Houston, Texas 77002

Re: Places4People - St. George Place Redevelopment Authority's Greenridge Drive Reconstruction Project

Dear Commissioner Briones,

I am pleased to support the St. George Place Redevelopment Authority's Greenridge Drive Reconstruction Project, submitted through Harris County Precinct 4's Places4People program. The corridor's reconstruction is critical to improving safety, accessibility, and mobility along the corridor from Westheimer Road to Beverly Hill Street in southwest Houston.

Currently, Greenridge Drive lacks basic infrastructure, including sidewalks, accessibility features, curbs, and pavement markings. A recent analysis by the Authority identified significant safety concerns, including a high rate of intersection-related congestion and multiple crashes in the past five years, nine involving pedestrians and three involving bicyclists, one of which was fatal at the Richmond Avenue intersection. In addition to these safety hazards, the Greenridge Drive and Richmond Avenue intersection experiences heavy congestion due to the lack of dedicated turn lanes. The proposed project will improve traffic operations and provide safer turning movements, ultimately benefiting all corridor users.

This project represents an essential investment in the safety, accessibility, and efficiency of our community's transportation network.

Thank you for your consideration,

COUNCIL MEMBER SALLIE ALCORN, AT-LARGE 5
