2017 - 3.58%.
 - b. Reflected for the June 30, 2023, measurement date, the trend rates associated with the starting healthcare claims and contribution were updated to reflect recent experience and expected impacts due to the Inflation Reduction Act (IRA) legislation effective in 2025.
 - c. Reflected for the June 30, 2022, measurement date, medical and prescription drug claims costs and trend rates were updated to reflect recent experience. The actuarial factors used to estimate individual retiree and spouse costs by age and by gender were updated. The new factors are based on a review of historical claims experience by age, gender, and status (active vs retired) from Segal's claims data warehouse.
 - d. Reflected for the June 30, 2021, measurement date, the demographic assumptions (mortality, turnover, disability and retirement) for the Fire department were updated to be consistent with the Houston Firefighter's Relief and Retirement Fund actuarial certification as of July 1, 2020, dated September 16, 2021, completed by Buck Consulting.
 - e. Reflected for the June 30, 2020, measurement date, life insurance to be fully retiree paid and is no longer being valued.

GOVERNMENTAL FUNDS

HOUSTON CITY HALL
PHOTO BY: SIVO

Governmental Funds:

Houston City Hall stands as a testament to democratic governance and public service. Framed by civic green space and architectural clarity, it reflects the City's commitment to transparency, equity, and responsible stewardship of public resources.

Governmental Funds

General Fund – The General Fund is used to account for sources and uses of financial resources applicable to the general government operation of the City. All general operating revenues and expenditures that are not restricted and, therefore, accounted for in another fund, are recorded in the General Fund.

Debt Service Fund – The Debt Service Fund is used to account for the payment of interest and principal on all general long-term debt other than debt issued for and serviced by Enterprise Funds.

Capital Projects Fund – The Capital Projects Fund accounts for all resources used for the acquisition and/or construction of capital facilities by the City, except those financed by Enterprise Funds.

ARPA Fiscal Recovery Fund – The ARPA Fiscal Recovery Fund is used to receive funds from the U.S. Department of Treasury to be used for the response efforts relating to local fiscal recovery from the COVID-19 pandemic pursuant to the American Rescue Plan Act of 2021. This fund is no longer reported separately and is fully incorporated into the Grants Fund for the fiscal year ended June 30, 2025.

Grants Fund – The Grants Fund is used to account for grant resources received from various local, state, federal, and national agencies and organizations. The use of these resources is restricted to a particular function of the City by the grantor.

Nonmajor Funds – Nonmajor Funds did not meet the established criteria for major fund status. They are used to account for the proceeds of specific revenue sources (other than capital projects) that are restricted to expenditures for special purposes. All Nonmajor Funds have been presented; however, only certain sub-funds have legally adopted budgets. Nonmajor funds are:

- Public Safety Special Fund
 - Budgeted: Asset Forfeiture, Auto Dealers, Child Safety, Houston Emergency Center, Houston Opioid Abatement, Local Youth Diversion Fund, Municipal Courts Technology Fee, and Police Special Services
 - Not budgeted: Helmets for Bicycle Safety, Nuisance Abatement, and FTA Special
- Public Works Special Fund
 - Budgeted: Building Inspection, Dedicated Drainage and Street Renewal, Historic Preservation, Planning and Development Special, and Recycling Revenue
 - Not budgeted: Mobility Response Team
- Health and Housing Special Fund
 - Budgeted: Essential Public Health Services, Health Special, Laboratory Services, Special Waste, and Swimming Pool Safety
 - Not budgeted: Housing Special, and HJTPC Self Insurance
- Parks and Recreation Special Fund
 - Budgeted: Bayou Greenway 2020, Parks Golf Special, and Parks Special
 - Not budgeted: MacGregor Parks Endowment, and Planting Tree
- Other Special Revenue Fund
 - Budgeted: Cable Television, Contractor Responsibility, Houston TranStar, and Park Houston
 - Not budgeted: MNC Memorial City Way, W.A.T.E.R., and John Battaglia Trust, Inc. Fund

ENTERPRISE
FUNDS

MCGOVERN CENTENNIAL GARDENS
AT HERMANN PARK
PHOTO BY HARSHAVARDHAN

Enterprise Funds:

The cascading water feature at McGovern Centennial Gardens in Hermann Park reflects the balance of beauty, function, and sustainability.

Enterprise Funds

Enterprise funds are established to account for City operations that are financed and operated in a manner similar to private business enterprises where the cost of providing goods or services to the general public is financed primarily through user charges.

Airport System — This fund is used to account for the operations of the City's Airport System. The system is comprised of George Bush Intercontinental Airport, William P. Hobby Airport and Ellington Airport.

Convention and Entertainment Facilities — This fund is used to account for the managements of the City's major convention and entertainment centers, as well as parking facilities and selected downtown parks. These centers include George R. Brown Convention Center, Jones Hall, Wortham Theater Center, Bayou Places, Hobby Center, Talento Bilingue de Houston, and Miller Outdoor Theater. The parking facilities include the Theater District Parking Garage, the Convention District Garages and various surface lots. Downtown parks include Sesquicentennial Park, Jones Plaza, Root Memorial Square, and Sabine Promenade.

Combined Utility System — This fund is used to account for the production and transmission of water and the treatment of wastewater for City residents and businesses as well as for other governmental entities located in the Houston area.

INTERNAL SERVICE FUNDS

HALL OF ANCIENT EGYPT AT
THE HOUSTON MUSEUM OF NATURAL SCIENCE
PHOTO BY: JEFF WHYTE

Internal Service Funds:

The Hall of Ancient Egypt at the Houston Museum of Natural Science showcases the intricate systems and craftsmanship that sustained a civilization.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one City department to other City departments on a cost reimbursement basis.

Health Benefits — This fund is used to account for the costs incurred to provide City employees' health care and life insurance benefits.

Long-Term Disability — This fund is used to account for the costs incurred to provide City employees' long-term disability coverage.

FIDUCIARY FUNDS

GEORGE R. BROWN CONVENTION CENTER
PHOTO BY: F11PHOTO

Fiduciary Funds:

Overlooking Houston's vibrant convention district, the George R. Brown Convention Center represents coordination, trust, and service at scale.

Fiduciary Funds

Funds are used to account for assets held by a government unit as trustee or agent, for individuals, private organizations, and/or other governmental units.

Pension trust funds are used to account for the operation of the employee pension retirement programs. The funds include: Houston Firefighters' Relief and Retirement, Houston Municipal Employees', and Police Officers' pension trust funds.

Private-purpose trust fund is used to account for assets held in a trust of the Houston Foundation which is dedicated to providing benefits to recipients in accordance with the benefit terms. The Houston Foundation was created by City ordinance on March 22, 1915, as a general-purpose charity trust and is administered by an outside board of directors. The City's Finance Director serves as the treasurer of the board in accordance with the ordinance. Additions to the trust consist of individual donor contributions and investment income. Distributions from the fund, primarily to external/eligible 501(c)(3) organizations, may be made for humanitarian needs of the people of Houston.

CITY OF HOUSTON, TEXAS

This page is intentionally left blank

COMPONENT FUNDS

GEORGE BUSH INTERCONTINENTAL AIRPORT
PHOTO BY: HOUSTON AIRPORT SYSTEM

Component Units:

Framed by a vibrant Texas sunset, the colorful international landmark sculptures at George Bush Intercontinental Airport symbolize Houston's role as a global gateway and highlight the city's strength through diversity.

Discretely Presented Component Units (Governmental-type)

Discretely Presented Component Units are legally separate organizations that the City of Houston must include as a part of its financial reporting entity for fair presentation. The City has thirty-three (33) governmental nonmajor component units which are divided into five (5) categories.

Redevelopment – Local government corporations created by the City to redevelop blighted neighborhoods adjacent to Downtown Houston and other areas of the City.

Arts & Cultural – Non-profit organizations with a mission to enhance the city's quality of life through advancing and investing in the arts, diverse cultural programming, library service, tourist and film projects.

Educational & Research – Non-profit organizations with a mission to coordinate and develop public and educational cable access activities within the City of Houston.

Houston BARC Foundation – A 501(c)(3) non-profit corporation with a mission to enhance the city's quality of life through advancing and investing in the care and humane treatment of animals.

Houston Recovery Center LGC, Inc. – Local government corporation created by the City in accordance with Chapter 431 of the Texas Transportation Corporation Act to provide management of the Houston Center for Sobriety.

STATISTICAL SECTION

FERRIS WHEEL AT THE
HOUSTON LIVESTOCK SHOW AND RODEO
PHOTO BY: HARSHAVARDHAN

Statistical Section:

The illuminated Ferris wheel at the Houston Livestock Show and Rodeo captures the spirit of tradition, celebration, and shared experience.

Statistical Section

(Unaudited)

This part of the City's Statistical annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<u>Content</u>	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	248
Revenue Capacity These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.	259
Debt Capacity These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	265
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	274
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	278

Capital Improvement Plan

The 2025 - 2029 CIP consists of the projects and facilities described in the following chart. (The 2025-2029 CIP also includes proposed improvements for the Combined Utility System, Airport System and Convention and Entertainment Facilities, which are financed primarily with revenues of those enterprise systems and, therefore, are not included in the table below).

	Amount
Streets, Bridges and Traffic Control	\$ 1,240,102
Storm Sewers and Drainage	1,016,318
Parks and Recreation	115,516
Police Department	93,687
Fire Department	94,946
General Government	183,789
Public Library	46,019
Public Health	45,225
Solid Waste Management	23,817
Homeless and Housing	6,390
Technology	77,253
Fleet	224,649
Total	\$ 3,167,711 (*)

(*) The tax-supported component of the 2025-2029 CIP addresses a full range of capital facility and infrastructure improvements. The voter authorized improvements are expected to be initially financed with Commercial Paper Notes. The remaining amount is expected to be funded by grants, funds from agencies participating in joint capital improvement projects with the City and various other sources.

General Fund Indirect Charges to Other City Funds

A charge is made by the General Fund to the Water and Sewer System, Airport System, and to certain grant and special revenue funds for indirect charges incurred by the General Fund on behalf of such funds.

Fiscal Year	Amount
2025	\$ 25,848
2024	25,984
2023	22,801
2022	25,235
2021	24,688
2020	27,789
2019	26,603
2018	28,910
2017	27,399
2016	26,611

⁽¹⁾ Beginning in Fiscal Year 2018, the City began reflecting the 19.3% of the hotel occupancy tax that was designated to the General Fund in the General Fund as opposed to the Convention and Entertainment Fund. The amount here represents the 81% available to cover bond covenants.

⁽²⁾ Beginning in Fiscal Year 2020, Bingo revenue was no longer considered a tax. It is now considered a fee and reported in Other Miscellaneous Revenues.

Total overlapping debt		29,178,821			6,327,549
Total direct and overlapping debt		\$ 32,995,160			\$ 10,143,888

⁽¹⁾ The net direct debt amounts above, except for that which relates to the City of Houston, were provided by the individual government entities or the Municipal Advisory Council of Texas (MACTx). The percentage of debt applicable to the City was provided by MACTx. Net Direct Debt is equal to the outstanding principal amount less sinking fund balances.

⁽²⁾ The percentage of overlapping debt applicable is estimated using (market or taxable) assessed property values. Applicable percentages were estimated by determining the portion of the overlapping government's (market or taxable) assessed value that is within the overlapping jurisdiction's boundaries and dividing it by the overlapping jurisdiction's total (market or taxable) assessed value.

⁽¹⁾ The Texas Constitution limits the maximum ad valorem tax rate to \$2.50 per \$100 of assessed valuation for home-rule cities such as the City; however, for a discussion of the more restrictive City Charter Limitations, see "PROPERTY TAXES – City Charter Tax and Revenue Limitations."

⁽²⁾ The figures represent net adjusted levies, including the late certification and correction rolls from the Appraisal District, through June 30 of each Fiscal Year, except for fiscal year 2026, which is as of August 22, 2025.

⁽³⁾ These amounts do not include revenues from various types of Industrial District Contracts entered into by the City with industrial property owners outside of the City's corporate limits. Such Industrial District Contracts have a term of fifteen years (currently scheduled to terminate in Tax Year 2027) and allow property owners to make payments to the City in lieu of paying ad valorem taxes.

⁽⁴⁾ Includes all ad valorem tax receipts received by the City, including tax increment revenues that are deposited into special funds designated for various tax increment reinvestment zones. By virtue of contracts among the City, the Zones and the local government corporations that manage the zones, the tax increments are transferred to the respective local government corporation and are available to fund authorized projects in the Zone and to be pledged to obligations issued by the local government corporation on behalf of the Zone. Bonds and other obligations issued by the local government are not debt of the City. In Fiscal Year 2026, the City has budgeted approximately \$233 million of tax increments to be transferred to special funds for such zones, as required by State law, of which approximately \$40 million will be transferred back to the City for affordable housing projects, an administrative fee and a fee for municipal service costs attributable to development in such Zones. Much of the tax increments transferred to the zones are used to promote economic developments through the acquisition and construction of public improvements to spur development in certain areas of the City. Additionally, the zones provide affordable housing and funds for certain City capital improvement projects.

⁽⁵⁾ The City's fiscal year 2026 Budget includes a property tax levy in compliance with Proposition 1 & H. Upon receipt of the Certified Initial Roll a proposed tax rate is calculated to comply with the tax revenue restrictions.

⁽¹⁾ With the exception of Tax Year 2024, the tax roll represents the total appraised value of property, after subtracting all exemptions, and reflects all adjustments made by the Appraisal Districts as of June 30 of each Fiscal Year. The Tax Year 2024 amount represents the Appraisal Districts' estimate of certified taxable property values.

⁽²⁾ Per capita figures are based on population estimates according to the U.S. Census Bureau.

⁽³⁾ These amounts have not been reduced by the combined ending fund balances in the General Debt Service Fund.

⁽⁴⁾ These amounts include principal and interest payments for Tax Obligations, except it only includes interest for Commercial Paper Notes at an assumed rate appropriate for each Fiscal Year.

⁽⁵⁾ Sources of funds for the general obligation debt service requirement include the tax levy and transfers from Enterprise and Special Revenue Funds.

⁽⁶⁾ Information as reported in the City's Monthly Operations and Financial Report dated as of December 31 of each Fiscal Year.

**PRINCIPAL AND INTEREST PAYABLE FROM AD VALOREM TAXES
(EXCLUDING COMMERCIAL PAPER NOTES)**
(unaudited)

The following schedule presents the City's debt service requirements for fiscal years 2026 through 2053 for the outstanding Tax Bonds, Pension Obligations, and Tax Certificates. Debt service on commercial paper notes is not reflected in the schedule below.

Fiscal Year Ending June 30	Tax Bonds ⁽¹⁾	Pension Obligations ⁽²⁾	Tax Certificates ⁽³⁾	Total Debt Service ⁽⁴⁾
2026	\$ 251,657,147	\$ 93,730,709	\$ —	\$ 345,387,856

2053	—	—	—	—
	\$ 3,043,371,942	\$ 1,957,140,019	\$ —	\$ 5,000,511,961

Each Fiscal Year the City budgets for Commercial Paper Notes debt service and related reserve funds based on a calculation that assumes a certain amount of Commercial Paper Notes is expected to be issued during that Fiscal Year at an assumed rate of interest.

⁽¹⁾ Total debt service does not include payments related to various leases for office space and equipment, which are not considered debt under Texas law. The terms and conditions of such leases and agreements vary.

⁽²⁾ GO portion only.

⁽³⁾ Adjusted to reflect the sinking fund payments for the Tax and Revenue Certificates of Obligation (QEBC - Direct Pay to Issuer), Series 2013Q (the "Series 2013Q Certificates"). Excludes the federal subsidy payment expected to be received by the City in connection with the Series 2013Q Certificates.

⁽⁴⁾ Totals may reflect a variance due to rounding.

Fire										
Number of calls dispatched	336,170	335,693	346,023	337,613	347,409	363,767	382,971	390,547	409,590	412,188
Inspections ⁽¹⁾	74,906	11,000	25,742	30,579	34,582	36,160	27,731	26,910	22,944	27,728
Highways and streets										
Streets resurfaced (miles)	152	186	142	153	158	136	143	126	123	109
Tons of asphalt for pothole repair and skin patches	13,130	13,328	13,058	11,507	15,026	11,379	10,573	10,414	9,613	8,719
Parks and recreation										
Athletic field permits issued	2,270	2,423	2,300	2,342	1,715	608	1,890	2,377	2,695	2,714
Community center admissions (thousands)	5,547	5,838	5,470	5,810	4,521	1,637	2,976	3,582	3,801	4,112
Sanitation										
Refuse collected (tons)	695,613	725,819	732,015	718,506	753,879	773,596	716,584	687,408	681,200	706,951
Recyclables collected (tons) ⁽²⁾	127,421	120,324	76,024	99,697	127,160	124,075	90,714	64,724	59,591	58,041
Water										
New connections ⁽³⁾	4,559	4,530	4,612	4,524	3,083	3,805	4,009	3,956	4,662	4,367
Water main breaks	11,122	9,638	8,355	11,067	8,178	9,427	8,539	11,119	11,788	12,483
Average daily pumpage (millions of gallons)	445	458	461	454	455	447	458	476	514	516
Wastewater										
Wastewater line repairs	2,252	2,322	2,452	2,222	1,893	2,152	2,067	1,987	2,120	2,162
Average daily sewage treatment (millions of gallons)	256	253	252	270	245	264	251	242	249	261

⁽¹⁾ The Fire Department now has a better system to record inspections. For example, a ten-building apartment complex is now counted as ten inspections, not one.

⁽²⁾ The Solid Waste Department started the tree recycling program in January 2009, which greatly increased the tons of recyclables collected.

⁽³⁾ New connections represents all water connection types as meters (physical connections) to the water supply, not the regulatory definition of a connection.

(1) The Pledged Hotel Occupancy Tax (HOT) revenues are revenues (including penalties, interest and delinquencies, if any) collected due to an occupancy tax of 5.65% applied to the cost of substantially all hotel room rentals in the City other than the Hilton Americas Hotel during the first ten years of its operation. The total HOT imposed by the City is 7%.

(2) The City's pledge of parking revenues for debt service is subordinate to the City's pledge of the first \$1,200,000 of such gross revenues, charges and tolls to the payment of its annual obligation under the Music Hall Lease, unless such obligation is paid, defeased, matures or is otherwise restructured. These annual payments totaled \$1,000,000 for fiscal years 2001-2005, \$1,050,000 for fiscal year 2006, and \$1,100,000 for fiscal years 2007 and beyond.

(3) Amounts shown do not include investment earnings on pledged revenues, which are also pledged.

 Coverage of Maximum Annual Debt Service Requirements on Previous Ordinance Bonds	25.56
Coverage of Maximum Annual Debt Service Requirements on First Lien Bonds	4.48
Coverage of Maximum Annual Debt Service Requirements on Previous Ordinance Bonds and First Lien Bonds	4.44

⁽¹⁾ Does not include debt service on CWA Bonds, which are payable from Gross Revenues as a Maintenance and Operating Expense of the Combined Utility System.

⁽²⁾ First Lien Debt Service largest payment requirement.

⁽³⁾ Excludes Restricted Receipts under Master Ordinance.

⁽⁴⁾ Net Revenues as calculated under the Master Ordinance, which includes as revenues restricted receipts and earnings under the Master Ordinance.

⁽⁵⁾ Available cash from Operating and General Purpose Fund net of encumbrances.

The Combined Utility System - Water & Sewer Facilities General

The City of Houston Drinking Water Operations (DWO) System covers over 579 square miles, providing drinking water to four counties: Harris, Fort Bend, Montgomery, and Galveston. There are 509,561 active water service accounts. 88% of source water is pulled from the San Jacinto and Trinity rivers while the remaining 12% originates from groundwater wells. In total, DWO has 941 million gallons per day (MGD) combined design production capacity of groundwater and surface water. More specifically, the water production and storage system include 3 surface water plants, 54 groundwater plants, 130 groundwater wells, 7 surface water re-pressurization plants, and 136 water storage tanks and towers. Average water purification and production is 516 MGD, which is enough to fill the Astrodome almost twice per day. The water distribution network consists of 7,732 linear miles of piping, 62,686 fire hydrants, and over 171,924 valves that are managed and maintained to the highest standards.

The City of Houston Wastewater Operations System receives and processes wastewater generated by residential, commercial, and industrial customers throughout the service area. The service area covers approximately 650 square miles within the City of Houston and serves a population of about 2.3 million people. The Wastewater System consists of over 6,080 miles of both gravity and force main lines, 539 miles of service lines within public right of way, 38 wastewater treatment plants, and over 365 lift/pumping stations and a centralized laboratory. The general condition of the collection lines varies depending on age, location and type of construction. The average daily wastewater flow through the Wastewater Treatment Facilities for Fiscal Year 2025 was 261 million gallons per day (mgd). The permitted treatment capacity of the wastewater treatment facilities, as reflected by State permits, is 563 mgd.

The Combined Utility System - Annexation Program - In - City Districts

The City has created reinvestment zones and public improvement districts in which infrastructure improvements, including water and wastewater facilities, will be financed by the respective district or zone through bonds supported by assessments within the districts and by a tax increment fund into which will be deposited the amount of ad valorem taxes collected in the reinvestment zones in excess of the amount calculated on the basis of the property tax appraisals in effect at the time of creation of the particular reinvestment zone. Under State law, the City can create a public improvement district both within the corporate limits of the City and within its extraterritorial jurisdiction.

COMBINED UTILITY SYSTEM STATISTICS
(unaudited)

Funding of Proposed System Improvements

It is anticipated that the system improvements contemplated in the Combined Utility System's Fiscal Year 2026-2030 CIP will be financed approximately as follows:

Proposed Source of Funding	Amount (in thousands)
System Revenue Bonds (Net Proceeds and Interest Earnings) ⁽¹⁾	\$ 4,378,360
System Revenue	1,500,000
Swift Loan (Subordinate Lien)	2,075,830
Contributed Capital	102,734
	<hr/>
	\$ 8,056,924

(1) The department's fiscal year 2026-2030 CIP anticipates the periodic issuance of additional First Lien Bonds and Subordinate Lien Commercial Paper. City Council must approve each issuance of bonds, but not each issuance of Commercial Paper Notes.

Obligations Payable from Combined Utility System Revenues

The following sets forth the total outstanding principal amount of the Combined Utility System obligations payable from revenues of the Combined Utility System as of June 30, 2025:

Contract Revenue Bonds Payable from System Gross Revenues	Amount (in thousands)
CWA Bonds ⁽¹⁾	\$ 60,320
Total - Contract Revenue Bonds	<hr/> \$ 60,320

System Revenue Bonds Payable from System Net Revenues

Previous Ordinance Bonds	\$ 25,302
First Lien Bonds	5,615,925
Third Lien Obligations	—
Total - System Revenue Bonds	<hr/> \$ 5,641,227
Total - All Bonds Payable from System Revenues	<hr/> \$ 5,701,547

⁽¹⁾ Under a 1968 agreement, as amended and superseded in part, and a 1995 agreement, CWA agreed to construct the CWA conveyance system and certain other projects and the City agreed to pay, as a maintenance and operation expense of the System, amounts calculated to be sufficient to cover maintenance and operation expenses of the CWA Conveyance System plus debt service of the CWA Bonds.

	\$ 39,586,407

COMBINED UTILITY SYSTEM STATISTICS**June 30, 2025****(unaudited)****Water and Sewer Rate Adjustments**

In recent years, the water and sewer rates have been adjusted on the average as follows:

Date of Change	Average Percent Rate Increase (Decrease)	
	Water	Sewer
April 2016	1.4 %	1.4 %
April 2017	3.4 %	3.4 %
April 2018	2.8 %	2.8 %
April 2019	2.8 %	2.8 %
April 2020	3.5 %	3.5 %
April 2021	1.5 %	1.5 %
April 2022	9.0 %	20.0 %
September 2022	7.5 %	11.0 %
April 2023*	5.6 %	5.6 %
April 2023	9.2 %	9.2 %
April 2024	6.0 %	6.0 %
April 2024*	7.0 %	11.0 %
April 2025*	6.0 %	6.0 %

1. Current water rates are based on customer class. Customer classes include single-family, commercial, industrial, contract and agricultural. The amount of the bill is the sum of the fixed charge based on meter size and an additional charge based on the volume of water consumed. For example, for single-family customers, water rates can vary from \$9.93 for the first thousand gallons to \$105.59 for ten thousand gallons.
2. Wastewater rates also include a fixed charge based on meter size and an additional charge based on the volume of the water usage. For example, for single-family customers, wastewater rates can vary from \$23.32 for the first thousand gallons to \$137.96 for ten thousand gallons. Additionally, industrial customers may be subject to a sewer surcharge based on the quality of their wastewater discharge.
3. The bill for a typical single family residential customer using 7,000 gallons per month would be \$165.64 for both water and wastewater services. Refer to table below for further information. However, total water and sewer charges may range from \$33.25 for 1,000 gallons to \$116.90 for 5,000 gallons per month for single-family residential customers.
4. *Determined from Water and Wastewater Cost of Service Study Rate formally approved by City Council in 2021. Refer to City of Houston, TX Ordinance No. 2021-15 for further information.

COMBINED UTILITY SYSTEM STATISTICS**June 30, 2025****Water Supply**
(unaudited)**Capacity, Production, and Sales**

The following schedule sets forth information concerning Water Facilities capacity, production and sales for Fiscal Year 2025 (million gallons per day):

	Available Capacity	Production Planned	Actual Production
Ground	159	72	61
Surface	640	467	456
Total	799	539	517
<hr/>			
Total Sales			
Treated	419		
Untreated	246		
	665		

Sources of Combined Utility System Revenues - General

As of June 30, 2025, the Water Facilities and the Sewer Facilities served approximately 509,561 and 481,842 active service account connections, respectively. During Fiscal Year 2025 approximately 48.15% of System Gross Revenues were derived from the sale of water, (90.49% from treated water and 9.51% from untreated water), approximately 44.15% from providing wastewater treatment services 2.81% from interest income and the remaining 4.89% from various other sources. Of the treated water sales, 84.74% of revenues were from retail customers and 15.26% from bulk sales to other governmental entities.

COMBINED UTILITY SYSTEM STATISTICS**June 30, 2025****Water Supply**
(unaudited)**Largest Treated Water Customers**

The following schedule presents information concerning the ten largest treated water customers of the Combined Utility System for the twelve month period ended June 30, 2025. The total charges to such customers during such period represent approximately 3.79% of the Combined Utility System's Gross Revenues and 7.82% of total water sales revenues for such period.

Customers	Charges
1. North Harris Co. Regional Water Authority	\$ 17,777,759
2. North Channel Water Authority	11,438,070
3. West Harris Co. Regional Water Authority	8,826,673
4. City of Pasadena	6,617,692
5. North Fort Bend County Water Authority	5,859,873

⁽¹⁾ Includes CWA Maintenance and Operating lien.

⁽²⁾ \$249,075,000 of the Series 2012C variable rate bond debt service is calculated at the rate of 5.061% through March 2013 and thereafter at the fixed rate payor swap rate of 3.761%. This was refunded in 2016 & again in 2018 to Series 2016C and Series 2018C respectively. Series 2004B debt service is adjusted to take into account expected payments under the Series 2004B Qualified Hedge Agreements.

Discretionary Debt Service Paid by the System

The total amount of Discretionary Debt Service paid from Net Revenues of the Combined Utility System for the past nine fiscal years and the amount budgeted for fiscal year 2026 is set forth below:

Fiscal Year	Discretionary Debt Service (in millions)
2026 (budgeted)	\$ —
2025	2.9
2024	2.8
2023	4.9
2022	4.9
2021	5.0
2020	5.6
2019	7.8
2018	9.1
2017	9.2

Combined Utility System General Purpose Fund Transfers for Drainage

The Combined Utility System transfers from its General Purpose Fund to the Storm Water Fund for the past nine fiscal years and the amount budgeted for fiscal year 2026 are reflected below:

Fiscal Year	General Purpose Fund Transfers (in millions)
2026 (budgeted)	\$ 127.8
2025	88.4
2024	37.8
2023	49.2
2022	52.6
2021	56.5
2020	45.3
2019	50.1
2018	53.9
2017	52.3

Indirect Charges Paid by the System

Fiscal Year	Indirect Charges (in thousands)
2026 (budgeted)	\$ 11,414
2025	9,220
2024	8,418
2023	7,333
2022	8,824
2021	9,503
2020	11,069
2019	10,404
2018	10,877
2017	9,988

AIRPORT SYSTEM STATISTICS
System Debt Service Schedule
(unaudited)

The following table sets forth the Debt Service Requirements on all Airport Revenue Bonds Outstanding, assuming scheduled mandatory redemption of any term bonds and using rates in effect at year-end for auction rate securities and variable rate demand obligations. The amounts do not include the Airport System's Senior Lien Commercial Paper Notes.

Fiscal Year (ending June 30)	Subordinate Lien Bonds Debt Service	Total Bonds Debt Service
2026	\$ 230,302,000	\$ 230,302,000
2027	241,253,000	241,253,000
2028	241,105,000	241,105,000
